More Gold Coming Down

The Eugene en Route for Alaska-. Other News.

SEATTLE, Sept. 1.-The steamer Cleveland is due to arrive here from St. Michaels some time next week, between September 5 and 10, and there is reason to believe that her cargo of precious metal will far exceed in value that brought down by the Portland. The small amount of gold brought by the Portland, was accounted for by the fact that the river steamer Weare failed to connect with the Portland at St. Michaels. When the Portland left, the Weare was daily expected from Dawson City with a number of miners and a couple of tons of gold aboard.

If the river steamer has met with no accident, she will certainly reach Copper river. Frank Porter, of New St. Michaels in time to transfer her valuable cargo to the Cleveland. The North American Transportation & sloop Trixty T. and will sail next Trading Company has expected the week for Copper river. They take Wool...

Laws Enforced

VICTORIA. B. C. Sept. 1 .- Evidence of how the law is administered in the Yukon country is given in a letter re-With the present cop prospects and the extremely low railroad of one fare for the round trip, the people of Oreceived here. A packer named Rice gon can afford to patronize a state fair contracted to take a man's outfit over that benefit all classes. Popular adthe Skaguay trail if the man went to work on the trail. The men went to work, but when it was fihished, Rice refused to fulfill his contract. When He was threshing near the county Rice's train reached the summit with line beyond Gaston, and left the a load, it was seized by the mounted police and a vigilance committee and was unloaded. Rice will not be allowed to do any packing until-he fulfill his contract with the man who worked on the trail.

A letttr from Skaguay states that an Indian who came out from the Yukon had reported that a boiler explosion had occurred on one of the steamers going up the Yukon with a cargo of provisions. Mr. Peterson, who came from Dawson, says he also heard the report, but does not credit it, as nothing of the kind had occurred up to July 28, when Shelp and his party, the very last ones to leave, left

Dawson City.

A large number of applications have beed made of late at the office of the Canadian Pacific Navigation Co. for passage on the steamer to Wrangel, by parties who intend entering the Klondike country by way of the Stickeen and Teslin lake route, and recognizing the practicability of this route, the company have arranged with the Hudson's Bay Co. so that passengers can be landed at Telegraph creek. The steamer Tees, a vessel to pe placed on the route, will sail towards the end of the week for Fort Wrangel, where she will transfer passengers to the Hudson's Bay Co's. up the Stickeen river to Telegraph

It has been arranged so that the Canadian horses may pass through Alaskan territory in bond on an understanding that they are not to be sold or bired, and they are to carry on y the owners' personal goods while passing through the Unit d States. A Clean-up.

VANCOUVER, B. C., Sept 1 .- A telegram was received yesterday from the superintendent of the Cariboo Hydraulic Mining Company, operating in the Cariboo, stated that the result of the clean-up, which was completed on the 26th inst , the amalgam amounts to 5684 ounces, of the estimated value of \$60,500. This is the proceeds of 47 days, washing with two giants. It is thought that the total cleanup for the season will amount to not more than \$150,000.

All Safe,

SEATTLE, Sept. 1 .- Anxiety as to the fate of the Yukon river steamer P. B. Weare is set at rest by C. H. Hamilton, tarffic manager of the North American Transportation Company. He stated that he had advices that the Weare was tied up near Circle City repairing her boiler flues.

"Shortly after leaving Circle City," he said, "the flue began to leak badly, and the Weare was at once stopped A new set of flues is being put in and in two weeks the Weare will resume her voyage down the river. I am sending north a complete new set of boilers to be put in the Weare next spring, as the ones she has are worn out."

Highly Colored.

TACOMA, Sept. 1 .- A. C. Sand, su-City, under date of July 17. Most of the letter was with regard to his personal business, but among other things he says that eggs which they shipped from Tacoma in June, brought \$4 per dozen; butter, \$1 per pound; potatoes, \$1 per pound, and everything in proportion. He says everybody has money there, and it is more plentiful than any other place on earth. Reports that have been sent out cannot exaggerate the situation there. The country will produce more gold than was ever produced in North America, or any other country. This is the first news that Mr. Sands has had from his partner since he went in.
