SILVER AND THE REPUBLICAN PARTY.

When the present editor of THE JOURNAL came to Oregon in 1889 he found the leading Republicans were bimetalists, and in 1890, the first campaign we took part in, the party adopted a platform of free coinage at the ratio of 16 to 1, and gave its reasons therefor. It was a little queer to our taste, but we got accustomed to it all the easier when a Republican congress passed the bill to coin all the silver then produced in the United States, and a half million a month, and President Harrison signed it. McKinley made a speech in congress in favor of free coinage.

The next fall we were in North Dakota and found Senator Hansbrough, a Republican, making free silver speeches, and we made arguments there against the Populist party, saying that the Republican party stood for bimetalism and was a free coinage party in Oregon.

And this continued until 1896, when we helped make the fight for Mr. Mitchell's return to the senate on his silver record. He encouraged the Silver Republicans of the state to do that, and wrote them that not for fifty elections to the senate would he compromise his silver views. Then he made his deal with Mark Hanna and came to help carry Oregon on the St. Louis platform, which he declared was a silver platform, and the Republican party was as good as a silver party as it had ever been, and that was good enough for him.

Well, the sincere Silver Republicans did not believe that, and refused to be caught on that kind of bait, but went out like men of principle and conviction and supported Mr. Bryan openly, rather than be parties to a fraud and stultify themselves and vomit up all that Mr. Mitchell and the Republican party had taught them to believe was true and sound on the subject of bimetalism, even though Mr. Mitchell might do so, and then turn around dog-like and eat his own vomit.

And the sincere Silver Republicans and sincere silver men, though they had been pledged to support him and elect him United States senator, regardless of party, showed Mr. Mitchell that they could not be bartered and sold, and neither could their principles, and they joined with his sincere gold men and saw to it that such a double-faced fraud was not continued in the United States senate. Now that is the history of the assassination of silver in the state of Oregon, and its deathblow was delivered by its most loud-mouthed advocate. But liver will have a resurrection.

IT WAS A WAR VICTORY.

Langlois, Reporter, (Peo.)—It has been said by a great political philosopher, that, "Patriotism is the last refuge of a (political) scoundrel" and the campaign just closed in Oregon developed about a multitude and a half such patriots. Towards the close of the campaign these latter sort practically abandoned their "sound money" slogan and thereafter abandoned themselves to hysterical appeals to the voters to hold up the hands of the Republican administration in the throes of a foreign war! They dwelt with well feigned pathos upon the assumption of their own manufacture that Republican defeat in Oregon would be accounted a rebuke to McKinley for his war against Spain. Their appeals coupled with the marching away of the Oregon boys in the heat of the campaign had an overwhelming influence over the result. The United States cannot possibly engage in any war that will not be popular with the American people. It is within the memory of many yet living, that opposition to

the Mexican war considered the old Whig party to the sleep that knew no waking.

The Federalist party was literally wiped from the face of the earth as the price of its antagonism to the war of 1812.

But there was no opposition in this campaign anywhere to the war against Spain, in fact McKinley was forced to take forward position by the clamor of Democrats and Populists, against the opposition of Reed's House; yet, the war had a great influence in favor of the Republicans in this state, last, as stated above, a verdict adverse to the Republicans, should be construed as a condemnation of the inauguration of the war at all. Therefore the Republican victory on June 6, is in no sense a decisive endorsement of the British gold standard by our people.

LYMAN AND THE BOOK CO.

It is especially to be regretted that Lyman for state superintendent though running far ahead, nevertheless went down in the late political land slide. The "American Book Co." rejoices, of course.—Langlois Reporter.

Mr. Ackerman, the Republican candidate for state superintendent, strenuously denied that he was in any way the representative or candidate of the American Book Co. The ex-county superintendent of schools, and County Supt. Jones of Marion county declared during the canvass as Republicans that if they thought Ackerman was an American Book Co. candidate they would not support him. All the Republican papers of the state, and even the Oregonian, which has always fought the American Book Co., and probably always will fight it, declared that Mr. Ackerman would not become their representative if elected. Mr. Lyman as the Union candidate forced this fight and deserves credit for compelling the Republican leaders to disown the trust and its methods.

Mr. Lyman aroused interest in this question among voters of all parties, whether Oregon is getting as good textbooks in her public schools and getting them as cheaply as your sister states. It remains to be seen whether the Republican representations as to Mr. Ackerman prove true or false. The best element of Republicans want the textbook business run in the interest of the common schools, and not the schools for the benefit of the trust.

REPUBLICAN LUCK.

(East Oregonian, Dem.)  
A lucky star has hovered over the Republican party since early in 1896. First, victory came narrowly to it in the fall of that year. In power, its every act has been given strength in unexpected ways. The party passed a tariff bill, favoring wool and soon ranges of Australia, sheep in that country dying by thousands and thousands. At once there was an increased demand for wool and better prices, and the whole result was attributed to the "beneficence of the Republican tariff," by all the sheep in the United States, as well as by a large number of people.

Then came famine and pestilence in India and a stronger demand and a good price for wheat in consequence. The Republican party was given the credit for the result. It was "such a good thing" to the American farmer! This was followed by a "short crop" in all wheat growing countries, except in the United States, where the crop was never better. The price mounted up, the farmer pocketed large profits, shared them generously with other people, and prosperity spread from one end of the land to the other. The Republican's "advance agent of prosperity" at once appeared upon the scene and, with the art of Merlin, made the people believe that it was all due to McKinley, the grand old Republican party and the gold standard.

When on top of this came the war; lots of government money to put in circulation, and patriotism and sentiment were added to luck on the Republican banner, and all the benefit flowing from the trinity were claimed as the fruits of putting Republicans only on guard.

The result was to be expected; the people in Oregon shut both eyes and voted for Republican "wisdom," as given expression to in national affairs by that party's statesmen, including Mark Hanna, who paid the full market price for a senatorship recently in Ohio.

John Toy, an old Baker county miner, was killed in his mine on Chicken Creek, near Weatherby, some time between Sunday and Wednesday last. The body was found Wednesday. Toy was working in the mine, when the bracing gave way and thousands of tons of rocks came down upon him.

JOE LEITER.

Tells The Journal How It Feels to Lose Eight Millions.  
As we used to know Joe Leiter, of Chicago when he was a kid we thought we would just like to know how it felt to lose eight million dollars a day so we asked him by wire to tell us all about it.

A gre it many men know how it feels to lose eighty cents, or a pocketbook that contains the rent money, or to lose a friend who has your name on his note for a couple of hundred and hear the minister tell of all his wonderful virtues after he has gone where you can't get service on him.

But Joe says to lose a cent a bushel on 24,000,000 bushels of wheat means \$240,000 at a jump. It went down ten cents in one day and Joe says he could just feel the money going out of him like greased lightning to the tune of \$2,400,000 in 24 hours.

Joseph in Egypt wasn't a circumstance to this Joseph of Chicago. The famous wheat deal recorded in the scripture with the Pharos wasn't done on wind, but was an actual delivery, in-sight, spot-cash or no-hungry affair. Captain Potiphar's wife sympathized with Joseph in Egypt and wanted to give him a lift. But in the Chicago case Mrs. Leiter came home from Washington, cancelled all her engagements, pawned all her diamonds and all her daughter's diamonds and helped her husband in the squeeze.

But it was no use, says Joe. "I dropped \$8,000,000 between the last day of May and that unlucky 13th of June." We immediately wired sympathy, collect, and offered to extend the ONE CENT DAILY a month on tick to our old friend in his deep trouble. He wired back: "No extension needed. I never saw the wheat, never had it; never saw the eight million, never had them; so I don't feel the loss so badly as another man would to lose his dinner or a two-bit piece."

Speculation is funny business. You make what you never see. You lose what you never had, and you own what never existed.

J. OFFICIAL DEFEATED.

The official vote of Curry county, which was received yesterday, shows that J. Huntley, Republican, was defeated for joint representative from Coos and Curry counties by E. S. Platts, the Fusion nominee. Mr. Platts received 239 votes in Curry, and 1072 in Coos, a total of 1311. Mr. Huntley received 311 in Curry and 912 in Coos; total, 1223. The political complexion of the 90 members will be: Republicans, senate 24; house 42; total 66. Fusionists, senate 3; house 17; total 20. Democrats, senate 2; house 1; total 3. Populist, senate 1.

Fifty men and teams were working on the Yamhill locks below La Fayette and the contractors expect the work to be finished before high water sets in in the fall.

Extremely Weak

Deficient Blood Causes Loss of Appetite and Final Break Down—Hood's Sarsaparilla Cures.

"I lost my appetite and about all I lived on was food lemonade. My strength was all gone. I was so weak I could hardly cross the floor. At last I was taken very sick. One physician told me my blood was all gone and he gave me medicine but it did not help me. I had pretty much lost all faith in medicine, but thought I would get one bottle of Hood's Sarsaparilla and try it. After taking that bottle I was much better, and so I got two more bottles and after taking them I was well, but to be sure of it, I kept on taking Hood's Sarsaparilla until I had used in all five bottles. It has done unspeakable good to me and I wish all my suffering sisters would try it." Mrs. A. EVANS, Wedderburn, Oregon.

JOURNAL "X" PAYS.

Look out for a special session of the legislature.

Is not wheat shaking hands with silver now?

The Union strength in the legislature is growing.

Was the Geer ratification postponed till wheat goes up?

The price of flour is not so quickly affected by a fall in wheat as by a rise.

Judge Burnett will do well to try the adultery case with closed doors.

Is it the churches of Eugene or the saloons that are fighting President Chapman?

The Sheriff's books of Polk county won't need any experting now. That fire did the job.

Patterson and Moores are entitled to a rest. Both have gone to their final reward and it is not in good taste to speak evil of the departed.

The Cottage Grove Messenger discusses the proposition, "where our sulphur comes from." From the Republican party, of course.

E. V. Carter, cashier of the bank of Ashland, was elected to the legislature by the highest vote thrown for any man on the ticket, and his Ashland vote was the highest ever given to any candidate. He has reason to feel proud of his record as a banker.

Corvallis Gazette, Rep: "The next presidential campaign may be fought out on these lines. The income tax and the restriction of foreign emigration are two of the possible issues of the future."

The Journal can say to the Salem Sentinel from experience that it is useless to try to shame the Republican campaign managers of this county into paying their bills. The only thing for you to do is to join a "Sound money" party.

The Republicans will have a majority of 16 on joint ballot in the legislature next winter. Look out for another hold-up.—Exchange.

No Union member of the legislature should countenance such a proposition.

We commend this patriotic utterance from a Silver Republican paper: "Whether it will be Wm. J. Bryan or Fitzhugh Lee for president in 1900 is not the question just now. We want to lick the Spanish under the same flag, side by side with Republicans, Populists, Gold Bugs, and the whole combination of parties. After the battle we can agitate politics and talk about issues."

People's Press Albany:—The men who want bonds and the silver men in the senate seem to have affected a compromise on the war revenue bill. An amendment to the bill has passed the senate by a vote of 48 to 31, which directs the secretary of the treasury to coin, at the rate of \$4,000,000 a month, all the silver bullion in the treasury and to issue silver certificates against it. A provision for the issue of bonds was also incorporated in measure.

Roseburg Review:—Mr. I. L. Patterson, the new collector of customs for Portland, was a member of the last state senate from Marion county, and was one of John H. Mitchell's warmest supporters, assisting him in the bitter fight made in the legislature for the election of senator. Placing Geer in the governor's chair paved the way for Patterson's appointment and relieved the "powers that be" in the Republican party of a very delicate manipulation which otherwise would have been necessary.

It is unfortunate that the people of Lincoln county should be so short sighted at this critical time, as to let the control of our county government pass into the hands of the Populists.—Yaquina Bay News.

The Republicans have had control of the government of Lincoln county since its organization and the business has been conducted in a most unbusiness like manner, and instead of a calamity to Lincoln county being a calamity to Lincoln county, the people of Lincoln county, who have been under Populist control for two years and will be for two years more at least believe it will be the greatest blessing ever bestowed upon our sister by the sea.—Albany Press.

"A Citizen in the Eugene Guard asks the following questions about the State University:  
What's the matter with the state university?  
Why don't the president and faculty attend the exercises?  
Why don't the people show interest anymore? Less than 50 people and only three professors to the class-room planting. Less than 200 at the lecture last night to hear Irvine's excellent address.  
Why did the president's wife read a novel contently during Mr. Irvine's lecture? Was that courteous?  
Why are there no prominent men of the state here as visitors?  
Where is the glory of the university?  
Is it true as Skipworth said: "College is a good place for men and women—if the president is not a liar?"  
"How long, oh! how long in this Babylon shall I fall!"

STAMP TAXATION.

Government Instruction to Revenue Collectors.

WASHINGTON, June 20.—The following circular has been issued to collectors of internal revenue:

The act of June 13, 1898, providing stamp taxes on the documents, articles and things enumerated in schedules A and B of said act, becomes operative as to such taxes on and after July 1, 1898. In view of the public demand for information relative to the method of affixing and canceling said stamps, the following instructions are furnished, with the request that you give it the widest publicity possible.

Adhesive stamps of the following denominations will be supplied collectors before July 1, 1898, for sale: Documentary stamps under Schedule A, 1, 2, 3, 4, 5, 10, 25, and 50 cents, \$1, \$3, \$5, \$10, and \$50. Proprietary stamps schedule B, 1, 2, 3, 4, 5, 10, 25, 50, and 100 cents. These stamps may be sold to any persons, whether for use or resale, and when purchased in quantities of \$100 or more in value at one time, a discount of 1 per cent is allowed.

Wherever practicable but one stamp should be placed upon an instrument or article, where any one stamp will denote the tax, as few stamps as possible should be affixed.

Proprietary stamps must be affixed conspicuously on the outside of the article or package and where practicable so that the opening of the article or package will destroy the stamps. All such stamps must be plainly canceled when affixed by writing or imprinting with a hand stamp the initials of the party or firm who paid the tax and year when affixed.

Collectors should make orders at once for proprietary and documentary stamps in quantities and of the denomination desired for a two month's supply. Stamps for checks and drafts will be imprinted upon the paper or instruments in the cities of New York, St. Louis, Atlanta and San Francisco, and is expected that such imprinted stamps will be ready for delivery before July 1. All orders for such stamps will be made through collectors and forwarded to the stamp agent at the place where such stamps are imprinted. If necessary the two-cent documentary stamp may be used on bank checks, drafts, etc.

Private dies for printing proprietary stamps will be prepared and furnished to such proprietors as desire them and comply with the provisions of section 9 of the act of June 13, 1898.

All designs for dies and applications for stamps must be submitted to this office through collectors. All engravings will be done by the government at the expense of proprietors, and deposits to cover cost of dies and the price of stamps, not less than \$200 at one time, must be made before the stamps will be printed.

Manufacturers of proprietary articles will be required to use the general proprietary stamps until stamps can be furnished them from their designs. Collectors will retain applications for private dies and stamps therefrom under regulations prescribing methods and means of securing the same are issued.

The regulations relative to the stamp provisions of the revenue act, approved the 13th inst., will be issued and distributed in a few days.
