In the recent fight between the newspaper publishers of Chicago and the stereotypers, Union, which left Chicago without a daily paper from July 1st to July 6th, the latter suffered an ignominious defeat. This seems to have been a case where a labor organization over reached itself.

When investors are so eager to buy 3 per cent bonds, what does it mean? It means that legitimate industry cannot thrive because money invested in bonds at 3 per cent is better than money invested in any legitimate business.

Eugene has a "Women's Republican Patriotic League." No "traitors" need apply. With all the dash of a military coup defeat the express companies have solved the war tax problem.

The government printing office, at Washington, did some rapid work in handling the report of the board of inquiry on the wreck of the Maine. "The report was submitted on Monday, March 23," says McTure's magazine.

CLIPPINGS AND COMMENTS

Notes on the Drift of Current Newspaper Thought East and West.

Had the Union ticket won in Oregon the monopoly organs would now be making a great row over the big fall in the price of wheat. As it is they are as mum as oysters.

Oregon has gone Republican, and once more it is asserted that "the silver issue has been killed." We are not sure whether this is the thousandth or the millionth time that this claim has been made.

The New York world which opposed Bryan in 1896 has the following to say now of the silver champion: "Mr. Bryan, perhaps better than any other Democrat, is fitted to lead the new revolt against Republican faithfulness and failure."

If Lincoln were president today, the members of the odious aristocracy of the effete east would be playing golf and hunting the elusive anise seed bag, instead of drawing salaries as commissaries of subsistence.

On May 10 in the city of St. Louis, there was a young man serving as a cigar counter salesman in a hotel who felt and responded to the impulse of war. On May 11 he was a soldier in the ranks.

About the time the cigar counter man was arranging to enlist in the ranks of the son of ex-President Harrison, the son of Vice President Hobart and the grandson of President Grant were exerting their influence at Washington to obtain assignments to showy positions on the staff of General Lee.

This is encouraging for every one but the political "Brigadier Generals." General Lee is distinctly "all right."

Republican papers are beginning to enter complaint against our Australian ballot system of voting. It seems that many of the members of that party—according to their various party organs—are so illiterate that they cannot understand and vote the present form of ticket intelligently.

official ballot. Any man who can read English and has sufficient eyesight to enable him to understand the meaning of his ballot, who cannot vote the present system intelligently is not competent to vote and ought to be disfranchised.
