played on the state fair grounds' dia-
mond, Sunday afternoon, beginning
at 2:30 o'clock, between the Opera
House and Steam Laundry nines. The
game resulted last week in a score of
25 to 11 in favor of the Opera House
team, but the Laundry boys will make
every effort in tomorrow's game to re-
gain their lost reputation as local
champions of the diamond. The game
will be umpired by Pete Beckett, and
the teams will line up as follows:

Oregon Fire Clay.

Gilbert Bros., of this city, have been
handling a first-class fire clay this
season, and have now on display a fine
lot of fire brick made from this clay,
which is shipped from Buena Vista by
water and burned by Burton Bros., of
this city. They have placed several
lots where they will be given severe
tests. If they stand fire, Gilbert Bros.
propose to put in a big kiln and sup-
ply the market. This will add an im-
portant industry to our city. The
brick have all the appearance of being
well-made brick, and for quality their
reputation is established. A fire place
in a large residence in this city was
built of these brick sixteen years ago
and is not burned out yet. Bud Chap-
man, who is an expert builder of
chimneys, says that the Buena Vista
clay cannot be beat in quality. It has
been shipped to England and the brick
made of it pronounced both here and
there unexcelled. It would seem that
here is the raw material for an im-
portant industry.

A BIG SUNFLOWER.—N. J. Nelson,
of Oak Grove Polk County, brought in
a Russian sunflower measuring 14
feet high. One of the sunflowers will
weigh about 10 pounds and will
measure about 18 inches in diameter.
Mr. Nelson has some measuring nearly
two feet. He also brought in a sam-
ple of Bartlett's which were the finest
we ever saw. Come and see the sun-
flower.

FINE ONIONS.—Ex-Sheriff John
Knight sent in four large onions to
THE JOURNAL office each weighing
over a pound. These onions were
beautiful and he will have several
thousand bushels. Mr. Knight's
onion crop will be a Klondike in
itself.

HOPS.

The Market Is Now Stiffening.

Foreign Reports Unfavorable—Ore- gon Crop Short.

"The Oregon hop crop will not
come to over sixty thousand bales, and
not over half will be a first-class ar-
ticle," said a well informed buyer to-
day. There are but few yards free
from lice, mould or blight.

One 15 acre yard near Silverton is
completely gone with lice. Many
yards are half eaten up.

THE FOREIGN MARKET.
is growing stronger as crop adices are
not as good as they were. The re-
ports from England as to crop con-
ditions are unfavorable. All growers
who have not contracted are in a
strong position if they have the cap-
ital to hold their crop. This is not
said in the way of advice to not con-
tract but to console any who may re-
gret not having contracted.

THE CROP IS SHORT.
The crop is short everywhere. Wash-
ington will not have over 25,000
to 30,000 bales. Mr. Levi estimates
the Oregon crop at 65,000 bales, not
over one-third prime quality. Several
samples of first kilns show no first
quality hops. First picking are in
danger from disease or pests. The
finest will be pick-d last and may turn
the scale.

The yards are all short of help, and
growers are sending to Portland and
Vancouver for pickers. Salem is al-
ready cleaned out for pickers. At Eu-
gene there is a surplus of labor.

HOP PICKERS SCARCE.

A number of hop growers are in the
city today looking for pickers. They
say they will have to import from
Portland. The help required to har-
vest the prune crop is making hop
pickers less plentiful, the two crops,
coming on together. Some of the
yards are turning out poorly, if not a
total failure, and cool weather or rain
would be disastrous. One man with
a big grain harvest all out, a big hop
yard and a big prune orchard is nearly
crazy. He needs about 400 people to
handle what he has grown. The in-
creased product is going to make a
great demand for labor in the or-
chards, and the next three months
will be a busy time.

The summer resorts in the moun-
tain's and sea shore are suffering on
account of the hegrita to the hop yards
which are themselves a regular health
resort for thousands of families.

NEW YORK AND ENGLAND.

F. A. Livesley & Co., have advices
today from New York that the crop
in that state will reach 80,000 to 90,000
bales, and will be of good quality.
The English crop will reach 400,000
cwt, or 10,000 cwt less than last year.
A sample from the Dove yard re-
ceived in the city today, shows only
medium quality. But it was picked
from the worst part of the yard, and
in bad condition as to ripeness.

Favorable weather the past week has
helped this yard some and good hops
are being turned off now.

In many localities growers are keep-
ing very still about the extent of lice,
on account of pickers not liking to
handle a foul crop, or to go where
work will not hold out.

SCHOOL APPORTIONMENT.

County Superintendent G. W. Jones
was busy today making out the semi-
annual state school apportionment.
It is known as August apportionment
and amounts to \$3.00 per capita. The
county apportionment is made twice
every year but the state apportion-
ment is only made annually. The total
amount being apportioned this year
is \$30,510 which divided among the
10,170 persons of school age residing
in the county equals \$3.00 each. The
amount received from the state is
\$10,576.80 or \$1.04 per capita. The
semi-annual county apportionment
amounts to \$19,933.20 or \$1.96 per ca-

WHEAT.

Boom Downward Continues.

All the Markets Weak--Latest Quo- tations Saturday.

There is no change in the Salem
wheat market today. Manager Hol-
land is advised that the foreign
market is off and will not justify pay-
ing more than 75 cent.

All the markets are weak and Liv-
erpool was down a shilling per quar-
ter. Higher freights from Portland
and Frisco depresses the market on
the Pacific coast.

THE JOURNAL would like to have
buyers and sellers understand that its
telegraphic market report published
daily is an independent news report.

press.
