**Train Hold-Up.**

ST. JOSEPH, Mo., Aug. 12.—The southbound Burlington exposition flyer was held up two miles north of this city at 9 o'clock last night by five men well armed, who rolled the Adams Express Company's safe out of the express car and attempted to haul it away. They abandoned their task soon after without getting any money, it is said. The safe was recovered two hours after the hold-up.

Engineer William Gardner obeyed signal to stop, and one of the robbers cut loose the engine, running it down the track 200 yards. Conductor William Heaton was ordered by the robbers aboard the smoker and remained there. Fifteen shots were fired to terrorize the passengers. No attempt was made by the robbers to enter the coaches.

Express Messenger Frank Hogue offered no resistance when the bandits entered his car. The robbers were but a few minutes in rolling out the small safe and quitting the scene of the robbery. Though the railroad and express men here state that the robbers got nothing, it is reported that considerable booty was secured.

**GO TO HOOP.**

KANSAS CITY, Aug. 12.—The Adams Express Co. states positively that no booty had been secured by the robbers who held up the Burlington train near St. Joseph, Missouri. No trace of the outlaws has yet been discovered.

KANSAS CITY, Mo., Aug. 12.—Soon after the express robbery on the Burlington road was reported here, a railroad official, who ought to have been well informed, made the statement that the robbers secured \$8,280 from the safe which they took from the Adams Express company's car.

**Fear Yellow Fever.**

NEW YORK, Aug. 12.—A dispatch from Corunna, via Hendaye, says, Great dissatisfaction prevails here and at Vigo and Santander because these points have been selected for the sanitary camp to receive General Toral's army. Exaggerated reports of yellow fever and other diseases that the troops are likely to bring with them have caused a panic among the ignorant people.

The population of these northwestern provinces is absolutely apposed to the continuation of the war under any pretext whatever, and this is especially so in the seacoast towns, which would undoubtedly surrender at the very first sight of an American ship, in order to avoid bombardment. The people in the towns and in the country have an adequate supply of provisions, and the cost of living in this part of Spain is no dearer now than before the war.

General discontent against the government is noticeable, but the people neither need leaders nor money to assume active hostilities.

Meanwhile, the attitude of the army is anxiously observed, for in the popular belief it is now the army alone which controls the situation.

**Shocking Scene at a Funeral.**

CINCINNATI, O., Aug. 12.—A shocking scene occurred here today, when the remains of Mrs. Elizabeth Winkelman were about to be lowered into the grave. She died in New York, and her remains were taken from the train to Spring Grove cemetery. On the same train were the remains of Captain W. D. Sherman, a Kansas volunteer, wounded at Santiago.

It was not intended to open the Winkelman casket here, but a sister of the deceased made the request at the grave. When the undertaker discovered that he had the remains of a captain in uniform and not that of the aged lady, he did all he could to appease the doubly stricken relatives. The baggageman put off the wrong casket. The railway officials telegraphed for the return of the Winkelman casket, and that of Captain Sherman was sent on the next train.

Captain Sherman was wounded and brought to the hospital at Washington. His case was not considered serious. Miss Wyrer went to Washington for her marriage on the date previously fixed. While she was en route East the captain became worse, and died a few hours before she reached him at Washington. She does not yet know of the baggageman's blunder, but when the train arrives at St. Louis she will be notified that the casket has been delayed.

**INSURGENTS QUIT.**

Garcia's Men Given a Day's Leave of Absence. NEW YORK, Aug. 12.—A Santiago dispatch to the Evening World reports that Garcia had suspended all operations for thirty days and had given men permission to go home and report to him at the end of that period.

**Homeward Bound.**

SANTIAGO, Aug. 12.—The St. Louis left last night the 11th, with the Ninth and Tenth Infantry, two companies of the Seventy-first, New York. The St. Paul should have left Guantanamo last night or this morning with the Second Infantry, and four companies of the Seventy-first New York and General Kent of the headquarters at Rio Grande, with the second regiment which have just arrived.

**Gold Excitement.**

**Want Philippines Retained.**

SYDNEY, N. S. W. Aug. 12.—The American colony here has cabled to Washington praying the government to retain possession of the Philippines.

**Salisbury Criticized.**

LONDON, Aug. 12.—All the morning papers, including the supporters of the government, attack Lord Salisbury for weakness in dealing with the Chinese question. The Daily Chronicle says:

"What is to be the result, nobody can say. There is room for the gloomiest forebodings. Does the country realize that for want of a little foresight and firmness Great Britain may, ere long, be plunged into a colossal war? Such, without the least doubt of exaggeration, is the appalling possibility."

**The Standard says:**

"These repeated humiliations are becoming intolerable."

**New Chinese Railroad.**

LONDON, Aug. 12.—The Daily Mail says this morning: We understand that the Franco-Belgian contract for the construction of the Pekin-Hankow railway has been ratified by the tsung-li-yamen and actually signed.

**Cuba's Future.**

WASHINGTON, Aug. 12.—Plans for the temporary government of Cuba and the territory which will be acquired from Spain as a result of the war, are now under serious consideration by the president and the members of the cabinet. Porto Rico, as an actual acquisition to the territory of the United States, will be placed in charge of a military governor who will exercise a supervisory control of all the functions of government under the direction of the president, until congress shall determine upon a permanent form of government for the island. Upon the evacuation of Cuba, it is believed to be the intention of the president to establish for the whole island, a temporary military government similar to that now in operation in Santiago.

When order has been fully restored, and the people have settled down to their peaceful occupation, it is believed to be the view of the president that a convention of the representatives of the people should be called to vote upon the question of a form of government for the island. The presence of the army of the United States would be a guarantee that every citizen, who would subscribe to the oath binding himself to support whatever form of government should be agreed upon, should have the unquestioned right to vote for whomsoever he pleased to represent him. This would however, have to be submitted to the United States for approval or disapproval.

It is held that this convention of the representatives of the whole people, in the free exercise of their choice, might express the wish to become a colonial dependence of the United States, or might favor a republican form of government, or possibly a majority might ask to be annexed to the United States. In either of these contingencies it is believed that their wish would meet the approval of the president and his advisers.

**Merritt's Campaign in the Philippines.**

WASHINGTON, D. C. Aug. 12.—General Merritt undoubtedly is pushing his campaign in Luzon. It is positively said that he is under no restraining orders from the war department; but that it is left entirely to his own discretion, when and how to attack Manila. Inasmuch as it has been reported from Cavite, that he was simply awaiting the arrival there of the double-turreted monitor Monadnock, it is presumed this attack will soon follow if it has not been made already, for according to the calculation of the navy department the Monadnock is about due now at Cavite.

While not quite clear as to General Merritt's purpose in deterring his attack until the vessel arrives, it is the opinion of the military officials that his plan is to plant the two monitors, the Monterey and the Monadnock, directly within range of the Manila batteries, and if the demand for the surrender is refused to batter down these defenses. Only fully armored vessels can be safely employed on such work, hence the delay on account of non-arrival of the Monadnock. The ordnance department of the army has succeeded, at last, in securing a smokeless powder adapted for use in the Springfield rifles, with which nearly all the volunteer troops are armed.

The powder used with the small bore and repeating rifles was too powerful and a special powder had to be procured.
