Let loose the dogs of war! What are we not Imperialisists?

There is one thing about an Oregon crop—It's seldom lost after it's grown.

Cycling is now applied as a cure for insanity, and it has not been alleged as a cause.

If Americans can govern as well as they can shoot, who says we can't govern the Philippines?

The invasion that will do Cuba most good will be an invasion by the thousand American school ma'ams.

The people seem determined to build up the biggest circulation in the state for a good daily paper at Salem.

With cheap ice, cheap ice cream, cheap beer, and a 1 cent Associated press daily, who wouldn't live in Salem.

Gov. Lord talks hard horse sense when he says forty days is too short time to elect a senator and attend to public business.

That was a kind act of Uncle Sam's to take the Spanish women and children along back to Spain with the surrendered army.

Boston girls ride only the diamond frame bicycle. They prefer the divided skirt to bloomers. The Boston girl knows when she's right.

Not near so many "American pigs" have been killed in the war with Spain as we were led to expect when the Spaniards were doing all the talking.—Exchange.

Well, if we should have to keep the Philippines we could govern them on a pinch. The Americans talent and capacity for governing has not been fully demonstrated.

The irritability of the Eugene Register editor is accounted for by the fact that he has recently removed a very bristling youthful moustache.

An Eugene paper modestly says: Salem is still boasting about what they are going to do with that big park. Eugene's little park is blossoming as the roses; but spades and water were employed instead of wind.

Gov. Lord's interview in the Oregonian must have been a dash of cold water in the face of the advocates of cotton-shirted natives for American citizenship. He is not a full-fledged up-to-date Republican imperialist.

The long and perilous voyage of the Oregon around the Horn ensures the Nicaragua canal. The people demand it and what the people demand they get—when they "holter" loud enough, long enough, and vote hard enough.

General Shafter's prisoners number 25,789. At the regular rate these will cost the country 18 cents per capita daily until they are safely landed on Spanish soil, not counting the cost of transportation and incidentals.

It is said that Eastern Oregon Republicans will push forward Judge James A. Peck of Pendleton, for U. S. senator.—Exchange.

Isn't it about time Oregon sent a senator [down to Washington who might restore some of the prestige of this state and exercise at least a little bit of influence there?

President McKinley will donate the furnishings for some of the largest rooms for the addition to government hospital at Davenport Iowa. This is in recognition of the offer of the sisters there to furnish twelve trained nurses for service in government hospitals or on the battlefield.

General Shafter's address of thanks to the army of invasion, which captured Santiago under his able leadership, is one of the most remarkable documents which has ever come from the pen of so great a man. In no place do the words "I" or "my" appear, and from reading the address no one would be able to judge that the old hero was there at all.

Swimming parties is the latest rage in Eugene. Nearly every woman in town who is accommodating enough to act as chaperon is pressed into service. The mill race and both branches of the Willamette are now every evening the scene of splashing pleasure, and a number of Eugene's society girls are acquiring the important accomplishment of self support in the water as well as on land.—Register.

When reading the long Associated Press cable dispatches just remember that the rate per word from St. Thomas via Hayti is \$2.46; from Kingston via Hayti-Martinique \$2.13; from Barbados \$2.04; from Santiago 38 cents; from Havana 53 cents; from Cape Haytian \$1.48; from Porto Rico 85 cents; and from Mole St. Nicholas 52 cents, and perhaps you will appreciate to a great extent what you are getting in a 1c.
