THE SANDWICH ISLANDS.

Hawail isours. The islands are now United States territory and will always remain so, as long as we have the power to hold them. The wisdom of annexation, however, has yet to be proved. There is no doubt but public sentiment has been overwheimingly in favor of annexation, and on that score, if no other, the government has done well. Whether the United States, as a whole, will ultimately gain or lose by the move remains to be seen. The direct and immediate pecuniary result will be an outlay of many millions on the part of the government. We assume the debt of \$4,000,000 for a starter; we must spend many millions more for public buildings and to provide for the defense of the islands; we must build, equip and sustain a number of extra warships. That our pavy should be increased no one will question, but that the possession of the islands will necessitate several more ships than we would otherwise need is equally clear. We already had a

coaling station and a harbor in Pearl Harbor, which is practically all that we have now. The trade of the islands was ours; as much so, probably, as, it University and Glessen University, vous system. Mr. Spreckles will import no more sugar from the islands than he has

There had been neveral sharp passages to which he replied. He explained ages to which he replied. He explained how Fletcher came to call himself a 'tiller of the soit." The word"tiller" meant part of the steering apparatus of a boat. It was something a person could sit down to and take it easy at. Fletcher sat in his easy chair in town and wrote lectures on how to 'steer" a farm.

Hissons were stalwart farmers and did the work of two farms that went far to support him in his lead pencil industry as a "tiller" of the soil. At this, Fletcher got up but the chairman ordered him to sit down, as he could reply in his paper or his next public lecture.

SOME SALTY PRETZELS were thrown around by Col. Hofer, but t sere were no more collisions between him and Fletcher. It was easy to see the latter was ruffled. So was the federal supervisor. ## AN OPEN LETTER To MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

1, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "CASTORIA," the same that has borne and does now bear that Hilletcher: wrapper. This is the original "CASTORIA" which has been used in the homes of the Mothers of America for over thirty years.

LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought of the Hitchies, wrapper. No one has authority from me to use my name except The Centaur Company, of which Chas. H. Fletcher is President.
