

FIGHT AT MANILA.

American Killed While Putting Up the Stars and Stripes.

Colorado Troops Fought Bravely and Drove the Spaniards Through the Streets.

New York, Aug. 19.—The World's Manila correspondent gives a graphic description of the fight of the 13th. Among other things it says "When orders to advance were given the Colorado troops formed in one column, with their flag hung to the breeze and dashed into the Rio Cingalon, wading waist deep. The Californians followed. The enemy's muskets began to crack in the bush in front of the left. The Colorado men ran up to the fort and took possession. Private Phoenix, climbed to the ramparts and pulled down the Spanish flag and as he was raising the American standard he was shot dead. Thereupon Sergeant Richard G. Holmes, seized the flag and ran it up on a pole. The Colorados, Californians and Eighteenth Infantry drove the Spaniards through the streets of Malate. The enemy threw away their guns and ammunition in their flight."

General Appearance of Prisoners Is Pitiable.

SANTIAGO, Aug. 19.—Thursday morning General Wood, the military governor, increased the local police force with additions from the various regiments. There has been some trouble made by soldiers who have disobeyed orders, and there have been several riots, at least one murder, and a good deal of drunkenness. Yesterday morning the Eighth Illinois volunteers entered upon patrol duty. The First infantry left by the Miller. There are seven Spanish transports in the harbor awaiting the embarkation of Spanish troops, 2,000 of whom have left. The general appearance of the men is pitiable. There has been much sickness among them, and within the last two days over 200 bodies have been buried. Deaths in the city average above 90 per day. Heavy rains increase the fever among the soldiers and inhabitants alike.

Tried to Lower Record. JOLETT, Ill., Aug. 19.—Star Pointer made an effort at Ingalis Park yesterday to lower the world's record and his own. A fast track favored, but a cool breeze on the track was a handicap, and made the time 1:59, a truly marvelous performance. Prompted by a runner, McClary warmed the great horse, and after stepping an eighth in 15 seconds, came back and scored, nodding for the word the first time. Fifteen seconds were registered as the eighth pole was reached. The quarter was passed in 30 seconds. The pair raced like a team and reached the half in 1:04, still the great horse kept his tremendous burst of speed. At the three-quarters, the watches clicked 1:29, and the great bay came under the wire in 1:59, the most remarkable time ever made by any horse conditions considered. Summaries: 2:16 pace—Kittie R. won third, fourth and fifth heats; best time, 2:10. 2:40 pace—Leroy won first, second and third heats; best time, 2:13. 2:24 trot—J. B. D. won first, second and third heats; best time 2:12. 2:14 pace—Annie Lee won first, second and third heats; best time, 2:04.

General Merritt in Manila After the Capitulation.

LONDON, Aug. 19.—The Hong Kong correspondent of the Daily Mail says: "The terms of the capitulation of Manila, as agreed upon Saturday between General Jaudenez and General Merritt, includes the cessation of the Philippine archipelago to the United States. "An American naval officer who arrived from Manila on the Zafiro tells me that the Americans practically walked into Manila. The operations, he says, were confined to the Malate side of the city, where the Spaniards had a fort and two lines of trenches. The troops waded through the Malate river and walked up to the beach as though going to lunch, meeting practically no opposition. "I learn when General Merritt went ashore after the capitulation of Manila, he experienced some difficulty in finding General Jaudenez, who ultimately was found in a church among crowds of women and children.

CLOUDBURST. Five Children Washed Away With the Debris. PITTSBURG, Aug. 19.—A cloudburst on the saw mill run here caused a tidal wave. Five children are missing. It is supposed they have been drowned. At 9 o'clock a great volume of water came down. The missing children with other persons were standing upon the porch of a tenement house. The porch overhung a small run and the wave which was 20 feet high came down on the porch and carried it away. The adults of the family managed to scramble out, but the children has disappeared in the floating debris.

The Bond Issue. NEW YORK, Aug. 19.—Assistant Secretary of Treasury Vanderlip, who has been hearing some suggestions from different sections, on the possibility of limiting the issue of bonds to an amount below \$200,000,000, the full issue authorized, the idea of the suggestors being that the termination of the war removes the necessity for more money than will be provided by the customs and enlarged internal revenue receipts, smiled when he was asked about the probability of the adoption of the suggestion, says the Washington correspondent of the Times. "It is a very pretty suggestion," Mr. Vanderlip said, "but I do not believe it will be adopted. The treasury has already accepted the loan, and agreed to furnish the bonds provided for the subscribers. A part of the bonds have been sent out, and others will follow. It is true that there will be less pressing need for money, as the closing of the war will remove the necessity, but some large expenses have already been incurred which must be met, and some will continue for a while after hostilities are stopped. "The reports of the treasury putting the expenditures of the war at about \$150,000,000 are not considered as covering all expenses, but simply those items in the treasury statements that are charged up directly to the war and navy departments. These cover the greatest expenses included in the other classifications of the statements, and they will substantially increase the aggregate of expenditures in excess of what they would have in a condition of peace."

AMERICAN INTERESTS.

The Construction of Our New Navy Causing Comment. LONDON, Aug. 20.—The morning papers comment upon the proposed immense increase in the American navy. The Standard, says: "such a fleet, operating from Manila as a base, would be able to exercise considerable influence upon the progress of events in Chinese waters, and, and, added to the English-China squadron and the Japanese navy, would make a mighty army ment indeed." The Daily Mail says: "The new program is startling in its immensity. The American navy jumps to fourth, place among the world's fleets. It will not long remain fourth, nor will it be long before the United States will have a policy in China."

How Persians View Us. PARIS, Aug. 19.—The American position in the far East is attracting great attention. Soelleys: "The Americans will quadruple the value of the Philippines, and Manila will become the rival of Hong Kong. The United States will have a preponderating situation in Chinese waters. There is no market they desire more eagerly than the Chinese, and though they have been forestalled by other power they will assuredly overtake their rivals by the rapidity of their progress in that region, and in the coming breaking up of the Chinese empire the United States will not be content with the worst fortunes for their heritage."

The Temps, while congratulating France upon the role of peace-maker, recognizes the fact that it is not always a good thing to put a finger between the hammer and the anvil. The Temps says: "The United States will not hear a word of intervention, and France has no interests in compromising herself gratuitously with a country evidently destined for a more active part in great international affairs. It would be artless to count over much on Spanish gratitude. Therefore, the French watchword should be 'Messieurs point de zele.'"

Rebellion Extending. LONDON, Aug. 19.—The Singapore correspondent of the Daily News says: "The native rebellion in the Philippines has extended to the hemp provinces in South Luzon. Heavy firing has occurred at Pagitan, Pilar and Ponsol, the immediate cause being the outrages committed by the Spanish at Pagitan. "The Spanish also burned Pilar and massacred 600 natives. The insurgents are concentrating at Albay, with the object of cutting off the retreat of numerous Spaniards in the Camarinas province. "A German cruiser has been carrying dispatches from the captain general of the Vizcaya islands to the district between Cebu and Hilgan, and military depot Mindanao. The steamer Rosario, flying the German flag, has been transporting troops thence to Iloilo. After the island of Masbate had been taken by the insurgents the latter refused to allow the German steamer Clara to enter any ports under their control.

Blanco's Better. HAYANA, Aug. 19.—There arrived here from Key West, correspondents of the New York Evening Journal and Advertiser, Chicago Record and another newspaper correspondent, none of whom were permitted by General Blanco to land, the governor-general believing that their presence here, before the arrival of the American peace commission might cause difficulty. The correspondents returned last night to Key West.

SUICIDE.

Nellie Cody Ends Her Life by Jumping Overboard. PORTLAND, Aug. 19.—Miss Nellie Cody, committed suicide here last night, by jumping from the steamer Altona into the Willamette river at 9:45 p. m. near Oregon City. The refusal of her sweetheart, Mr. Surface to marry her is said to be the cause. The body was not recovered. Surface and Miss Cody were among a party of 40 excursionists, who left on the steamer Altona, for Oregon City to pass the night. On the way up the woman was heard to say to Surface: "If you will not agree to marry me, I'll make no more trips on this river." No attention was paid to the words. At Clackamas rapids she rose suddenly and leaped into the river. The boat was stopped at once, but she had sunk beneath the surface, and no trace of her could be found. An effort was made to find the body, but proved unsuccessful. The boat was then headed for Portland, arriving here about midnight. After the drowning Surface acted like an insane man. It required the combined efforts of the captain and engineer of the Altona to keep him from committing suicide. At the Madison-street bridge he attempted to jump overboard, but was secured, and when a landing was effected he was turned over to the police. He is now in the city jail. Surface and Miss Cody had been keeping company for several years. He was formerly a fireman on the Altona.

First Warship to Havana. NEW YORK, Aug. 19.—A Herald special from Washington says: "The cruiser New York will be the first American warship to enter the harbor of Havana since war was declared. She will carry the commission to arrange for the evacuation of Cuba.
