SYRUP FIGS T. T. GEER'S RECORD cide this question on the 6th day of June. The present election law, issed by a Republican legislature, royides that all three of the judges of election in any preciset shall not be of the same political party. The egislature correctly thought that no party should have all the judges of lection in any precinct. If this is right and important in inducting an election, why is it not right in the administration of justice

in the highest judical tribunal of our state? If the judges of election should be of different political parties, why should not our highest judical tribunal, which passes finally on the rights of our citizens, be constituted in the same way, . no party having all the judges? When the

PROF. LYMAN ALL RIGHT.

THE JOURNAL has no prejudice against the American Book Co. It prefers to see this great ten million dollar book trust not taken so active a hand in our state and county politics. There are indications that the American Book Co. prefers Prof. Geography: Ackerman to Prof. Lyman for state superintendent of schools. We are convinced Prof. Lyman is not its agent. The Republicans of Marion are claiming this year to be especially the farmer's party and to have put up a farmer's ticket. Is there any foundation for this claim ?

sooriety and intelligence that ady man can possess and employ will not yield Oregon farmers any greater suc-cess that it has yielded, it is time we changed to a system under which farming pays better. Aside from Mr. Geer there is not a farmer on the state or district ticket. At least one man on the legislative ticket has had business in the courts when farmers wanted their wheat out of warehouses he had control over. Except Wm. Miley for commissioner, there is not a farmer on the Republi-can county ticket. Solid farmers like Mr. Wetzel and H. D. Allen, who were candidates were all defeated by the town politicians. The Republican town politicians, The Republican party takes up a farmer only for appearances.
