OFFENSIVE PARTISANS.
The supreme court of Oregon is supposed to be a high-minded unprejudiced body of men and very correctly it should be. They should not be influenced by politics and should not have in their employ persons of bitter political prejudices. Honorable men of all shades of political opinions do business with the supreme court, argue before it and visit the state library. This they should be allowed to do without being questioned as to their political views and without hearing their political views, their political friends or enemies, for that matter, abused or lauded. The state supreme court room and corridors, thereabout and the state library are the last places in which politics should be discussed at least offensively. Complaints have come to this office that the supreme court room, when court is not in session, and the state library at times is made a forum for the discussion of political issues—not by the members of the supreme court—but by some employes. These complaints in the main cascade and must contain some truth. They state that certain employes of the supreme court of Oregon almost constantly pour forth abuse against every one who is not a strict party man according to the latest utterance of Republican politicians. They state that it is almost impossible for a Democratic, Populist or bimetallic political worker to enter the state library without either being personally slandered or hearing his friends, associates and neighbors abused in the choicest kind of Five-Points billingsgate.

Dr. Miles' Nervine
A REMEDY FOR THE
Effects of Tobacco.

THE excessive use of tobacco, especially by young men is always injurious and undoubtedly shortens life materially. Mr. Ed. C. Ehen, compositor on the Contra Costa News, Martinez, Cal., writes: "I have used Dr. Miles' Restorative Nervine and received much benefit from it. I was troubled with nervousness, dizzy spells and sleeplessness, caused by the use of tobacco and stimulants. I took Dr. Miles' Nervine with marvelous good results, allaying the dizziness, quieting the nerves, and enabling me to sleep and rest, proving in my case a very beneficial remedy." Dr. Miles' Restorative Nervine is especially adapted to restoring the nervous system to its normal condition under such circumstances. It soothes, heals and strengthens.

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

virtually sent it to the table, when it will probably never be resurrected. Until very recently the mayor was beseeching the members of the city council to stand for retrenchment and keeping within the limit of revenues. He pointed out that the fixed charges against the city were so high that they would have to cut all possible salaries. Now when a moderate cut is proposed His Honor casts the vote that makes any action difficult unless some members of the council take a different view of the matter. It is not likely that the recorder and chief of police would throw up their jobs if they got nothing but the fees in state cases, as some months they amount to more than either official gets from the city. Those fees could be easily swelled to twice their present sum.

This lucrative source of income for our city officials was delicately hinted at as a reason why the recorder and chief of police could stand a cut. The list of city police cases that were made county cases during the month of January is a pretty fat take in itself, but it could no doubt have been doubled had Edes and Dilley so minded. These considerate gentlemen really deserve a vote of thanks for not taking twice the hide of the taxpayer that they do. But the impression gains ground that with unlimited resources at their command for making fees out of the county, they could stand a cut on salaries.

But the mayor could not see it that way. To the dismay of the reform element in the council. The mayor turned against them at a critical moment and went on record against the very proposition he had talked them up to. The mayor is reputed to be still in the field for political honors on the Republican ticket. He may have hedged on retrenchment on account of the difficulties men at times encounter in practical politics. The real statesmen find themselves at times compelled to act against their consciences when in pursuit of political ambitions. So the mayor has probably taken a judicious gamble.
