

# Hood's Pills

## Daily Capital Journal

MONDAY, AUGUST 15, 1928

The assertion that the mints of India will soon be again opened to the free coinage of silver seems to be somewhat premature, although it is founded on the report, which is claimed to be authentic, that the British Indian currency commission will recommend the opening of the Indian mints to silver at the ratio of 22 to 1. Even if the commission does so report, it will still remain for the British government to order the measure carried out, and there is no assurance that it will do so.

The sinking fund is only an incidental in the system which has made the Glasgow city government the best in the world. The foundation on which it has been possible to build up an honest and efficient administration of city affairs, has been municipal ownership of public monopolies, like the light, water and street railway plants.

So long as there are valuable franchises to be given away, and fat contracts, like street cleaning and sewer building, furnishing light and water to the city, etc., to be let, there will be a chance for aldermanic boodling. So long as there is rich picking for dishonest city officials, the dishonest city official will be in evidence, nine years out of ten. The honest man and good citizen is no match for the ward politician, and so long as there is money to be made by boodling politics, the ward politician will keep control of city affairs.

Cut off the chances for dishonest profit in city offices, and there is no further inducement for the boodler to get himself elected to office, and the business man has a chance to put city affairs on a basis of business integrity.

Mr. Boyd accidentally ran his machine off a walk, and being a heavy man, the fall of about three feet was sufficient to fracture the head of his right thigh bone. Mr. Boyd is one of Baker City's most highly respected citizens and his many friends sincerely hope his injury may not have a fatal ending.

To Cleanse the System. Effectually yet gently, when constive or bilious, or when the blood is impure or sluggish, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Figs.

Corvallis—Twenty thousands bushels, or 400,000 pounds of dried prunes is the mammoth output expected from the big prune orchard of the Corvallis prune company this season. To make the emergency the construction of a new and mammoth dryer has been undertaken. An eighty-horse boiler, weighing 9,000 pounds, has been purchased, and is now at the prune company's farm. The dryer will be built on the Thomas Bell plan, and will have a capacity of 500 bushels, or 10,000 pounds of dried prunes per day. The work of getting the dryer in shape in time to handle the great crop is to be pushed.

How will the new ratio be regarded by the bimetalists of the United States? That depends on how well they understand the true fundamentals of the money question. 16 to 1 is the right ratio, for the reason that it is the proportion in which the two metals are existent in the world's available supply. At the same time, it is of more importance that the free coinage countries should all have the same ratio than that the ratio should be mathematically the natural one. It is a matter of the level of prices. 16 to 1 would give us a higher level than 22 to 1, because there would be more money units, more "dollars." But the debtors of the world should be willing to partly "pocket their losses" for the sake of restoring bimetallic prices and conditions, rather than lose all by insisting on absolute equity.

THE BEST GOVERNED CITY. The leading and most commendable feature of the management of public affairs is the principle of the sinking fund, which is applied to every enterprise or business in which the municipality is interested, says the American Magazine of Civics.

Whatever debts it has are on the sure and safe road to liquidation by the automatic operation of the sinking fund device. By this means the City of Corvallis will, inside of 50 years, furnish free water to its citizens; give them the best electric lights free; electric or water power at cost; allow them to ride on its electrical roads at the nominal fare of 2 cents for any distance and furnish to all free use of a magnificent public library.

The city affairs are managed by business men with the same prudence with which they would manage their own affairs; the question of party politics enter into no local election and it seems to be the object of the municipality to administer the city's finances in an economical way, to improve the public health in its physical and moral basis, and to give brightness and the possibility of happiness to civil life. Its success in all these has been so marked as to command the admiration of the civilized world and to gain for itself the appellation of the best governed city on the face of the globe.

The sinking fund is only an incidental in the system which has made the Glasgow city government the best in the world. The foundation on which it has been possible to build up an honest and efficient administration of city affairs, has been municipal ownership of public monopolies, like the light, water and street railway plants.

So long as there are valuable franchises to be given away, and fat contracts, like street cleaning and sewer building, furnishing light and water to the city, etc., to be let, there will be a chance for aldermanic boodling. So long as there is rich picking for dishonest city officials, the dishonest city official will be in evidence, nine years out of ten. The honest man and good citizen is no match for the ward politician, and so long as there is money to be made by boodling politics, the ward politician will keep control of city affairs.

Cut off the chances for dishonest profit in city offices, and there is no further inducement for the boodler to get himself elected to office, and the business man has a chance to put city affairs on a basis of business integrity.

Mr. Boyd accidentally ran his machine off a walk, and being a heavy man, the fall of about three feet was sufficient to fracture the head of his right thigh bone. Mr. Boyd is one of Baker City's most highly respected citizens and his many friends sincerely hope his injury may not have a fatal ending.

To Cleanse the System. They promptly remove obstructions or irregularities of the system and cure sick Headaches, Fort Weak Stomach, Impaired Digestion, Disordered Liver, IN MEN, WOMEN OR CHILDREN. Beecham's Pills are Without a Rival. LARGEST SALE ANYWHERE IN THE WORLD.

## OUR SOLDIER WRITES AGAIN.

A Week's Happenings With Battery B at Portland. O. N. G. Armory Portland Or, Aug. 12, 1928. By this time the members of Battery B, have adjusted themselves to the accommodations furnished in the O. N. G. Armory in this city and are making the best of indoor camp-life. Considering the close confinement to which the boys are subjected, their conduct remains exceptionally good.

The war news is eagerly read and the entire battery is anxiously awaiting orders directing them to report at some point for rendezvous preparatory to active service. Last Sunday morning instead of executing the usual drill, they marched assembled at 8 a. m. and marched to the City Park, where the forenoon was spent in a most enjoyable way. Released from their quarters and freed, temporarily, from the restrictions placed over them in the armory, the boys proceeded to a full enjoyment of the privileges accorded them. The menagerie, was visited after which all repaired to the picnic grounds. Before leaving the grounds the jovial gardener, Mr. Myers, presented each man of the battery, 100 in all, a handsome geranium buttonnieres, for which he received three rousing cheers from the boys.

For one day at least Battery B was the "flower" of the army. Our battery was very highly complimented by Adjutant General B. B. Tuttle in an item in Sunday's Oregonian. Concerning this organization, Adjutant General B. B. Tuttle says: "Light Battery B, Oregon Volunteers, has been the recipient of many compliments during its stay in Portland. For sobriety and general soldierly conduct it has not been surpassed by any organization rendezvoused in this city since war was declared. The fact of their being no drunkenness or confinements in the guardhouse for any cause, speaks very highly for the battery. The proficiency attained in drill in the short time it has received instruction is remarkable and can only be explained by the industry and great interest its members take in their work. It is to be hoped they will see the active service they so much desire."

Our first uniforms arrived Monday afternoon. They are made of brown ducking and are called Manila or "hot weather" uniforms. They are intended for use only when working among the horses or cannons or when in active service.

Our blue regulation suits are expected daily and until they arrive we are obliged to wear our Manila uniforms at all drills and when on duty. It is optional with us whether or not we wear them on the streets. Besides our suits we received underwear, hats and socks.

The government pay-master arrived Tuesday afternoon and distributed approximately \$2000 around the battery boys. The government was quite lenient with the boys, allowing them pay from the time they enlisted although they were not mustered in for about two weeks afterwards.

As a sequence to the distribution of the monthly pay, one of the boys inhibited too much liquor and returned to the armory intoxicated. It is needless to add that the young man will not repeat his performance for some time to come. The battery officers made an example of him by sentencing him to five weeks guard duty during which time he is deprived of a leave of absence.

Wednesday and Thursday mornings an East Side baker, called at the armory with an express wagon load of pies. His stock was exhausted before he left. The boys relished the delicacies very much such dishes not being included on the battery bill of fare.

Thursday morning the writer was appointed battery clerk and assumed his duties forthwith. The battery will take up gun drill in a few days. The elementary instructions will be given in the armory drill hall but as the battery progresses and takes up more difficult maneuvers, more spacious grounds will be sought.

Thursday afternoon the battery enjoyed an afternoon's out-door exercise. The regular one hour drill was executed on the ground near the Exposition buildings from 3 to 4 o'clock, the boys prove themselves worthy of the praise they are receiving. Sylvester Kellogg, son of the mayor of Baker City was taken to the Good Samaritan hospital Thursday. It is feared he has typhoid fever. This is the only serious case of sickness yet noted in the battery.

Miss Mary Neuhous, of Baker City, has the thanks of the Battery for a large delicious fruit cake received Monday. It was sent to her brother, Robert, but he very generously shared it with his comrades. E. Cooke Patton called long enough Tuesday to joke us about our "over-all" uniforms. Owing to a business engagement, Cooke was obliged to decline an invitation to take dinner with us.

Daily I encounter some Salemite, who is temporarily living here. Walter Davis is working for Fred Mcrrill, the well known wheelman. Carl S. Nicklin is visiting relatives here and is looking for a desirable position to work. Watt Shipp has discontinued training and is working in a large cycery on Fifth street. Chester Wilson, another Salem boy, is in the employ of the Gas Company.

One member of Battery B has decided that he cannot "go it alone" and experience life's battles without the comfort and sympathy of a help mate, and on Thursday evening was granted leave of absence long enough to get married. The young man referred to is Corporal M. C. Thompson, of Baker City. He was married at 6:30 p. m., Thursday, in the parlor of the Hotel Perkins to Miss Marguerite Quiner, of San Francisco. On the following day at the noon day mess, the happy groom treated the boys to a box of fine cigars. Corporal and Mrs. Thompson have the best wishes of the officers and members of Battery B for a happy and prosperous wedded life. J. W. C.

How's This! We offer One Hundred Dollars Reward for any case of Catarrh that will not be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Props., Toledo, O. We the undersigned, having known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. West & Tracy, Wholesale Druggists, Toledo, O., Wadding Kinnan & Marvin, Wholesale Druggists Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75c per bottle. Sold by all Druggists. Testimonials free.

McInville—John Crawford, who has the contract for the concrete work on the Yamhill locks, was seen Tuesday. He says they are prepared to do the work from this time on. A party home power boiler and engine is being placed upon the mixer and other necessary machinery. Two gangs will be employed, keeping the work moving night and day, and it is part of the plan to put in an electric light plant if one can be had reasonably. Mr. Crawford says that about 60 days will be required to complete the job, and he hopes to be through before the river rises from fall rains.

A happy mother is the one who is using Dr. Miles' Nerve Pills in this world. To hold in her arms the dear little life that is part of her very own life, and to see it grow up, healthy and dependent on her protection and care, is a most sacred responsibility of a woman's existence. But many a woman approaching the time of her confinement, feels most deeply its duties and trials. She is burdened with a sense of anxiety and unreasonable foreboding. This state of mind is unfavorable both to the mother and the child. A prospective mother may insure herself against the slightest fear of danger or excessive pain by the use of Dr. Miles' Favorite Prescription, during the period of expectancy. This Prescription makes the coming of baby absolutely safe and comparatively painless. It gives clean endurance to the organism specially concerned in motherhood, and healthy vitality to the nerve-centers. It makes the mother strong and cheerful. It gives her recuperative power. It promotes abundant nourishment and provides comfortable and skilled specialist in this particular field of practice. Its sale exceeds the combined sale of all other medicines for women.

"I am very thankful for what Dr. Miles' Favorite Prescription has done for me," writes Mrs. R. B. Smith, of Nevada, Elk Co., Kansas. "About a month before I was confined I had such pains I could not get up. I carried my child a time. I could not rest at night at all, nor at any time. I began taking Dr. Miles' Favorite Prescription and after the second dose I felt better. From this point I was able to carry my child the whole way, and did not feel at all bad. When the water was used, up a long hill, and baby was born the doctor and the woman who were with me said I had an easier time than any one they ever saw for the first time. The baby is very healthy and growing. My husband has been up ever since she was five days old."

# Chicago in Six Days.

How the Railroads Will Handle the Fruit Crop. Fast Train Service Over the O. R. & N.—Northern Pacific Route—Larger Wheat Yields.

Beginning Thursday, August 18, the O. R. & N. Co. and Northern Pacific will inaugurate a fast fruit train service from Portland to Eastern markets. The train will run over the Oregon company's line from this city to Wallula, and thence over the Northern Pacific to St. Paul, Minneapolis, Duluth, Chicago and other points.

The time required to make the trip will approximate 120 hours, from Portland to St. Paul and other Eastern termini, and 144 hours from Portland to Chicago. The service is the same as was given by the route last year, and which proved so satisfactory to fruit raisers in the vicinity of Portland and throughout the Willamette valley generally.

The O. R. & N. and Northern Pacific are enabled to give the improved service by the continuity to their lines of some of the great fruit districts of Oregon and Washington. They can make up solid trains by collections of carload shipments at Wallula, Spokane, Portland, The Dalles, Walla Walla and Yakima, gathering at the points named the yield of the Walla Walla, Unatilla, Yakima and Willamette valleys, Clark county, Washington, and vicinity, the Hood river country and Snake river sections.

The rates for the service will be the same as prevail over competing lines. The time consumed in making the run to Chicago and Eastern terminals will be just one day less than at present. 13-31

Aker's Dyspepsia Tablets are sold on a positive guarantee. Cures heart-burn, raising of the food, distention or any form of dyspepsia. One little tablet gives immediate relief, 25c and 50c. Lunn & Brooks, druggist.
