EDITORIAL.

The only way to prevent legislative hold-ups and prolonged struggles over the election of United States senators in Oregon is to elect a legislature squarely on the issues that the people understand—finance and the tariff.

While the people may not understand these questions, as they are discussed in the bifurcated terms of economical science, they can and do understand that the Republican party advocates the gold standard and a high protective tariff.

The people understand that the opposition to the Republican party stands for Independent American bimetallicism, and a tariff framed for revenue and against trusts. These simple propositions the people can understand.

If a legislature is chosen squarely on these issues there will be no division with the parties themselves, but the parties themselves will be divided on a line of principle that will make personal candidates, with following in both parties, impossible.

If the Republicans will put up none but so-called sound money and protective tariff men for the legislature they will not be compelled to hire them or buy them to vote for a senator of that kind.

If the opposition to the Republicans are sincere they will see that no man is elected to the legislature by their party who is not sincerely opposed to the gold standard and a trust tariff. If that is done no hold-up or corruption will be possible.

JOURNAL "X-RAYS."

Verily, Mark Hanna is an ideal senator for the present administration. He is on both sides of the money question, and knows how to handle a sack.

The trouble with most gold standard men is they want to be silver men, too.

McKinley still thinks international bimetallicism as hard as he ever did, but that ain't hard to hurt.

FUSION RESOLUTION.

CRAWFORDSVILLE, Or., Jan. 10, '98. The following resolutions were adopted at a meeting of California Lodge No. 40, Patriots of America:

"Whereas, in view of the fact that the different political parties are preparing for the canvass for the June election, we deem it proper that we should express our preference in that line, and

"Resolved, As we believe that all who favor free and unlimited coinage of gold and silver at the ratio of 16 to 1, and the issuance of all paper currency by the government, without the intervention of banks, and made a full legal tender for all debts, public or private, should unite in one party. Therefore be it

"Resolved, By California Lodge No. 40, Patriots of America, that we favor a union of Democrats, Populists and Silver Republicans and a ticket made up from the three parties. And be it further

"Resolved, That we will vote for such a ticket regardless of the action of any other party. And be it further

"Resolved, That we favor the initiative and referendum."

One of the boats was tried on the river at Eugene and was found to be satisfactory.

SOME THOUGHTS.

Bright Rays From an Old Time Republican.

The following thoughtful reflections were yesterday found on the desk of an old-fashioned Republican, a man who has in his day held a prominent public position in this state, and who has been a life-long Republican. They are printed purely to show what thoughts are forcing themselves into the mind of our best people in these days of reckless political operations.

No God but work. No greatness without riches. Will such ever be taught to our youths as the true doctrine? It would seem that some colleges and universities are already teaching it.

The poor honest man has no place in modern society; no place in modern universities; no place in modern politics. The United States senate is filled with millionaires.

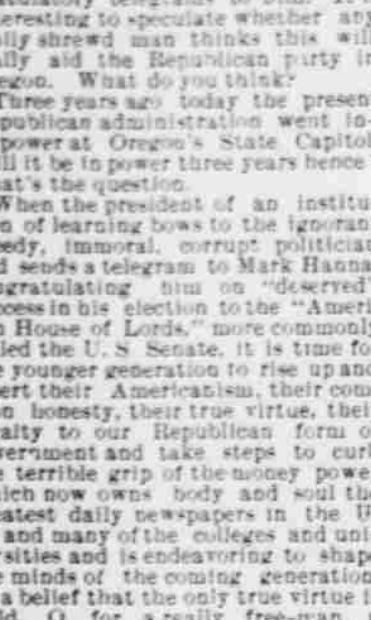

It is being published all over the state that the Salem Republican held a ratification meeting over the election of Mark Hanna and sent congratulatory telegrams to him. It is interesting to speculate whether any really shrewd man thinks this will really aid the Republican party in Oregon. What do you think?

Three years ago today the present Republican administration went into power at Oregon's State Capitol. Will it be in power three years hence? That's the question.

When the president of an institution of learning bows to the ignorant, greedy, immoral, corrupt politician and sends a telegram to Mark Hanna, congratulating him on "deserved" success in his election to the "American House of Lords," more commonly called the U. S. Senate, it is time for the younger generation to rise up and assert their Americanism, their common honesty, their true virtue, their loyalty to our Republican form of government and take steps to curb the terrible grip of the money power which now owns body and soul the greatest daily newspapers in the U. S. and many of the colleges and universities and is endeavoring to shape the minds of the coming generation to a belief that the only true virtue is Gold. O, for a really free-man, a really patriotic, noble, virtuous plebeian, a man who really loves right because it is right, who really loves honesty because it is good to be honest, a man who will not fall upon his knees and worship the man who has a million dollars!

WHAT WOMEN NOW NEED.

More Red Corpuscles in Their Blood--
Paine's Celery Compound.

Miss Frances E. Willard, who has been attending the world's convention of the W. C. T. U., says that better health for women is today a more urgent matter than woman's suffrage.

She says: "What women at present most need is a better supply of red corpuscles."

From every section of the country, from Maine to California, come well-attested reports of women, bloodless, dyspeptic, nervous, seriously run down, and in many cases so weak as to be bed-ridden, who have been enabled to resume their places in the family circle and in social life—healthy, ruddy, well-cured women, by the aid of that great blood-maker and health-maker, Paine's celery compound.

Mrs. E. A. Ward is one of these fortunate women whom Paine's celery compound has saved from an ailing, unhappy invalid condition, as her letter shows:

213 Michigan ave., Mason City, Ia.,
Sept 12, 1897.

Wells & Richardson Co:
Gentlemen—My greatest trouble seems to be a general weakness and all over tired feeling. I am 60 years of age and I did not expect to ever be strong again, but I used four bottles of Paine's celery compound and was greatly strengthened, and my cough seemed better so that I stopped using the remedy and have not since felt the need of any further help whatever.

Very respectfully yours,
MRS. E. A. WARD.

Persons of large experience among nervous women, who, as a rule, are thin and lack blood, recommend

WHAT WOMEN NOW NEED.

More Red Corpuscles in Their Blood--
Paine's Celery Compound.

Paine's celery compound is beyond all question the one remedy that can be depended on to renew the vitality of feeble persons.

This settled confidence in Paine's celery compound is not a hearsay belief, but rests in nearly every case on personal use or acquaintance with men or women who have been restored to useful health by no other means. The rapid change for the better in color, flesh and expression of the face is so unmistakable that repair of the wasted tissues might well be called a renewal of life.

The process by which Paine's celery compound is able to build up health in the run-down body is not hard to understand when one observes how surely it disposes the bowels to act regularly, how it increases the capacity to take and assimilate food, and regulates the nerves all over the body.

The heavy, alarming pain in the back and loins disappears; the growing paleness and loss of flesh is stopped and a bright, buoyant feeling gradually takes the place of that unending sense of tire and depression.

Paine's celery compound is the exact remedy for that large class of feeble, thin-blooded, often hysterical persons, whose greatest need is a thorough refurnishing of their blood with the red corpuscles, upon which health and happiness in such a large measure depends.

The extraordinary virtue of Paine's celery compound to increase the production of red corpuscles in the blood is the source of its great power over all blood diseases, rheumatism, neuralgia, kidney diseases, back aches, loss of flesh and general run-down condition.
