The best medicine for prospective mothers is Dr. Pierce's Favorite Prescription. It makes healthy and strong the organs that bear the burdens of maternity. It cures all disease and weakness. It makes comfortable the period preceding motherhood and renders the advent of baby easy and nearly painless. It insures a healthy child. The pains and suffering that women endure, as a result of weakness of the distinctly womanly organism, vanish under its use. All good druggists sell it. There is nothing cise "just as good."
