Anti-Saloon League.
Rev. G. W. Grannis delivered a temperance address Sunday evening as an initial step towards forming an anti-saloon league in this city. At the conclusion of the address all desiring to become members of the league were requested to remain after the benediction. A few remained and a committee consisting of H. Pohl, U. J. Lehman and Dr. J. W. Meredith was appointed to nominate officers for the league and to report the same at the prayer-meeting services Thursday evening. Rev. Grannis proposes that the other churches of the city be interested in the success of the movement, join hands and form a strong league. The object of the league as stated in its constitution, is the "suppression of the saloon."

TWO DEATHS BY RAIL.—Ed C. Herren, the hop man, who returned from Grants Pass this morning, reports two deaths near that place Monday afternoon, both by rail. About 3 o'clock yesterday afternoon a tramp in attempting to board an outgoing south-bound freight train, met a horrible death. His over coat became fastened in the wheel and the man was drawn beneath the wheels and literally ground to pieces. About twenty miles south of Grants Pass the same freight train ran into, and killed a highly respected resident of that vicinity, named Davis.

STARVATION

Of Cuban Patriots and their Families.

HORRORS OF INDIA RIVALED

Concentrados Starving By the Tens of Thousands.

NEW YORK, Nov. 9.—A World special from Havana says: Weyler has gone, but his purpose to "exterminate the breed" of the Cuban patriots is being fulfilled. Starvation is killing the "concentrados" by tens of thousands. Hunger is doing what Spain's 200,000 soldiers cannot accomplish. The frightful sufferings of those who survive cry out to the mercy of the civilized world. The physicians of Havana are now forbidden to give "starvation" as a cause of death.

A correspondent in the town of San Domingo writes: "A multitude of sick fall and die in the streets here, and lie until, after having served as ignominious spectacles for some hours, they are collected and hauled away in carts used for garbage to the dumping grounds. Most of these bodies are thrown into the fields to be eaten by the birds and dogs."

The "birds" of which this correspondent writes are vultures. Both the newspapers which supported Weyler and those who opposed him are now forced to tell half the truth about the starving "concentrados." Here are some whole truths made undeniable: Since Weyler's proclamation driving the country people into the towns was issued, half the rural population of Western Cuba has died. Half of those who survive are so weak, so emaciated, that the flickering spark of life in them will surely soon be extinguished. They cannot survive, although Blanco, the governor-general, has ordered that service rations be issued to them, rations such as his soldiers get. The lives of the other half of the survivors Blanco will save.

Photographs of starving children speak louder than any words. These photographs are taken at Guantanamo within an hour's travel of the palace here. Remember that with natural affection, intensified by suffering, the parents of these children have given to them every morsel they could scrape together. The mothers of these children deny themselves food, refuse to eat the miserable scraps of meat and bread that they may keep life in their children. The children's legs were like pigstems. One could count their ribs. Their joints made disproportionately large by emaciation, seemed immense. These are not isolated cases. There are thousands and thousands like them.

The assistant mayor of Havana says that there are 15,000 concentrated in this city. Ragged, thin and starving, these people are huddled in the public buildings. The hospitals are as full as the graveyards. Certain not more than 90 per cent of the deaths among the concentrated in this city are reported. But from these official figures it is easily learned that the death rate among the children of the concentrated in hospitals and public buildings is 90 per cent, among the adults 50 per cent, and the death rate in the smaller cities and towns is even larger.

The absolute fact is that in Havana the conditions are five times better, more favorable than anywhere else in Cuba. Yet the Spanish officials' reports that 178 persons died in Havana during the month of September last, and 278 during October. Blanco's First Edict.
HAVANA, Nov. 9.—Marshal Blanco has issued the following edict, officially described as "expressing the magnanimous sentiments of the queen regent and the first determination of the national government."
"I pardon in full all those who have been prosecuted for the crime of rebellion. Rebels prosecuted for common crimes, independent of the rebellion, such as spoliation, immorality and the like, will be pardoned as rebels but judged for other offenses committed by them."
"Those suffering sentences imposed prior to the date of this edict will have their sentences commuted to a certain extent and, perhaps, in some cases, in full."

Postponed.
HAVANA, Nov. 9.—The trial by court-martial of the crew of the American schooner Competitor, captured on the coast of Pinar del Rio, April 25, 1896, which was to have taken place today, has been postponed owing to the sickness of the president of the court.
Atlantic Squadron Not Needed.
NEW YORK, Nov. 9.—A Herald dispatch from Washington says: As a further evidence of the peace-

ful condition of the relations of the United States and Spain, the navy department officials point to the programme adopted by Rear Admiral Sicard for the next month. Repairs to the ships will occupy some weeks but as each is put into condition for service, Rear Admiral Sicard proposes to send it to sea for individual drill. It is expected that the squadron will remain at New York until the middle of December, when it will proceed to Hampton roads, which will be the base of the squadron's winter evolutions.

To the Rescue.
WASHINGTON, Nov. 9.—There was a conference at the White House attended by Secretary Gage, Long and Alger, Commodore Melville and Commander Dickens, of the navy, and Captain Showalter, commander of the revenue service, to consider means for the relief of the American whaling fleet said to be ice-bound in Behring sea. It was decided to send the revenue cutter Bear to the relief of the whalers.

Orders have been issued to put the Bear in commission for the voyage, and Cap. Showalter says he will be ready to sail as soon as he can be provisioned, which will take but a short time. Commodore Melville, who has had great experience in the Arctic, gave the conference the benefit of his experience and knowledge, but it appears there is yet a great lack of information as to the location of the whalers, also as to whether they are in destitute circumstances. Secretary Long has given orders to ascertain definitely, if possible, existing conditions. It is probable the Bear will stop at some point on the Alaskan coast and take aboard a supply of reindeer and dogs, to be used in crossing the ice floes when the vessel can no longer be navigated.

OF FOR HOME.
SAN FRANCISCO, Nov. 9.—The French cruiser Duguay Trouin left the harbor yesterday for Callao on her way home. The vessel has been for several years with the French squadron in the Pacific, and most of time has been spent among the islands of the South sea. As she pulled anchor she was given a salute by the battleship Oregon, which was promptly returned.

Race War.
NEW YORK, Nov. 9.—A dispatch to the Herald from Buenos Ayres says: Advice has reached Rio Janeiro from Sancti Spiritus to the effect that 40 Jacobins attacked a party of Italians killing eight. The Italian minister has made a formal protest and demands that troops be sent to the scene, as it is evident that the police are unable to maintain order.

The Magnet Survivors.
NEW YORK, Nov. 9.—A dispatch to the Herald from Guayaquil, Ecuador, says: The steamer Chili, just leaving for Central America, carries survivors of the crew of the German bark Magnet, which was wrecked on a rock near Esmeralda.

His Hands Were Tied.
"Our little boy broke out with eczema. We were obliged to tie his hands to keep him from scratching and he suffered everything. We began giving him Hood's Sarsaparilla and in a short time his face cleared. He took five or six bottles and has not had a sick day since." Olney Soucie, Pioneer, Idaho.
Hood's Pills are the only pills to take with Hood's Sarsaparilla. Easy and yet efficient.

Suicides.
PARIS, Nov. 9.—A man named Dreyfus, believed to be a cousin of Captain Dreyfus, the deported artillery officer, his wife, formerly Countess Chercury, and their three daughters, respectively 13, 11 and 7 years, committed suicide this morning or last night at their residence at Mareau. The bodies of the house found the bodies early today.
