OUTRAGES IN CHINA.

United States Consul at Shanghai Investigates.

VANCOUVER, B. C., Sept. 2.—The steamer Empress of China brings the following Oriental advices:

The United States consul at Shanghai is inquiring into the most recent foreign anti-outrage. Messrs. Chapin and Alexander, at the international alliance mission, while on their way up the Yuen river with their house-boat, were stoned at Kongkiang, Huas. The boat was smashed and then buried by the mob. The two travelers barely escaped with their lives on a Chinese gunboat. The officials did nothing to protect them.

At Hong Kong they say there is grave reason to fear that the steam launch Wingatoo, which flies the American flag and which left July 2 for Cayite, has foundered.

The Korean government has established a land survey office, with a view to surveying the land in the empire and examining the position of the roads, bridges and fortifications. A contract has been signed between the United States minister and the Korean government to engage an American engineer for carrying out the work.

It is stated that the Korean government will grant to Japan a railway charter between Seoul and Fusan, if the Japanese government will surrender a number of Korean refugees in Japan.

The annexation fever has spread to Japan, which recently raised the flag of the "rising sun" over a small island south of Japan. The island is said to have been discovered by an American captain and marked on the chart as Marcus Island. A small colony has been sent to cultivate the island.

The indemnity paid by the Hawaiian government has been received, and its disposal will be shortly decided on. After claims for compensation by the emigration companies have been paid, the balance will be appropriated to defray the expenses incurred by the government in the matter.
