

Bert Howard Writes an Interesting Letter Home.

SUMMIT OF THE CHILCOOT PASS, March 22, 1898.

DEAR FATHER AND THE BEST-Yours of February 22, received Sunday. I did not know it was Sunday. A lot of us shipped in and raised \$6 to pay a man's expenses to go for our mail at Dyea. There is no transportation for mail between Dyea and Skagway. Yes I meet numbers of people from Salem, I help them over the pass, they work for me in return. I say \$1 per hour. Some of the men are pulling down \$16 per day. Rates are going down also wages. I have not received any Salem papers. The mail service here is simply terrible. It is a rotten shame that we can not have a better service. I have waited three hours in line for my mail at Dyea. I put a card in for myself just to see if I would get it and by ginger, I never got it. It is a big job to write all the details of the customs and habits of the native Alaskan. We see more selfishness and cussedness here on this trail in one day than you would see there in a year. Such cruelty as men manifest here is terrible.

I have seen men overloading their dog teams and underfed them and provided no shelter for them except a stake in the snow. Then abuse them and whip them with mule whips, cutting the blood out of them because they could not pull any more than a few feet at a time. They use clubs and sticks. One fellow tormented my cane for a minute, I did not know he was going to use it on his dog, I tried to force it from him and he struck me with it. I whipped out my knife and cut his dogs loose from his sled. You had ought to see that sled go down the mountain and dive into a snow bank. There are several fights every day over just such foolishness. Partners in camp will fall out and fight over trivial things, for instance, whose turn it is to cook, wash dishes, get wood, etc. There is nothing in the world that will bring out the genuine cussedness in a man.

like hardships, bad weather and hard work. I am writing this in the summit restaurant. On our arrival at Stone House we found that all suitable right of ways had been staked off, all machines and engines shut out. A man by the name of Christopherson had the best and straightest route. We gave \$1000 for the right of way. The right of way is worth \$2000. It is the best place on the pass for my business. I broke my engine and went to Sheep Camp, bought a bolt, 1 and 17 inches long which cost me \$4. There are three blacksmith shops and more work than six shops could do with two men to each shop. They have very few tools and small stocks of iron. Well I started my engine up the mountain. A storm arose and became a blizzard. My outfit was snowed under. I located it from the anchor, following down the line to my engine, which was six feet under snow. We could spade the snow like sod. Our horse could walk on the snow without a track. The telephone line wires were covered. They had to splice the poles. The snow was 50 feet deep.

If you were here I could give you good wages, but by the time you get here it would be too late. There are hundreds of men here making very fair wages. Eight dollars per day, but they average not much more than expenses, considering the bad weather. A gasoline expert came from Frisco and said that it was to cold here for gasoline the air was too light. I told him I knew a thing or two, too, I started my gasoline engine while the thermometer was 25 below zero. We got near the summit, I got my left ear froze and quit. I proved to them that cold did not effect the gasoline. When we started the engine it went right up the steepest places where a horse could not go, in fact, I believe it would climb a tree. At the foot of the summit there are several engines, waiting for someone to pull them over. The Alaskan Transportation Co. (the Oregon Improvement Co.) has a gasoline engine forty-five h. p.

There were 2000 people at the foot of the summit to see me and my engine start up the mountain. The mountain is about 50 degrees. When I started they jered and sneered. Soon their sneers turned to cheers. The other day in going up the mountain with a trail of sleds, the strong south wind blew my coat tail in to governors cogs and bent the rod. I dared not let go the lever every second I was drawn farther into the wheels. I was not in position to shut down. I yelled to Jim to cut me loose. He came with his big knife and made my coat tailless. It was all done in a few seconds. I hired some men to cut a new trail near by ours and took about twelve hundred feet of three quarter inch line and stretched it on a steep place so the packers could help themselves along. So we have our trail clear of footmen. It stormed today very hard. We could not work till 3 p. m. We worked till 6 o'clock and took in \$70 with \$20 expenses. We will do fine here if the rush continues. The tramways have only just got their lines laid. They will be able to carry any freight before June 1. We only pull freight to the summit.

Yesterday I went over to Crater Lake. There are many people camping on the ice. The Lake is said to be bottomless. The Skagway trail is in bad condition now, most of the travel

La Grippe, Followed by Heart Disease, Cured by DR. MILES' HEART CURE.

M. R. C. C. SHULTS, of Winterset, Iowa, inventor and manufacturer of the famous Dr. Miles' Heart Cure. "Two years ago an attack of La Grippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced the dose, having gained fifteen pounds, and am now feeling better in every way than I have for years."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee. First bottle benefits or money refunded. Book on diseases of the heart and nervous force. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

ONE ENJOYS Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50 cent bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

going by Dyea, it being the shorter and cheaper route. Freight rates from Dyea to Sheep Camp, fourteen miles, are 2 cents per pound. From there to the scales 2 cents a pound. From the scales to the summit is two cents. We haul from the scale to the summit. We pay five cents a pound for firewood. There is no snow from Dyea to the canyon. They use horses and wagons to the mouth of the canyon. They use sleds from there to Sheep Camp. This is a grant country. The Chicoutot river is about the size of Mill creek now but in the spring it will be a terror. The Santiam won't be in it.

I saw Geo. Johnson, Coleman and Drazer. I gave them \$1 an hour to help me a few hours. I hauled them over the summit. There is about 250 head of horses between here and Sheep Camp. Hay from \$4 to \$90 a and sometimes there is none. I could not get enough for a bed.

There are two saw mills at Sheep Camp. Lumber is from \$40 to \$75 a thousand. In coming down off the summit the only way to get down is to sit down and slide to the canyon. I have worn out four pairs of pants sliding down. It is great fun. We come like a shot down the mountain. Packers are so close together going up that they won't let them walk down the trail. Some of the men are killing themselves packing. They load themselves so heavy that the blood actually runs from their noses and mouths. We have put up over eight thousand pounds today.

SUMMIT OF THE CHILCOOT PASS, April 4, 1898.

I write you to let you know that I am all O. K. You probably would be worried after hearing of the avalanche and so many people being killed. The number will reach from 75 to 125. I got in one slide on the night of the second and was carried down the mountain. I scrambled along catching on to a wire cable there waiting until the slide stopped. One of our men was badly bruised by the snow coming down on his tent, (Mr. and Mrs. Estes' tent) She was in the tent, it being submerged with snow. She was the luckiest one of all. She pulled out her pocket knife and cut the tent open and stuck a shovel handle out and was thereby located by her husband. He was digging near by, nearly frantic. She is alright now. Most of the people were packed so tight that they were black in the face. It was a most fearful sight, many being mashed out of all shape and almost unrecognizable. Yesterday they dug out 15, today 22. I don't believe they will ever find half of them. Our line was covered up, and we pulled it out all covered with goods for 200 feet. There are many goods here that will never be claimed. A number of men working for the Chilcoot Transportation Co. were killed. Many people pass here crying and mourning and some are joyful for having missed the avalanche.

At 9:30 last Saturday night J. L. Ware, a young man of 24 years, narrowly escaped being stabled to death by Frank Williams, at Scott's sawmill five miles west of Haines, both being employees at the mill. The men got into a dispute over some trivial matter. Ware nearly died to death. The mill hands threaten to lynch Ware.

The nine-months-old child of Charles Seaman was found dead in bed in Nehalem Tuesday morning. The child had not been sick, and it is thought it died in a spasm.

A PROMINENT EDUCATOR.

Dr. E. A. Winship To Deliver An Address Before Marion County Teachers. In view of the Teachers Meeting to be held in the First Methodist church in this city on Saturday of this week, County School Superintendent Goe. W. Jones has issued the following circular pertaining to Dr. E. Winship, of New England who will deliver two lectures on that occasion.

"I wish to call your attention to a meeting of the teachers of Marion county, at Salem, April 10, 1898. The meeting will begin at 10:30 a. m. and close with a lecture in the evening."

"Dr. Winship, one of the best known and most distinguished educators of New England, will be with us, and will give two addresses. It is seldom Oregon teachers enjoy the opportunity of hearing such a noted educator, and I trust nothing will interfere with your attendance. Besides Dr. Winship, Pres. Campbell, Dr. Chapman and others will be on the program."

"No teacher can afford to miss this meeting. Be present. Urge your fellow teachers and patrons to attend, as this will be the most important educational meeting held in the state during the year."

"Teachers of other counties are also invited to attend and participate in the exercises."

Thousands of women are cast-up dead on the shores of life because of their own ignorance or neglect. No woman can be free from pain, or safe from the ever-threatening breakers of death, who neglects to take proper care of the organs that constitute her womanhood. A woman who neglects her womanly self will be sickly, nervous, pain-racked and fretful, and approaching maternity will be a menace of grave. It is easy for a woman to avoid this suffering and danger.

Wise women know that Dr. Pierce's Favorite Prescription is a marvelous remedy for those troubles that make a woman's life miserable, and fill the period of prospective motherhood with fears. It is the discovery of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Over 90,000 women have testified to the almost miraculous action of this wonderful remedy. It works directly on the organs distinctly feminine. It makes them strong and healthy. It cures all weakness and disease. It prepares for wifehood and motherhood. It insures baby's health and makes its advent easy and nearly painless. Druggists sell it. Nothing else is "just as good."

Mrs. G. A. Conroy, of Allegheny Spring, Mont. County, Va., writes: "My daughter, aged 12 years, had a severe case of Dr. Pierce's Favorite Prescription after the use of one bottle of Dr. Pierce's Favorite Prescription."

Dr. Pierce's Common Sense Medical Adviser is in plain English. Contains 1,000 pages and over 200 illustrations. If you want a copy, paper-covered, send 21 cent stamp, to cover the cost of mailing money, to the World's Dispensary Medical Association, Buffalo, N. Y. If you prefer cloth cover, send 31 stamps.

UNION PLATFORM.

United in a common cause for the sacred purpose of preserving the principles of government by the whole people, in fact as well as in name, restoring and maintaining equality, under that government, of all classes, we, the people's Democratic and Silver Republican Party, of Oregon, are organized, we are all minor points of difference, and uniting for the purpose of carrying out the greatest underlying principles upon which we are all agreed, do hereby present to the people of this state the following declaration of principles, and to the carrying out of which we solemnly pledge each and every candidate upon our ticket.

First—We demand the free and unrestricted coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the consent of foreign nations, and we are unalterably opposed to the policy of the present Republican administration in demanding the retirement of greenbacks, and the turning over of the money-making power to the government of the national banks, as presented by the bill drawn by the Republican secretary of the treasury, and introduced by President McKinley; and we especially denounce the avowed attempt by said bill to fasten the country irrevocably and forever to the single gold standard.

We demand that the money, safe and sound, issued by the general government, without the intervention of the banks of issue, to be a full legal tender for all debts, public and private, and to be equally and efficient means of distribution, direct to the people through the lawful disbursements of the government.

We demand that the volume of circulating medium be speedily increased to an amount sufficient to meet the demands of the business and population of this country, and to restore the just level of prices of labor and production.

We favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

We demand that the government, in payment of its obligations shall use its option as to the kind and kind of money in which they are to be paid, and we demand that the present and preceding administrations for surrendering this option to the holders of government securities.

We demand that there shall be no further issue of United States interest-bearing bonds. We demand that postal savings banks be established by the government for the safe deposit of the savings of the people and a facility exchange.

We demand the election of United States senators by direct vote of the people.

We demand that the initiative and referendum system of law-making in its optional form, local, state and national, and the submission by congress of all important national questions for an advisory vote of the people, until such time as the national constitution shall have been amended so as to provide for direct legislation.

We condemn as dangerous and unjust the surrender, in all departments of the government, to the influence of trusts, corporations and aggregations of wealth generally, and the packing of the highest courts of the state with corporation lawyers, too ready to do the will of their late employers, and to set aside valid and wholesome laws passed by the legislative departments of the states and government, upon flimsy pretences, at the behests of such institutions.

We are opposed to government by injunction.

In state matters, we demand: A simple and well-guarded registration law.

A more equitable mode of appointing judges of election.

Stringent laws to regulate the operation of fish traps, fish wheels and all fishing gear in the waters within the jurisdiction of the state.

We denounce an condemn the corrupt and extravagant Republican legislative assemblies, and the Republican party, in its eagerness for the spoils of office, has become divided into warring factions, so that it is incapable of government as exercised by the conduct of the highest courts of the state treasurer, there being at this time more than \$500,000 therein wrong from the people by the process of taxation, while state warrants are stamped with the words "want of funds."

We demand that all districts and county officers be placed upon salaries commensurate with the duties to be performed by them.

We demand that no other corporate property is not bearing its proportion of taxation, we demand that such property shall bear its just and equal share of the expenses of government.

THE PROBLEM SOLVED

THE NEW MEDICAL DISCOVERY TESTED.

Results of the Test in Various Forms of Dyspepsia.

Chronic indigestion or dyspepsia while a very common trouble, has for some time been looked upon by able physicians as a serious thing, and that no time should be lost in treating it properly at the start, because recent researches have shown that the most serious, fatal and incurable diseases have their origin in simple dyspepsia or indigestion.

Diabetes is simply one form of indigestion, the sugar and starchy food not being assimilated by the digestive organs. In Bright's disease the albumen is not properly assimilated.

While consumption and dyspepsia are twin diseases, and it is beyond question that dyspepsia makes a fertile soil for the seeds of consumption. But the trouble has been to find a remedy that could be depended upon to cure dyspepsia, as it is notoriously obstinate and difficult to cure.

This has been the question which has puzzled physicians and dyspeptics alike, until the question was solved three years ago by the appearance of a new dyspepsia cure in the medical world known as Stuart's Dyspepsia Tablets, which it was claimed was a certain, reliable cure for every form of stomach trouble.

Physicians however, would not accept such statements without first giving the new remedy many tests and carefully observing results.

For three years the remedy has been thoroughly tested in every section of the country and with surprising and satisfactory results.

Stuart's Dyspepsia Tablets can be honestly claimed to be a specific, a radical lasting cure for indigestion in the various forms of acid dyspepsia or sour stomach, or wind on stomach, too much bile, in due fullness or pressure after eating and similar symptoms resulting from disordered digestion. Stuart's Dyspepsia Tablets were not placed before the public until this three years' trial had no doubt as to their value and they have recently been placed in the trade and can be found on sale at all druggists at the nominal price of 50 cents per package.

No extravagant claims are made for the remedy. It will not cure rheumatism, pneumonia, typhoid fever, nor anything but just what it is claimed to cure and that is every form of stomach trouble.

Nothing is necessary, good whole some food and plenty of it, and you may rest assured that Stuart's Dyspepsia Tablets will digest it.

Druggists claim for it that it is a pleasure to recommend it to dyspeptics, because it gives such universal satisfaction.
