IMPERIAL INFLUENCE.

Imperialistic logic is unanswerable, in the opinion of the imperialists. We must get our share of Asiatic trade. Therefore we must have a coaling station for our navy on the western shores of the Pacific. At the Philippines is the only place where we can get a coaling station. We have possession of the bay of Manila. Having the bay, we must of course have the city. Having the bay and city of Manila, we must have the entire island of Luzon. Having Luzon, the principal island, we must not allow Spain or any other power to control the balance of the group; therefore we must annex the whole 1400 islands. Why we should be so extremely moderate and stop with taking only the Philippines does not appear. Having such a good foothold at the doors of Asia, we should allow our ideas to expand commensurately with our opportunities. As we want the trade of Asia, it would come in mighty handy to own a slice of the disintegrating Chinese empire. Then there are a lot of other islands scattered promiscuously around over the Pacific. Why set an artificial limit to our expansion?

HOME FROM SPOKANE.

Oregon Editorial Association Reviews Favorable Impressions.

Sunday morning the Oregon Editorial Association returned to Portland from their three days' stay at Spokane in joint session with the Washington Editorial Association.

The Oregon editors were simply overwhelmed with the liberal hospitality of Spokane as manifested through the demonstrations and entertainment programs of the Spokane Press club. It will take them days to fully recover and years will not obliterate the kindly feelings generated toward that city and its people. It may not be new but it is correct to say that Spokane is more of an exhilarating mental condition than of a mere point in the geography of the northwest. The ozone in the elevated atmosphere of Eastern Washington, the vim, ginger and go-ahead character of the people impresses the visitor as the predominant quality of the men and women of that town. It is a bright and prosperous community.

The writer met many former Oregonians and Salem people. Among them were Col. Durham, managing editor of the Spokesman Review; Geo. Saubert, who is night foreman on that paper; Craven & Hellenbrand, tobaccoists; Wm. H. Smith, plasterer. "On the tapis" there is the annual fruit fair, which draws to Spokane exhibits and attendance by thousands from all over the state. The business men of that city put up \$16,000 to make it "go" this year. A board of 7 directors and a manager, absolute separation from politics, and no state appropriation insure its success in a way that makes people from slower communities open their eyes. Columns will be written in every Oregon paper represented at the Spokane press convention and we hope in a future issue to do fuller justice to the peerless enterprise of that city.

FIVE PEOPLE KILLED.

Members of a Pleasure Party Run Into 'by a Train.

WARE, Mass., Aug. 29.—A railroad train on the Boston & Maine railroad struck a buckboard at Whiting's crossing, Saturday night, and killed five members of a pleasure party.

The first intimation of the disaster was brought by the train, which had the victims on board. The bodies of the dead were left in the baggage car and the wounded taken to the town hall, where the surgeons worked over them.

The pleasure party was made up of the Whiting family and some of their immediate friends of Bondville, and they were going to Forest Lake in a covered wagon, drawn by four horses. On one side of the crossing there is quite a steep hill running down to the tracks. As the wagon came over the crest of the hill and started down toward the railroad track, the flagboy at the foot of the hill was seen to come out of his station to flag an approaching train.

The momentum of the vehicle on the steep grade was so great that it went by the flagboy and out on the track just as the Northampton & Ware accommodation train came along. The engine struck the wagon in about the middle, tossing the occupants on all sides, killing the horses and demolishing the vehicle.

The unknown boy who was killed was the sub-crossing tender, the regular flagman having put him on to flag the train.

G. B. Whiting, Jr., the most seriously hurt of the injured, is not expected to survive the night. Mrs. Houghton had both legs broken and is internally hurt. Others seriously hurt are: Harold Rich, aged 14; John Scott, aged 6; and Mildred Scott, aged 4.

SITUATION IN RUSSIA.

Possibilities of an American-British-Japanese Alliance.

BERLIN, Aug. 29.—Much interest is displayed in the outcome of the far Eastern contest. The opinion of the renowned Austrian Orientalist, Mr. Vanbery, in a Vienna magazine, meets with some support. He believes that all the advantages Russia has gained in China can only benefit in the remote future, when Russian industry and commerce become able to compete with Great Britain.

"Such despotically governed people," he says, "cannot develop rapidly, while on the other hand the Chinese are awakening, and their Anglo-American schooling is creating a desire for development. Should England join her interests to those of America and Japan she would gain her ends, despite Port Arthur, Russian railways and Russian banks."

COL. OLMSTED HOME.

Tells of His Visit in Michigan—New Ideas and Improvements.

Col. J. Olmsted and Mrs. Olmsted are home from a prolonged stay in Michigan, where they went last April. The proprietor of the Salem Steam Laundry was financially interested in his own line of business, and while there made final disposition of an establishment at Muir, Mich., and also investigated the most progressive laundries in the leading cities of Michigan and at Chicago. He has secured many new ideas to improve his business. Within sixty days he will make some decided improvements in his large establishment here.

He says business conditions have been slowly improving for the past eighteen months, but real estate has not advanced any.

The cities are growing but farmers are not very prosperous.

He Came Home.

A gentleman from the east has returned to the city. He could not live without Brunson's & Co's. high grade groceries and so grew homesick.

EDUCATING THE ISLANDERS.

One of the Problems to Be Solved by the United States.

NEW YORK, Aug. 28.—A special to the Tribune from Washington says: New questions are constantly arising in respect to the government of Cuba and Porto Rico, some of which are not only of great importance, but demand prompt attention. Among these are matters relating to public education, which under the Spanish regime were dealt with in a manner entirely different from that which prevails in the United States. This subject is one to which the president is devoting much attention, and in regard to which his action is awaited with interest.

In the Spanish West Indies the colored people, who form a large portion of the total population, have never enjoyed the privileges of common or free schools, and the same thing is true in a large degree of the whole white population. In fact, the educational field in either island is, comparatively speaking, a virgin one, and by whom it shall be cultivated is a question of practical moment.

It is not improbable that the agencies of private and associated benevolences which were so powerful and useful among the freedmen of the South in the later years of the civil war and long afterward, will be found active in Cuba and Porto Rico. There, as was the case in the southern states, however, the co-operation of the government will be necessary.

GERMAN PRESS COMMENT.

America May Yet Have to Take European Advice.

BERLIN, Aug. 29.—The German press continues to discuss the peace conditions from various viewpoints, a majority of the papers according to the United States high praise for the moderation it has displayed. Most of them seem to expect that difficulties will arise over the ultimate disposal and condition of the Philippines, but as a rule the arguments are repetitious and threadbare. The Kolnische Zeitung's editorial may be worth quoting, as there is the best reason for believing that it was inspired. It says:

"Before a definite peace is concluded, considerable time must elapse. Meanwhile, the internal situation in the Philippines and the far east generally may have changed materially. It is not likely that Spain and the United States will agree to a definite settlement of the Philippines question without taking the advice of the powers, particularly Russia and France."

The foreign office maintains absolute reticence as to the present attitude of the government on the subject.

A high official at the foreign office assured the Associated Press today that the United States government had not asked for Germany's opinion or wishes regarding the Philippines. The official added that he did not believe America would ask any power to participate in the Philippines settlement.

ANARCHY REIGNS SUPREME.

Towns Sacked and Burned By Guerrillas.

NEW YORK, Aug. 29.—A dispatch from Ponce to the Herald says: General Stone, who has just returned from the vicinity of Arecibo, reports that a state of anarchy exists in the country districts. The withdrawal of the Spanish troops has given the guerrillas free play.

A force of irregulars sacked and burned a plantation near Adjuntas. General Stone says that the people are terrorized and are praying for American protection. The Spanish formerly covered the country with a mounted police. Our forces have not yet been put in charge. The natives and the Spanish are busy cutting each other's throats. General Stone made a full report to General Miles last night.

Captain Waters and Lieutenant Fulmer, of battery C, of Phoenixville, Pa., have resigned from the United States service. Lieutenant Fulmer and Lieutenant Bean, who is in the same battery, were tried before an efficiency board, whose verdict has not yet been made known.

An incendiary fire occurred a few nights ago at El Coto del Laurel, a hamlet near Ponce. The people, most of whom are Spanish, objected to the attempts of the men of the Ninth infantry to extinguish it, and in a fight Lieutenant Lawson, who was in command, stunned one of the attacking party with a blow of his revolver. Order was restored only when 29 prisoners had been taken.

DIED IN THE STREETS.

The Niece of the Queen Regent of Spain.

WASHINGTON, Aug. 27.—Wanda von Speno Bodenback, claiming to be the niece of queen regent of Spain, daughter of the baroness and count of Strienburg, Austria, held to the throne and sole heir to a fortune of 20,000,000 francs, is dead in New York.

Baron P de Lange, of Austria, is authority for this statement. He visited the thirty-seventh street police station and exhibited a certificate signed by Dr. McGregor to the effect that Wanda von Speno Bodenback had died of heart disease Saturday morning. The baron explained to the police that two days ago he accidentally met Wanda von Speno starting in the streets of New York.

The story he told was to the effect that the parents of the girl, who was 18 years of age, betrothed her from infancy to an old man. She ran away with a handsome young man, a member of one of the highest social families of Russia. In this country her lover deserted her. Not understanding English and unable to make a living, she slowly starved to death.

The baron de Lange says the girl died of a broken heart. She had been so weakened by her terrible experience that she could not stand the ordeal of meeting her old friend.

STILL AT IT.

Spaniards and Natives Still Harassing Each Other.

LONDON, Aug. 29.—The Madrid correspondent of the Sunday Times says: The government has received a cipher dispatch from Manila giving full details of the capitulation and condition of the islands. The contents of the dispatch have not been made public. General Rios, governor of the Vizcayas islands, reports fighting between the rebels and Spanish troops at Cebu and Iloilo. A flotilla has been ordered to protect these islands from invasion by the rebels sent from Luzon by Aguinaldo. General Rios has armed several battalions of militia.

Telegrams from Cuba report continuous fighting in the province of Puerto Principe and Santa Clara between the Spanish and rebels.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
