Friedman Is Delighted!

That a senator has been elected and it was all brought about by Friedman withdrawing of his name from the senatorial contest. His reason was that should he be elected senator he couldn't sell his mackintoshes, rubber boots and shoes, his clothing, hats, dry goods, ladies' and gents' furnishing goods. As it is you can purchase all the above lines of goods from Friedman, where you will save from 25 to 40 more percent, than if purchased elsewhere. Remember the place, corner State and Commercial.

There will be an exhibition in Friedman's window for 10 days a crochet bed spread and a pair of pillow shams made of No. 80, Barbour's Linen thread.

PLOT PLANNED

Against the Government of France.

A Rebellion Began in the Philippines.

Position of the Peace Commission on Cuba.

(By Associated Press to The Journal.) PARIS, Oct. 14.—It was announced this morning that a military plot against the government had been discovered. The plotters were to have taken action Saturday, during the absence of the minister of war. Further it appears that when the government was warned of the plot the ministers were not surprised, having already obtained information regarding the conspiracy. The Matin says the plot was not in favor of the pretenders to the throne of France, but for the purpose of changing certain officials without touching the president.

PARIS, Oct. 14.—Government officials refuse to furnish information regarding discovery of the plot, but it is rumored that the conspiracy involved Louis Bonaparte, colonel of the Russian lancers, in whose favor Prince Victor Bonaparte recently resigned the leadership of the imperialist party.

LONDON, Oct. 14.—The situation in Paris is regarded in well informed quarters here as more serious than at any time since the commune. The St. James Gazette says:

"A military revolution, however peaceful, which replaces the Brisson cabinet with the nominees, of the generals would imperil relations between England and France almost to the breaking point. The semi-official papers are still pretending that the negotiations are proceeding between two governments and France believes it, although everybody in England knows the statement is ridiculous. Even with such posing as that Major Marchand has unconditionally withdrawn from Fashoda, the difficulties with France will in no way end."

MANILA, Oct. 14.—A rumor says Macabulos, chief of the northern

provinces of the Philippines, has rebelled against General Aguinaldo and fighting has taken place.

PARIS, Oct. 14.—Commander Bradford, of the United States navy, was examined this morning by the United States peace commission, relative to the condition of the Philippines. The fifth joint session of the commissions convened today. Last Tuesday was marked by a Spanish presentation regarding the Cuban debt, which has brought the Americans to the serious preparation of an adjustment of their diplomatic forces and the formulation of a plan upon which they may stand in relation to the Cuban phase of their mission here.

CRIMINAL NEWS.

Former Chief of Police of Muskegon, Mich., Hanged.
(By Associated Press to The Journal.) SAN QUENTIN, Oct. 14.—Murderer John Miller was hanged here today.

PARIS, Oct. 14.—The Railroad Worker union has posted placards ordering a strike, urging the strikers to refrain from violence. This strike includes the Algerian provinces.

VIRGEN, Oct. 14.—Col. Young with a force of cavalry arrived here today and assumed military command of the town. Everything is quiet here today. All trains are stopped and searched for negroes.

PANA, Ill., Oct. 14.—A telegram from Virgen says that the probability is the operator Lukens would attempt to land the imported Negroes who were shut out at Virgen. The governor has ordered Captain Harris to place guards at the coal mines and approaches of all railroads into Pana and not to permit any imported Negroes to stop in Pana.

CHICAGO, Oct. 14.—George H. Jacks, formerly chief of police of Muskegon, Mich., and John Druggan, convicted murderers were hanged on the same scaffold, this afternoon. Jacks was convicted of the murder of Andrew McGhee, for the purpose of robbery. Druggan was hanged for the murder of Robert Gudgeon, whom he attempted to rob.

VIRGEN, Oct. 14.—This afternoon a rumor became general that the negro miners would be brought back. Captain Craig and his men immediately surrounded the railroad station and the vicinity was cleared of citizens.

MINER'S SUICIDE.

Hung Himself at Macksburg Adams County.

(By Associated Press to The Journal.) OREGON CITY, Oct. 14.—George Hillyard, a pioneer miner and prospector suicided this morning, by hanging himself at Macksburg. He was 69 years old and unmarried and a native of Illinois.

PILOT BILL

Suffers Defeat in the House.

Senate Keeps up its Economy Clip.

Curtis and Young Fight Against Optional Pilotage.

The experts and joint committees on investigating the work of the state printing office filed their reports this morning, showing that the work has been done for about \$15,000 less than for the last biennial period than for the preceding term.

In the senate the general appropriation bill was read the first and second times by title, and referred to committee of the whole. Senator Mitchell, was called to the chair, and upon motion of Selling the bill was taken up by items.

Governor Lord has vetoed no bills thus far.

IN THE SENATE.

Senator Brownell introduced Senate Joint Resolution No. 9, authorizing the secretary of state to have printed 500 extra copies of his report containing sketches of past governors and other historical matter, passed.

Joint rule No. 9, was amendment so as to permit the appropriation bill to pass from one house to the other during the last two days of a session. The committee on revision of laws reported in favor of confirming all nominations of Gov. Lord (except that of John P. Robertson as a member of the Soldiers' Home board) during the past four years. Adopted.

House J. R. No. 10, providing for ceasing the hall of representatives and constructing committee rooms over them, was called for by Senator Fulton, but the senate refused to take it from the table.

House Bill 58, to authorize executors to redeem real estate from sale under decree or judgment, Passed.

TRIMMING APPROPRIATIONS.

Chairman Mitchell with great courtesy gave ample time for consideration of each item. The first objection came from Fulton against the item for clerical aid in the state superintendent's office, but was withdrawn after explanation.

Pres. Simon objected to the further publication of supreme court reports, and offered an amendment to change the number from 500 to 150 copies, and that \$937.78 be reduced to \$1800. Fulton stated that he favored reducing the number in the future but urged that this work had been done under order of law it should be paid for. Mr. Simon withdrew his amendment, and submitted a substitute to limit the number of reports to 150 copies in the future, which was adopted. Mr. Fulton moved to strike out the item of \$200 attorney fees for F. V. Drake, carried.

The item of \$1080 for stained glass windows in capitol was objected to by Fulton and his amendment was adopted. Mr. Fulton moved to strike out the item for electric lighting of the capitol, but after securing a little more light on the subject he withdrew his motion.

Daly of Lake made the pertinent point that many of the appropriations should be itemized more closely, for the information of the senate. Chairman Taylor of the ways and means committee moved that the

item of \$7750 for pay and expenses of the board of equalization be reduced to \$4450.

At this juncture the committee of the whole arose to report progress to the senate which then adjourned.

HOUSE—FRIDAY A. M.

Senate bill No. 12, introduced by Donald Mackey, took up most of the forenoon, and was the subject of a warm discussion. This was the pilotage bill, relieving certain vessels of the necessity of taking a pilot on the Columbia bar or river, and adding to the tugboat charges in some instances. Young would favor this bill if it had an honest purpose on its face to benefit the farmer of the state; but it was solely in the interest of the transportation company. There are three pilots on the Columbia river bar, and they get small pay in proportion to their work. The author of this bill was vitally interested in the towing companies working on the Columbia river.

He read a testimonial with two pages of signatures of captains of American and British ships, testifying to the excellence of the system of pilotage on the Columbia, and recommending that it be kept at its present status.

He believed that when you take away compulsory pilotage and substitute non-compulsory pilotage, you lay snags and rocks in the way of the navigation of the Columbia river.

Hawson stated that it was agreed last night that certain amendments would be embodied in the bill, but the reading showed that they had not been embodied.

Curtis stated that he had not been enabled to see this bill, that he was a member of the committee on commerce, to which the bill had been twice referred; the bill had never been allowed to come before the committee on commerce; that there was something wrong in this bill, and that the effort to railroad the bill through the house showed that there was a nigger in the woodpile.

The claim had been made that this bill was in the interests of the farmers. It really increased the charges on the Columbia river by increasing the towage charges. It was in the interests of the towage monopoly. It was a bill effecting the entire state and he was opposed to the attempt to railroad the bill through.

Flagg asked if the bill did not actually increase the charges on vessels of less than one thousand tons by \$10. Ross parried the question by stating that vessels could carry more than their registered tonnage.

Reeder thought that it would increase the charges on the shipment of wheat, because it increased the tonnage charges on the sailing vessels in which all wheat is shipped, without relieving those vessels of pilotage charges. He thought that there appeared to be a cat in the woodpile somewhere, and he thought that it would be better to take time to chase the cat out and see what kind of a cat it was before passing the bill.

Beach stated that he had been informed that there was a sack here of \$10,000 for the defeat of this bill. Hawson replied feelingly to this. Roberts then said that the matter seemed to have resolved itself into a local fight, and he moved indefinite postponement, which was carried by a rising vote, 27 to 24.

RESOLUTIONS, ETC.

By Curtis—To pay Geo. T. Myers \$500 for alleged services in connection with the world's fair; adopted.

By Curtis—For a committee to revise the journals of the house; adopted.

By Whalley—For a committee to investigate the mute and blind schools; adopted.

S. J. Memorial No. 1—Asking congress to do something for the veterans of the early Indian wars; adopted.

The committees on the following subjects were allowed to continue their sessions and report at the regular session: Elections, insane asylum, railroads and transportation, penitentiary, and Lowenberg contract.

S. B. No. 58—Changing time of holding court in sixth district. Passed.

Further Investigation Into Conduct of the War.

(By Associated Press to The Journal.)

WASHINGTON, Oct. 14.—Dr. Louis L. Seaman, surgeon of the First Volunteer Engineers, was this forenoon a witness before the war investigation commission. He saw service in Porto Rico and had been quoted as making serious charges against the manner of conduct of the war.

ST. LOUIS, Oct. 14.—The presidential party reached the city this morning. The demonstrations at the station and along the route to the hotel were remarkable. At noon McKinley spoke to 15,000 people in the hall of the Merchants Exchange. Tonight there will be a general reception at the exposition building.

OMAHA, Oct. 14.—The National Livestock Exchange met and was called to order at South Omaha with a good attendance of delegates.

WASHINGTON, Oct. 14.—Surgeon General Wyman, of the marine hospital service, left today for a trip of inspection work in the south, in fighting the yellow fever. The reports for yesterday include 25 new cases at Franklin, La., and 46 in Mississippi, with 3 deaths.

Indian Question Will Be Settled.
MINNEAPOLIS, Oct. 14.—A Journal special from Walker says:

Confidence here is the question of peace or war will be settled at this afternoon's conference of Indian commissioner Jones with the hostiles. The greatest difficulty is with old Bog-Ah-Nah-Ga-Shig, the cause of all the trouble, who is still obdurate. He has sworn that no United States marshal shall ever take him into custody. As he is considered the ringleader, the authorities will not be satisfied with anything less than his surrender.

ELECTION FRAUD CASES.

Grand Jury Has Completed its Investigation and Indictments Prepared.

District Attorney Hayden had his work on the election fraud cases completed this forenoon and the indictments drawn up ready to sign. The grand jury had practically completed its investigation of the Marion county tally sheet ballot box frauds at noon, Friday.

All the witnesses had been examined and Justice Johnson and some of the parties who had hearings before him were allowed to make voluntary statements.

No questions were asked them and from the fact that some of the election judges were asked to bring along the tally sheets and election records in their possession when they return next week it is pretty certain indictments will be found.

At four o'clock no jury had been returned by the grand jury, but it is believed that a report will be formulated and sent to the court some time tonight.
