MAKING PEACE

Work of Commission Drags.

Plot Discovered to Assassinate Citizens.

American People Urged to Retain the Philippines.

By Associated Press to the Journal.

PARIS, Nov. 8.—The Spanish American peace commissioners notified minister of foreign affairs, Del Casse, that joint session, to have taken place today would not be held. Later a semi-official note was issued saying the commissioners had informed the French minister of foreign affairs that the conference was suspended.

PARIS, Nov. 8.—Inquiry develops the fact that the failure to hold the meeting of the commissioners was only due to the Americans asking for a postponement of the joint session until tomorrow to allow time for the translation of the Spanish reply to the United States to the latest propositions regarding the Philippines.

Villainous Plot.

LONDON, Nov. 8.—The Daily Chronicle this morning says:

"We have received information from a reliable source of a well organized plot in Paris, in the event of an inquiry before the court of cassation proving favorable to Dreyfus, to foment a riotous outbreak in the French capital, to attempt to overthrow the civil power, and to assassinate the leading champions of Dreyfus."

"These reports are confirmed by interviews had with M. Trarieux, former minister of justice, and M. de Pressensac, foreign editor of the Temps, as well as others."

In Favor Retaining.

LONDON, Nov. 8.—The Daily Mail this morning urges the American people to pronounce boldly in favor of retaining the Philippines, "for otherwise there will be a scramble for coalitions that will endanger the peace of the world."

PROBABLY NOT SUNK.

The Maria Teresa Supposed to Be Ashore at Cat Island.

NORFOLK Va. Nov. 8.—Merritt Wrecking Co. received information that the Maria Teresa was ashore at Cat Island. Captain Chittenden will leave with the steamer Merritt at once.

NEW YORK, Nov. 8.—James E. Ward & Co., steamship agents, late yesterday afternoon, received a cablegram from Mr. Moyer, agent of the firm at Nassau, N. P., that a two-funnelled steamer, the name of which had not been learned, is ashore on Cat Island, about 30 miles from the point where the former Spanish warship Maria Teresa was supposed to have foundered during a storm. The stranded steamer may be the warship or one of the army transports.

Lynching.

MACON, Ill., Nov. 8.—The first lynching in Central Illinois in many years took place here Monday morning, when 100 miners from Toluca, a mining town a short distance east of here, broke into the county jail, took out F. W. Stewart, a Toluca, negro, and hanged him to a tree.

The work was done quickly and quietly. Only a few late stragglers noticed the number of strangers who kept arriving in town from the east. They were well organized, however, and shortly after midnight marched in a body to the jail, broke in the doors after a short parley with the sheriff, dragged the negro from his cell, carried him to a tree a mile from town, where the remainder of the

party awaited them, and there swung him to a limb.

Stewart's crime was assault on Friday evening up on Mary O'Brien, the daughter of one of the Toluca miners.

Although many in Macon deplore the lynching, there is a general impression that the negro was punished as he deserved, and the sheriff seems to think that public sentiment would not justify him in making strenuous efforts to capture the lynchers.

Storms in Alaska.

PORT TOWNSEND, Wash., Nov. 7.—The City of Topeka arrived last night from Alaska, bringing 124 passengers. She reports that heavy snow storms have visited various sections of Alaska, nearly all mining operations have suspended except the quartz mills located near tide water. On November 2, four feet of snow fell on the Chilcot and White passes, which completely put a stop to travel. Telephone messages from Lake Linderman to Skagway announce that about 400 persons are snow-bound there.

According to John Oids, the pioneer mining and business man of Alaska, 8,000 claims have been filed and recorded in the Atlin mining district, and about 1,000 men will winter there. He predicts that Atlin will have a population of at least 16,000, and that the output of gold will be nearly, if not quite, equal to that of Dawson.

Burglars Killed.

WORCESTER, Mass. Nov. 8.—A posse of citizens of North Grafton surrounded a gang of burglars, who had broken into the postoffice, and captured two and killed one of the robbers. Both the burglars and citizens opened fire with revolvers, and after some brisk shooting, three of the robbers fled. Subsequently the

A London paper says if the United States does not pronounce boldly for retaining the Philippines there will be a scramble among the European powers for coaling stations there that will endanger the peace of the world.

Major Simpson, of General Merritt's staff at Manila says Aguinaldo with a force of 40,000 native troops is still in possession of the island of Luzon.

A Paris cable says after the Philippine question has been disposed of, the commissioners will consider the determination of claims which have been filed by Americans against Spain and by the Spaniards against the United States. It was stated that the government would bind itself to satisfy all American claims, in consideration of the territory ceded to the United States, but this statement is incorrect. The Spanish commissioners have a heavy claim for filibustering against the United States to offset the claims filed by Americans for personal and property injuries and the question of their disposition will have to be decided.

In President McKinley's message to congress will be a very strong and urgent appeal for immediate legislative action for the construction of the Nicaragua canal under government direction.

TONY KLEIN REFUSED

To Tell Where a Note Was and Judge Boies Sent for the Sheriff.

The suit of Bush vs. Klein afforded considerable excitement this afternoon.

The question in full was: "Who is the friend you've got the other note with?"

This was asked by Mr. Bingham about a note Mr. Klein said he had got from his brother Jos. Klein as part payment for the Pendleton shoe store.

Mr. Klein refused to answer and Judge Boies sent for Sheriff Durbin to convict him for contempt of court. Mr. Ford asked leave to retire with his client and confor, as he stated he understood an attachment was ready to jump onto the note if witness revealed its whereabouts.

After consultation witness decided to testify and gave name of his friend who had advanced money on the note. It was F. R. Anson and he had requested that his name be not used. After answering the trial proceeded.

Postoffice Robbery.

MARSHFIELD, Nov. 8.—Sunday night at about 8 o'clock two masked robbers entered the postoffice at Arago. The office is in the residence of W. H. Schroeder, the post master. Mr. Schroeder was in the upper part of the house when the men entered, but a man, Peter Crow, was in the office. The robbers ordered him outside. They tied his feet and hands, and fastened him securely to a milk cart, in such a manner that his face was down, and he was unable to turn. They then returned to the house and forced Mr. Schroeder to come down stairs into the office, and at the points of revolvers compelled him to open the safe. It contained about \$1500 taken, \$1000 belonging to the Arago creamery and \$500 being postal funds. Postmaster Schroeder is a cripple, and was unable to offer resistance. Sheriff Gage and a posse found the tracks of the robbers early this morning and followed them until dark. The country is well guarded tonight, and the sheriff thinks they cannot possibly escape.
