Marion County Bridges.

County Judge G. P. Terrell and Commissioner J. M. Watson, of the Marion county court, went to Hubbard this morning where with the Clackamas county court they will examine the Hubbard bridge near that place which connects Marion and Clackamas counties. It is reported in a dangerous condition, and immediate repairs are necessary. Considering the great amount of work that has been done on Marion county bridges and the great amount of money that has been expended in that way, her bridges should be in excellent condition. During the past 14 months, or since Judge Terrell accepted the office as county judge, the county has built 25 bridges, the spans of which were from 20 to 1200 feet in length. In the same length of time 35 bridges have been repaired. This is exclusive of all culverts.

A POINTED LETTER.

Secretary Kincaid Answers Some Slick Intimations.

The following letter from Secretary Kincaid, in response to a Portland firm is self-explanatory:

SALEM, Sept. 15, 1897.

The Bradley-Breyman Co., Portland, Oregon.

DEAR SIR:—Yours of September 14, enclosing penitentiary and asylum vouchers, has been received, in which you say:

Some brokers have tried to buy these and stated that they had a 'pull' (we do not know what that means) in your office and would get returns at once. We trust, however, that ours will be made out in due season as we have waited several months and having sold the goods at regular prices, think we should receive our money in proper order."

Any broker or other person who states or imagines that he has a "pull" in this office, if by that he means that he will receive any special favor or be treated better or different from any other person or persons, is either mistaken or willfully lies. All have received vouchers in their regular order as fast as possible, and all will receive vouchers or warrants, if warrants, can be issued, as rapidly as the claims can be examined. No broker or attorney can hurry up any claim or increase the amount for the full amount due and as rapidly as possible, with the clerical force in this office, no matter who the claimant may be. Your claims will receive attention as soon as possible without any further trouble on your part.

Yours very respectfully,
 H. R. KINCAID,
 Secretary of State.

FROM STAYTON.

Mrs. M. M. Balsley was a Salem visitor last Monday.

Mrs. Howell and Miss Davis drove down from Salem last Thursday for a visit with relatives residing near Stayton.

Miss Rebecca Baldrree, of Southern Oregon, who has been the guest of Miss Tempest Dunivin for the past month, left for Portland via Salem, Monday morning. Miss Baldrree has been offered a position in an Eastern Oregon university as instructor in the language of the institution.

Master Lloyd Hunt is quite ill with the fever at his home near town.

Mrs. Cross is very ill at her home with Dr. Reed in daily attendance.

Mr. Thorpe was forced to abandon the picking of his hops, the recent rains having caused them to mold so badly that they were not worth the picking.

Madames Brown and Hughes were Salem visitors last week at the home of County Treasurer, G. L. Brown.

Rev. Blalock, lately of China, occupied the pulpit at the Baptist church Sunday morning.

Mr. F. Wrightman, of Sublimity, was a Stayton visitor last Sunday morning.

Misses Dean Kitchen and Ethel Gardner returned to Salem last Tuesday, where they will continue their school work at the Willamette university this year.

Mrs. Robertson and daughter Edna, returned from Lyons last Friday afternoon.

Mr. and Mrs. Apple drove to Salem last Monday morning on business. Mrs. Apple and children will leave for Indiana in a week or so.

Mr. Riggs has moved his family in town from their farm near Jordan Valley. They will occupy the Neff property on Third street for the winter.

A very interesting lecture was delivered last Sunday night at the Baptist church, by Mrs. Blalock, of North Carolina, lately of China.

Mrs. Blalock was sent as a missionary, by her native state, to China two years ago.

She described the trials, tribulation and dangers that she was compelled to undergo in following her chosen work, in a very touching and earnest manner. All who were fortunate enough to hear her were more in favor of foreign missionary work than ever before, and when she and her husband return to their far away home, they will no doubt receive a helping hand from the missionary societies of Stayton.

Rev. and Mrs. Blalock have returned to America for one year in order that Rev. Blalock may recover his shattered health. They intend to again leave for their field of labor in China next autumn.

An interesting feature of the evening's entertainment was the costume in which Mrs. Blalock delivered her lecture, the same being her Chinese bridal robe, of garnet and black satin.

TO LEAVE SALEM.

Secretary A. M. Grille of the Local Y. M. C. A. Goes to Tacoma.

Albert M. Grille, who has served the local Y. M. C. A., as secretary for the past two years, leaves for Tacoma Thursday to accept the assistant secretaryship of the Tacoma Y. M. C. A.

The board of directors of the Salem association have not yet fully decided what course to pursue, but it is quite probable a young gentleman from Portland will take charge of the local association. Prof. F. E. Brown, of this city, for several years physical director at Willamette university, may take charge of the physical work. Early next year the board of directors of the local association hope to be able to engage the services of an eastern Y. M. C. A. worker to take charge of the Salem association.

The position in the Tacoma association accepted by Mr. Grille is a more lucrative position and his many friends in this city are pleased to note the progress being made by Mr. Grille and wish him every success in his new location. He is a worthy gentleman and deserving of the recognition of his services that has been shown in his selection as assistant secretary of the Tacoma association.

FOOT INJURED.—While handling sheet iron recently, Sherman Heckman, in the employ of the Salem Truck & Dray Co., had the misfortune to very painfully cut his right foot. The gash was about three inches in length and extended over the instep. It required several stitches to close the cut. "Sherm" will be unable to resume work for several days.
