How A. Cooper Had a Rotten Bone Healed After 35 Years.

CHEWALIS, Wash., April 9, 1938.

Dr. J. F. Cook, Salem, Ore.: I received your letter and was glad to hear from you. You want to know how my leg is getting along. It is all right; the flesh is growing out over the skin bone and is turning white. It is not straight yet, but I think it will be as straight as the other leg when warm weather comes on. I can work most of the time. The other doctors told me I could never be cured without splitting it and scraping the bone, but they are mistaken. It is getting well without cutting or scraping, so they do not know as much as they thought they did, but you are all right, for you have done just what you said you could do. I will answer any questions you ask about my leg. Very truly yours,

A. COOPER.

Dr. Cook's office is at 301 Liberty street, Salem.

Blanco Can Rest in Peace Until Commodore Watson Returns

NEW YORK, July 14.—A Tribune special from Washington says: The actual departure of Commodore Watson's raiding squadron for the coast of Spain, which the naval authorities expect will occur about the end of the present week, indicates sufficiently the complete abandonment of any intention to besiege Havana in the next three or four months and confirms the impression that no extended military operations will be prosecuted in Cuba after the capitulation of Santiago.

The remarkable difficulties which have attended the investment of Santiago and the resulting tedious delays have served to convince the military and naval authorities that Havana cannot be attacked successfully with less than 100,000 men and the entire naval force in the Atlantic.

The city, ordinarily one of the best fortified ports in the world, has been made more impregnable in the last two months through the ceaseless activity of General Blanco, who has surrounded it with several chains of strong entrenchments and fortifications, in addition to the new batteries he had mounted along the coast. Without the strong vessels attached to the raiding squadron the navy would be powerless to render effective assistance to the army against Havana, and it is deemed impossible that land forces alone could secure the surrender of the city within less than several months' campaign, which would be out of the question before midwinter on account of the climatic conditions.

Promptly upon the fall of Santiago, it is announced, the expedition to Porto Rico is to be undertaken, with General Miles in command of three divisions, aggregating more than 30,000 men. He will have the co-operation of Admiral Sampson's heavier ships in the assault on San Juan, and it is his intention to clear the entire island of Spanish troops with every energy at his command. His force will include practically all the regular and volunteer troops now at Santiago, the Cubans and immunes being left to hold that province.

In addition to the 42 transports already secured to carry troops to Porto Rico, including the 30 that formed General Shafter's main expedition, the navy has consented to the temporary use of the auxiliary cruisers St. Paul, St. Louis, Yale and Harvard to carry the regiments, and a number of other vessels will be available next week.

Regulator Wrecked.

BONNVILLE, Or., July 14.—The steamer Regulator was wrecked yesterday on the rocks just below the Cascade locks. She had on board 160 passengers and a large amount of freight, including some teams. The passengers and most of the freight were landed on the Oregon shore. The passengers were sent to their destination by rail through arrangements made by the steamboat company. The boat lies submerged up to her state-room windows, but can be raised with little loss, unless broken to pieces on the rocks by the high winds. Tugs and a force of carpenters are expected from Portland today to commence the work of raising the steamer.

Blanco Attempts Suicide.

K. V. WEST, July 14.—According to advices from Havana, received here today, Governor-General Blanco attempted to commit suicide when he learned, beyond a doubt, that Admiral Cervera's squadron had been annihilated.

Blanco was in the palace when the intelligence reached him, and he became almost frenzied. He was closeted with his staff and General Arolas, of the Spanish forces, discussing the news when he made an attempt on his life. After a struggle he was subdued and disarmed, but the shock was so severe that he was prostrated, and compelled to keep to his bed for several days.

This information was brought by Jose Paulino Blanco, who indignantly repudiated the suggestion of his kinship with the governor-general.

WILL GO BLINDFOLDED.

Such Will Be the Stupendous Task of Grant Chesterfield.

Prof. Grant Chesterfield, the noted thought reader and palmist who is performing such marvelous work at Dr. Rowland's, Corner Court and Liberty streets, in reading the palms will leave Salem in a few days for Tacoma to undertake the stupendous task of piloting the steamer Flier from here to Seattle blindfolded. Communication being with the aid of a copper wire attached from the pilots wrist to Chesterfield's. Objections are raised on all sides and excited by the acknowledged king of palmists as to how he can perform this wonderful feat. It certainly would rank him as the acknowledged king of all thought readers.

It is probable that Prof. Chesterfield leaves Salem, Saturday night. His parlors are still strewn with patrons from morning until night. His fee for a complete reading of one's life is 50 cents.

The parlors remain open evenings.
