### A CHAPTER OF ACCIDENTS.

How a Gay Sa'lem Party Faced Both Joy and Sorrow.

A fishing and camping party left Salem this season that had some unusual experiences. The company was composed of Hon. John Hughes and family, Hon. Geo. Collins and family, Mr. and Mrs. Frank Hughes and others. They left Salem August 3, at 6 o'clock a. m., and first 24 hours of their trip was marked with unusual perils. The first bad omen was passing the hill just west of town when Geo. Collins' brake gave way. The party then proceeded all right as far as Sheridan. From there a night drive was under taken, and shortly after midnight a traction engine was met on the road. As a measure of safety Geo. Collins asked the ladies to get out and walk while he drove past, but the remedy proved much worse than the difficulty. It was at this time that Mrs. Collins met her terrible accident, stepping off what she supposed was a step in the sidewalk. Instead of being a step it proved a full fledged jump-off, and Mrs. Collins was precipitated about six feet down and out, when she struck with head and shoulders upon some rocks. Here the bank was steep, and Mrs. Collins literally rolled down twenty feet to the water's edge and remained unconscious. This was a terrible situation in the dead of night, and Frank Hughes was compelled to return for a lantern before the unfortunate woman was relieved. Frank literally carried her to the top of the bank, not knowing whether she was dead or alive. By the timely assistance of the Mesdames and Misses Hughes with a "liniment bottle" Mrs. Collins was resuscitated, and by daylight made quite comfortable and put to sleep. Mrs. Collins felt well in the morning, and started to walk, but soon found she was going in the wrong direction, in this respect taking up a trail of her husband's. The party then rode through to the toll gate, where Geo. Collins was pretty well acquainted, and a "midnight parade" ensued.

Next morning all went O. K., until John Hughes broke a spring in the mountains, and after this was repaired all went safely through to the coast. Here camp was pitched, and the entire party went fishing.

Next morning John Hughes and Geo. Collins started out in search of game, and after a ten miles tramp returned with an 84 lbs. two-spoke buck. They got him to camp warm, as proof that he hadn't been in cold storage, and after taking off the felt all hands enjoyed superb venison. The men folks fished with their usual luck, and the venison came handy.

Thus the time was spent from day to day, their amusement being interspersed with bathing and all kinds of sports. John Hughes demonstrated that he wasn't slow, but all hands concede that he tumbled about in the water like a jolly porpoise, and had as much fun as the rest, setting a lively example for the rest of the boys. Geo. Collins, says that in the 27 seasons of camping he never had quite so much experience as this year. More serious accidents and trouble of all kinds befell his tribe than ever known, and if it hadn't been for the fact that he took an abundance of religion and other antidotes along he would never have lived to tell the tale. Most of all though, Mrs. Collins' genuine grit is what pulled them all through and if it hadn't been for her the party would surely have had a stale time. The family is most grateful to the rest of the party and all their friends for the excellent care afforded her while Mrs. Collins was enjoying the excruciating pains incident to her severe accident.

**Police Court.**  
H. B. McDowell, of Polk county, who on Monday forfeited \$5.00 cash bail, for non-appearance to answer to the charge of fighting, was arrested last night, badly intoxicated. This morning he was fined \$10.00 and costs, which amounted to \$21.50 which he paid and went his way rejoicing.

Bud Chapman was arrested late last night on a double charge, viz: assault and battery and drunkenness. Becoming intoxicated, Chapman assaulted a man named Ward whom he beat quite shamefully before he was arrested. He pleaded guilty this morning to the charge of assault and was fined \$10 and costs in default of which he went to jail.

**IN LINN COUNTY.**—Kola Neis, of the hop firm of Faber & Neis, came down from Albany this afternoon. He reports the yards about Albany as being quite moldy. A number of the yards are being only partly picked while several yards will not be picked at all.

**THE ONLY PEBBLE.**—We may not be the only pebble on the beach, as is the slang expression, but the high grade of groceries to be found at our store is not equalled elsewhere. Give us a trial and be convinced of the truthfulness of the above statement. —H. M. Branson & Co.

W. M. Bushby, deputy county recorder, went to Mehama today to spend a week's vacation.

## ASSIGNMENT

Of Public School Teachers.

Considerable Business Transacted by Local School Board.

The board of directors for School District No. 24 met at the office of Clerk E. H. Flagg Monday evening, in first regular session for the month of September. Clerk E. H. Flagg and City Superintendent Geo. A. Peebles were in attendance at the meeting.

The minutes of the previous meeting having been disposed of the following bills were audited and ordered paid by warrant:

The following resolution was presented.

"Resolved, By the board of directors of school district No. 24, Marion county, Oregon, that the fire insurance expiring on the several school buildings and furniture and fixtures belonging to said district, during the remaining months of this school year, be renewed through the same local agents and in the same amounts to each agent that issued policies expiring during that period."

The matter was referred Directors Bruce and Ohmart with power to act, and to report at next regular meeting.

A communication was read from F. E. Brown, who desires to introduce a course of physical culture in the city schools. No action was taken by the board last evening, but the matter will be considered at the next regular meeting of the board, as will also the

communication from Miss Anna Atwood, who wishes to establish a penmanship course in the city schools.

In the matter of the petition of residents in the northeast portion of the district for school facilities in that section, heretofore submitted, on account of the long distances now prevailing, action was deferred, but the board indicated that, if possible, and within reasonable cost, favorable action may be taken.

From the fact that the city schools do not open until Monday, October 4th, this year it is quite probable the enrollment of the beginning of the year will be larger than usual. Hop picking will have been finished before that time and the large number of pupils who have sought employment in that occupation by which they might earn a little money, will have returned to the city and be ready to resume work in the school room.

The registration of pupils residing in the district will begin about September 30th. Non-resident pupils will be obliged to pay the customary tuition of \$10 and \$7.50 per term tuition for grammar and primary grades, respectively. City Supt. Geo. A. Peebles predicts the enrollment of pupils will reach 1500 before the end of the first month.

### WILL DRY PRUNES.

A Number of Dryers Are Already in Operation About Salem.

The fruit growers of the Willamette Valley have been engaged quite industriously for the past six weeks shipping green fruit to eastern markets. Present indications are that not only green fruit will be shipped eastward but also several thousand pounds of the dried article.

The Oregon Land Company, having leased the large evaporating plant of Wallace cannery on Twelfth street, today thoroughly renovated the same and prepared it for evaporating prunes, the work of which will be begun on Thursday of this week. This plant has a capacity of about 350 bushels per day. The same company also has three evaporators located at points about Salem. The four plants have a capacity of 800 bushels per day. D. M. Smith, secretary of the company, was seen this afternoon and he estimates that the output of his company will be fully 200,000 pounds of prunes. When asked if other than prunes would be evaporated, Mr. Smith was unable to state thus early in the season, but the company will operate all dryers at their full capacity while prunes last.

Work will begin at the Salem dryer on Thursday morning. The fruit being handled at the company's dryers out of Salem, is grown on fruit lands belonging to the company, but the company will buy prunes from fruit growers about Salem for the local evaporator.

A number of other dryers are in operation about Salem, among which might be mentioned, G. A. Stevens, Bruce Cunningham, Mr. Vercler and Dr. J. Reynolds.  
Monday afternoon Mr. Vercler stored 1700 pounds of dried prunes at the O. F. & P. Co's. warehouse. They were of the Italian variety and far surpassed that usually found in stock at the grocery.

The Cosmopolitan magazine has undertaken the task of bringing liberal education, in its broadest sense, within the reach of those who have the aspiration, but are deprived of the opportunity. Dr. Andrews, late of Brown University, has undertaken the presidency of the Cosmopolitan's educational movement.
