Business, Shorthand, English, Penmanship and Typewriting.

This school has a record for thoroughness and progressiveness. Individual instruction. Pleasant study rooms. Experienced teachers. Modern methods and appliances. Tuition and board reasonable. The principal will be found at the college office each day to answer inquiries. Send or call for catalogue.

RIOTING.

Soldier Killed by Philipinos.

Natives Fired Upon by American Guards.

INSURGENTS NOT IN IT

And Aguinaldo Denies All Connection.

NEW YORK, Aug. 26.—A copyright special from Manila to the Journal:

There has been a very serious clash at Cavite, between the United States soldiers and natives, which resulted in the killing of one soldier and the serious wounding of another.

George Hudson, of the Utah battery, got into a dispute with a native shopkeeper and fired a revolver in the air to attract the attention of his fellow soldiers. A crowd of natives ran to the scene and began firing, killing Hudson and seriously wounding Corporal Anderson of the same battery.

A detachment of the fourth cavalry was called out to disperse the Philipinos, who continued to fire their revolvers at their retreat. Troopers Laydon, Machbar, Connolly and Doyle, fourth cavalry, wounded. Four natives killed and several wounded. The same night as the soldiers were doing guard duty they saw a party of natives slipping the wreck of a gunboat which was lying in Cavite bay. A boat put off from shore.

The soldiers fired a volley, killing one and wounding another. Aguinaldo denied all connection of his army with the affair. Dewey has transferred his flag to the Baltimore, the Olympia sailing for Hong Kong to be docked. The Raleigh left for the same port Wednesday night.

SHAFTER INTERVIEWED.

He Praises American Volunteers and Justifies His Own Course.

NEW YORK, Aug. 26.—A Herald dispatch from Santiago says: Prior to embarking General Shafter consented to be interviewed. He said in part: "I look upon the campaign as successful in the highest degree. The primary object, was to drive Cervera out and to take Santiago.

"We gradually drove the Spaniards back on their lines, our troops encircling the city and advancing day by day. The enemy began losing spirit as soon as our guns had been placed in position to cover the town.

"When Cervera left the situation was changed. The town was at my mercy and had I given the order for a direct assault it would have been taken within four hours. But if I had taken the step, what would have been the result? I estimate that our casualties would have been three thousand and the action I took had

more brilliant real results without a heavy loss.

"Personal reflections have been cast upon me because I was not on the fighting line. That was not a proper place for the general in command of the army. It must be remembered that I was connected by telephone with the officers at the front and was better able to direct the operations from the position taken.

"Save for two days, when ill, I was in direct command of the campaign, which I consider unique in American history, for it was really the first time the United States had fought with regular army. Our volunteers lacked the unity and individual support noticeable in trained troops but no disparagement should be made of our volunteers.

"What they lacked otherwise was made up for in enthusiasm and patriotic spirit and I desire to command no better army than one composed of class volunteers such as was in the Santiago campaign. The operations of regulars have proved superiority over some organizations of state militia.

"There has been some question concerning transportation facilities. The facilities were all there and adequate provided was all that it should have been, but our difficulties were enormous."

THE POISONING CASE.

Dark and Gloomy Days Casting Shadows Before.

DOVER, Del., Aug. 26.—Attorney General White last night sent to San Francisco requisition papers for Mrs. Botkin, who is under arrest there, charged with the poisoning of Mrs. Dunning and Mrs. Deane by means of candy sent through the mail.

The affidavit to secure the papers was sworn to by ex-Representative Pennington, the father of the two poisoned women, and the papers charge Mrs. Botkin with murder in the first degree. Before leaving here for Georgetown tonight, Attorney General White said:

"We have the murderer, and we have evidence that no defense can shatter. The only things we fear is Mrs. Botkin's self destruction."

Mr. White added that the writing on the paper of the candy package and that in the anonymous letters sent to Mrs. Dunning have been positively identified by Mr. Dunning as similar to the handwriting of Mrs. Botkin. It is stated here that detective Witzell and a woman police matron will go west to bring Mrs. Botkin here. The California witnesses will not be summoned until the trial is called, but their affidavits will be taken at San Francisco. The trial will probably be called in October.

Mrs. W. A. Botkin, who is accused of the murder of Mrs. J. P. Denning and Mrs. Deane, at Dover, Del., by sending them a box of poisoned candy now occupies comfortable quarters in the matron's ward at the city prison. Her husband, who is working hard in her behalf, is allowed to visit her.

Mrs. Botkin refuses to be interviewed, but constantly asserts her innocence. When questioned by Chief of Police Lees, she told in detail of her movement during the last few weeks, and said her regard for Dunning was purely platonic. She denied all knowledge of the box of candy, its wrapper or contents, stating positively that the only candy she had purchased during the last 18 months was a small box of lemon drops.

RUINED.

Spain's Army Nearly Destroyed.

No Enthusiasm at Returning Troops.

CONDITIONS OF TRADE.

Business Injured by Prohibitive Duties--War Expenses.

LONDON, Aug. 26.—The Madrid correspondent of the Standard says:

Nothing can better illustrate the country's weariness and disillusion than the small excitement caused by the return of the repatriated troops. Of the 225,000 men who have left Spain for Antilles since March, 1895, 50,000 have perished in Cuba, 75,000 have been sent home invalided, and the remainder are returning to be disbanded, after receiving a portion of their nine months' arrears of pay.

The clever stroke of policy on the part of the government will, it is believed, avert the dangers that otherwise might have existed of the discontented army being made the tools of military and political intriguers and Carlists.

There are 43 generals and 6000 other officers on the active list. For these it is proposed that the number of line regiments shall be increased. The government has liberally provided hospitals and other accommodations for the returning troops and private subscriptions are pouring in from various parts of Spain also for the assistance of the sick soldiers.

Philippine Duties.

LONDON, Aug. 26.—The Hong Kong correspondent of the Daily Mail says:

The retention of the prohibitive Spanish duties at Manila, by the American authorities is causing concern among merchants here, who asked United States Consul General Wildman to use his influence with General Merritt to secure a modification of them. American kerosene oil sells here for \$1.90 a case, while at Manila the duty alone is \$2.05. Flour pays 70 cents a sack.

The object of the Spaniards in imposing a prohibitive duty was to shut out foreign imports. If they are retained, they will prevent the importation of American goods into Manila. Merchants here in shipping goods to Manila, did so in the belief that the Manila tariff would be in accordance with the United States custom laws.

Spain's Expenses.

MADRID, Aug. 25.—The Gazette gives the Cuban war expenses from January 1, to June 3, as 447,369,450 pesetas.

The queen regent presided at today's cabinet council. The home situation was discussed, and Senor Sagasta, the premier, gave details of the capitulations of Havana and Santiago, and explained the manner in which the Antilles will be evacuated. The cabinet council also discussed the situation of the army at Manila, and sanctioned the dispatch of funds to Admiral Cervera and Manila for the immediate needs of the Spanish prisoners.

The landing of troops at Corunna continues. The men present a piteous spectacle. Eight died today. A special commission will decide upon the question of quarantine. The military authorities have begun the distribution of arrears of pay to the repatriated troops.

Crushed. ABERDEEN, Aug. 25.—John Marshall, an employe at Coats logging camp, was fatally injured yesterday by being crushed between two logs. He was badly bruised and injured internally. There is no hope of his recovery.

COMMISSIONERS.

Announcement of Four Peace Makers.

WASHINGTON, Aug. 26.—All members of the cabinet except Alger, and Long were at the regular meeting today. After the cabinet meeting it was announced that Whitlaw Reid, has been selected as one of the peace commissioners. Commission as far as it has been made up is as follows: Secretary Day, Senator Davis, Senator Frye and Whitlaw Reid. The fifth member has not been finally selected, but Justice White, of the supreme court has the tender of a place on consideration and may accept.

The Pythians.

INDIANAPOLIS, Aug. 26.—The Rathbone Sisters today adopted an insurance feature, similar to the endowment rank of the Knights of Pythias and also voted to affiliate with the national council of women and elected Mrs. Ida M. Weaver, of Boise City, Idaho, a delegate to the meeting at Omaha, in October. The investigating committee of the Knights of Pythias to find out who made the charges against the supreme officers, have made but little headway.

United Typothetae.

MILWAUKEE, Aug. 26.—The United Typothetae in session here passed a resolution that a Union does not deem it practicable at the present time to recommend any change in the number of hours work. A committee of five were appointed to confer with other unions and employes with a view to deciding how the reform in the numbers of hours which should constitute a day's work may be brought about.

Shipping Spaniards.

Corpses Counted as Live Soldiers by Company.

Shafter Sails For Home--Bank of Exchange Established.

SANTIAGO, Aug. 26.—The transports San Francisco, San Augustine and Colon left here this afternoon with 4,298 Spanish soldiers. Eight men died on the way to the ships. The corpses were "checked off" as passengers. There appears to be many instances of this kind during the embarkation of the Spaniards, the transportation companies thus being able to collect the passage money.

General Shafter and staff sailed this afternoon on the Mexico. On arriving at Montauk Point, Shafter will go to Washington to meet McKinley and Alger, afterwards proceeding to San Francisco.

A bank of exchange has been established here. The Berkshire with 350 convalescents for Siboney, sailed for Montauk Point today followed by the Berlin with General Bates and his staff and the First Illinois infantry.

Will Be Informal.

CAMP MEADE, PENN., Aug. 26.—Gen. Graham, has been notified that the president's visit will be purely informal and McKinley does not desire a grand review as was proposed.

Sued for Breach of Contract.

SAN FRANCISCO, Aug. 26.—C. S. Olsen, on behalf of himself and 13 other prospective voyagers to the Klondike, has sued the Yukon & Northwestern Dredging & Transportation Co. for \$7500 for alleged breach of contract. The complainant alleges that the company agreed to carry the parties to Dawson City, and that it failed to do so, after having received the required fare, which it has so far refused to return.

Army Orders.

NEW YORK, Aug. 26.—General Alger resumed his work of investigating the affairs at Camp Wykoff. The transport D. H. Miller, arrived with 376 men first infantry. Alger has given notice that the sick regulars and volunteers of the regiments will be allowed to go home on furlough and in a few days thousands will leave for home.

CASTORIA. The Kind You Have Always Bought Bears the Signature of J. C. Watson. Watson has no share with Dr. Miller's Pain Pills.

UPRISING

Insurrection Reported in Hainan.

American Missionaries Compelled to Flee.

FRANCE MAY INTERFERE.

French Using Vigorous Measures to Protect Their Subjects.

NEW YORK, Aug. 26.—A special to the Herald from Hong Kong says:

A serious insurrection has broken out at Nadoa, in the interior of the Hainan island. The American missionaries and native converts have sought refuge in safe territory.

On August 14th the rebels fought the soldiers, who used the American Presbyterian property as defenses and repulsed the attack.

Nadoa is ninety miles from Holsow, one of the richest valleys in the island. Unless the revolt is speedily suppressed the insurgents will be probably reinforced by refugees from Kwangsi, where the officials are coping with the recent rebellion.

Should it not be suppressed there is an opportunity for French interference. The French are using vigorous measures to protect the native Christians near Kwang Chow Wan, and are extending their influences in Southern China, which at present is very much disturbed.

Carlism Uprising.

NEW YORK, Aug. 26.—A dispatch to the Herald from Gibraltar says:

In Barcelona the labor question seems to be approaching an acute stage. It is estimated that something like 5,000 working men are penniless and on the verge of starvation. Articles of primary necessity have reached extravagant prices, and, to cap it all, the heat is terrific and causes outbreaks of disease among the semi-starving. This is all the more serious inasmuch as Barcelona is a regular hotbed of Republicanism.

The Publicidad, a paper of the ferociously Republican type, has twice incurred the displeasure of Captain-General Des Pujols, and has on each occasion been fined. This really

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

means a political conflict, and its effect will bubble over the surface again at the first opportunity.

Then again there is a society formed in Barcelona with the avowed object of seeking annexation to France, and being so near the frontier and approachable in various districts the situation is very favorable to the incipient revolutionary operations instigated by Carlism or others.

Reinforcements for Para.

NEW YORK, Aug. 26.—A dispatch to the Herald from Lima, Peru, says: The government has withdrawn the unpopular project as an emission of notes to bearer.

Another regiment of infantry and a division of artillery have gone to join Para's division in the north. The general opinion is that as soon as Para arrives at Pura all will be settled.

Vice-President Billingshurst has left Iquique on his way to Lima. He will announce his candidacy for the presidency as soon as he reaches the capital.

Legal-Tender Notes Scarce.

NEW YORK, Aug. 26.—The Tribune says:

As a result of the scarcity of legal-tender notes among the New York banks, the withdrawals of gold yesterday from clearing-house vaults were continued on an extensive scale.

A. Nash, president of the Corn Exchange bank and a member of the clearing-house committee, and William J. Gilpin, the assistant manager, supervised the operation of counting out the bags of gold and exchanging them for the certificates presented.

The payments into treasury on account of the new war bonds have been the chief reason for the demand for gold. Since these began \$23,000,000 of yellow coin has been withdrawn from the clearing-house.

Mine Afire.

DANVILLE, Aug. 26.—A. H. Bennet's coal mine took fire today while eighteen men were in the mine. Many were badly burned, and some will die. A number of mules and horses were also burned. The mine is practically ruined.
