EDITORIAL.

THE JOURNAL has taken no notice of the charges made against some of the People's party leaders in this state. In the hope of seeing a solld union of the Silver forces that supported Bryan and Watson, we have feit it to be our duty, to ignore the accusations made by the People party against their leaders and against their leaders, and to prevent Contrasts the Expenditures for Pacific their being used to split up the re-

form forces in Oregon.
It must not be overlooked that the controversy over the action of the People's party leaders in the legislature does not concern the Democrats or Silver Republicans, nor indeed the sincere and patriotic rank and file of the People's party. The interested taxpayer, who demands protection and relief at the hands of a well-disciplined opposition party, is indifferent to personalities but not indifferent to

THE JOURNAL does not believe in personal politics nor in bossism. It is opposed to all such manifestations of corruption and dictatorship. It is a disgrace to the American people that they cannot have honest elections and legislatures free from cor ruption. But so long as human na ture is fallible and the system defective we must not expect even reform

parties to be perfect. The people have a right to demand that the trusted leaders of reform parties shall bot engage in corrupt practices. The people have a right to de-mand that the leadership of the new Union party, or whatever the coali-tion of Silver and Reform forces is called, shall be at least as clean as the best element of the Republican party. They may be disappointed in

party. They may be disappointed in this respect.

The people have a right to insist that the Union opposition party shall be placed under control of the best elements, not the worst, of the Peo-ple's, Democratic and Silver Republican organizations. It cannot be loaded down with representatives of factions and emissaries of their politic factions and emissaries of their political opponents. This is an old game to defeat the people. It is the game of 'beads I win, tails you lose.' Give

us a clean Union from the start. Now we know we are speaking plainly about these matters. It will be ten times better for the cause of the people and the cause of good gov-crament that the Union party be defeated in 1898 if it does not present a clean ticket of able and honest men from top to bottom, than to win an election with candidates who will disappoint the taxpayer and discredit the party they represent. Such a vic-tory would be dear bought and a one

Extravagant Insurance.

To the Editor: I see by your paper that our citizens of Salem paid in-surance premiums during the past year to the amount of \$75,000, and that only \$1300, of this amount was re-turned in the payment of losses. This is an enormous drain, and every property owner in this city is affected by it, whether he has any part of these premiums or not. Fire insur-ance is a necessity, and while our losses during the past five years have been much less than the average. yet it must be admitted that we have d an unreasonable amount our insurance

Now the most profitable line of risk to insurance companies, are dwellings and their contents as they are not subject to the conflagration, hazard. On that class of property it is not neccessary to pay the exorbitant rates charged by the insurance trust.

We now have an association in this

state consisting of more than 5000 property owners incorporated for their own mutual protection. I refer to the Oregon Fire Relief Association, of McMinnville, Oregon. 1 became a member of that association serve Fund. All Woodmen are interested. By order of O. L. Darling, and my household goeds insured with them. Since that time, the association has paid losses in this and every other county of the Willamette valley except Benton and Multnomah, and yet I have been called upon to pay but one assessment, and that for only 98 cents. I would be glad to see more of our citizens avail themselves of the protection offered to members of this association.

The Baker City council levied a 10 mill property tax for the coming year.

The schoolhouse on the upper North Fork of the Coquille river was burned last week of this association.

Railways and Pensions. ED. JOURNAL,-In connection with the matter of draining the treasury in payment of pensions to the old soiders, perhaps you would be kind enough to reprint the following, and let the people judge. Of c urse they will say, we got some benefit from the milrords but, will not admit the tentropy but the source of the railroads but will not admit that any-one of any consequence was, or is benesoldiers.

Co. D. 14th Wis. V. V. I. THE REPRINT

enclosed is a time-stained clipping from a San Francisco paper. The article is at least twenty years old and has no value except to recall the vast sums paid the Pacific railroads: Chicago, Angust 5.—A special dis-patch from Washington to the "Post" says: "During the month of July, \$1,522.790 was raid by the government in interest on the original Central and Union Pacific subsidy bonds, and \$270,180 was added to the sinking fund, the transaction showing a net loss of \$1,252,610. Since the Thurman unding bill went into effect in July, 1878, just seventeen years ago, the government paid \$55,704,679 interest on these bonds, of which \$23, 319,948 stands on the treasury books is having been repaid in transportation and cash, mostly transportation, in the service of his country, and leaving a net apparent loss to the government on its Pacific Railroads guaranty of \$32,384,792. The sinking valid. Now the unequal contest is jund offset to this toots up \$21,162,167. which shows that the government time this is in print the old soldier is actually out \$11,223,565 since the will have his first surrender, and death Thurman act went into effect through its connections with the main lines will have gained another victory. the two roads mentioned.

of the two roads mentioned.

"The total interest paid by the government on these bonds and the bonds of subsidiary lines, less \$28, 491,565 rapid by transportation and cash, is \$77,091,088, against which stands the sinking fund offset of \$21,-162,167 which would make the actual less on interest account plane \$55,093. loss on interest account alone \$55, 928,-821. Add to this the principal of the bonds, \$64.623,612. and we have a Federal investment of \$120,552,433 in Pacific railroads. The worst of it is every day costs the government more money. Every day sees more good dollars going after bad. The sinking term affair. While you are building a party, gentlemen, build it to endure ernment's luterest payments at every tick of the clock.

We print below what we con ider one of the worst abuses of the pen-sion system, the private pention bill

It is copied from the Corvallis Times. Tongue, of Oregon, is begging congress for pensions of \$25 per month each for some half dozen of his contituents, who are without honorable discharge from the army. When pen-sion claims are without merit and resort to fraud is necessary to secure the claimant a place on the roll, a rush is always made for congress. By this route bogus soldiers get their names on the list, and congress thus becomes instead of the governmental bulwark hat it ought to be, a legislative harridan for evil men to use in fastening fraud upon society. The pensions Mr. Tonge begs for, may have merit behind them, but the fact that they cannot stand the scrutiny of the regular pension department challenges strict investigation at the hands of congress They are all likely to be granted.
