Collier Work. NEW YORK, Aug. 17.—A special to the Tribune from Washington says: Perhaps the most remarkable economical achievement affecting the navy which has occurred during the war has been due to the purchase of twenty colliers and half a dozen refrigerators and distilling vessels.

Commodore Bradford found that he could buy all the coal he needed for \$1.82 at Lambert's Point, Va., loaded and trimmed on board vessels. At first he chartered a large fleet of schooners, but after hostilities began he found he could not deliver coal to the fleet at any price.

In the Pacific there are four vessels, the Brutus, the Nero, the Zafiro and the Nanshan, the latter two purchased by Admiral Dewey. Just before the war broke out, Admiral Dewey had to pay \$19 a ton for fuel at Hong Kong.

When the problem of sending the Monterey and Menadnock was forced upon the navy department, Commodore Bradford solved it and avoided the danger of trying to coal these vessels at sea by purchasing two of the largest colliers in that ocean to tow the warships, in order that the latter might save their own coal and yet be constantly ready for action in case an enemy was encountered.

With the certainty that the United States will hereafter maintain a large fleet in Asiatic waters, and with the necessity of keeping large amounts of fuel at Honolulu, Samoa and Guam, as well as in the Philippines, at least six of the first-class steam colliers must be maintained in the Pacific ocean.

A Tribute to La Fayette. CHICAGO, Aug. 17.—According to present plans, Lafayette, the French hero, who came across the sea in colonial days with sword and money to aid the birth of liberty on American shores, is to have his grave marked with a \$250,000 monument; a tribute from the patriotic school children of America.

President McKinley has concurred in the plans proposed by Ferdinand W. Peck, commissioner-general to the Paris exposition, for the unveiling of this beautiful memorial at the Paris exposition July 4, 1900. It is to be the feature of the "United States day" at the exposition. At the commissioner-general's office it is announced that President McKinley will soon issue a proclamation designating a date, presumable October 19, as "Lafayette day," for general observance in every school district throughout the United States.
