Plain Language For Spain,

Fate of the Philippines Decide Upon.

Twenty Million Will Be Offered for the Islands.

By Associated Press to The Journal

PARIS, Nov. 20.—The Spanish peace commissioners have been notified that the United States commissioners will be ready to treat with them in joint session this afternoon. Unless the Spaniards have an adequate reason for further delay, the two commissions will join in the most important meeting thus far held.

The American commissioners, in a written communication, declare that the third article of the protocol regarding the Philippines is capable of only one fair construction, that no arbitration is needed to elucidate its terms, and that the United States cannot admit any other power to figure here purely as a lexologist. They will maintain that the two commissions are charged to determine whether Spain or the United States shall in the future own the Philippines.

This will be accompanied by the clear declaration that the United States will possess the Philippines. Following this declaration, the American commissioners will lay before the Spaniards two alternatives:

First—To accept a sum of money from the United States and to cede and evacuate the Philippines.

Second—To lose the Philippines to the United States by conquest, with the possibility of other territorial losses, or indemnity the United States for the added expense of conquest.

This communication may not be formally designated as an ultimatum, but it will lack naught of the conclusiveness indicated by that word. This will be so plain that the Spanish commissioners will scarcely haggle for money on the first alternative, nor cherish any doubt of the American action under the second, should the first be declined.

No one here expects the American commissioners, know how much will be tendered Spain as the cheapest and most humane way of settling the difficulty. She is exceedingly anxious to escape the Philippine debt, which consists of \$10,000,000 in bonds, on which she realized \$36,000,000. Of the latter amount she is believed to have expended some \$10,000,000 or \$11,000,000 in fighting the United States and a part in attempting to quell the Philippine insurgents. A reasonable guess at the sum for the tender

would be \$20,000,000, although it may fall below that.

The Cuban question may come again today. The American commission had thought the discussion on that point finished, but the Spanish commissioners are reported to have declared last week that the mortgages imposed by Spain on the Cuban as well as on the Philippine revenues, must not be impaired or questioned. This would compel the American commissioners soon—and probably tomorrow—to demand whether Spain means to repudiate the plain compact of the protocol to relinquish sovereignty over and title to Cuba.

Three weeks ago the Spanish commissioners accepted the Cuban article in the protocol without conditions, save that its embodiment in the treaty should depend on an agreement here on all the articles of the protocol. Recently, however, Spain's representatives have said that the Cuban matter had only been temporarily passed, and was still in abeyance.

LONDON, Nov. 21.—The Madrid correspondent of the Daily Mail says: "It is asserted that the government would reject an offer of \$40,000 for the Philippines as ridiculous."

this morning, after expressing "some apprehension that we may have been mistaken with regard to the Anglo-American entente," points to the "establishment of a medieval navigation law in Porto Rico," and asks: "Is a still graver disappointment coming in the closing of the doors to our commerce in the Philippines?"

THE WORLD IN A MOMENT.

Some Important Current Events of a Historical Character Reported by Telegraph.

(By Associated Press to the Daily Capital Journal.)

President McKinley has appointed John Morgan, collector of customs for the Southern district of Oregon.

The city of Perry, Iowa, has suffered a \$250,000 fire.

Captain-General Blanco at Havana received from Paris a cable authorizing him to draw on Paris for \$2,000,000 gold to be applied in the payment of the Spanish troops in Cuba. This amount is in addition to the proceeds of the draft for \$425,000 by the Madrid government on London which was sold last week.

A Madrid cable says an agreement has been reached between the peace commissioners in Paris. The government intends to notify the Cuban bondholders that Spain will not pay the Cuban debt, which will not be mentioned in the peace treaty. The government of Spain holds itself completely freed from the debt which falls upon the nation exercising sovereignty and collecting taxes in Cuba.

The French government has ordered a modification of the prison treatment of ex-Captain Albert Dreyfus. Dreyfus is to be allowed to promenade and exercise six hours a day over an area of eight acres. It is still unknown whether Dreyfus will be brought back.

Rear-Admiral Lord Charles Beresford, M. P., for York, who is visiting in China in the interests of the British Associated Chambers of Commerce, in the course of a speech at Shanghai, dwelt upon the "grave dangers threatening British commerce so long as the dominant military position of Russia and the effete condition of China are allowed to continue."

He insisted upon the necessity of a "firm policy," which should include the organization of a thoroughly equipped Chinese army, and a commercial alliance with the United States, Germany and Japan in order to preserve China's integrity and maintain the "open doors."

The Madrid correspondent of the Standard says:

"Spain will decline indemnity for the Philippines if the sum offered appears inadequate in the eyes of the nation."

The Vienna correspondent of the Daily Telegraph says:

"Following the advice of Austria and Germany, Spain will accept America's offer of compensation for the Philippines."

The Alsea Wreck.

The accounts do not change the report as to the wreck of the Atlanta very much, instead of thirty there were twenty-seven on board, and hence twenty-four were drowned, three being saved. One report is that the schooner was racing down the coast. Another report brought over from the Bay this noon by a man from Yaquina, was that three men saved, all young men and common sailors stated yesterday that the crew were nearly all drunk and that the steering of the vessel had been turned over to an inexperienced sailor who had never steered a vessel before, that they had been able to get off on account of being sober. It is said that had the life saving crew saved some of the men, and it is not known but some of them are on the boat now, but probably not.—Alhany Democrat.

SPAIN REFUSES

To Accept America's Ultimatum,

Sweeping Demands of Uncle Sam.

More Than the Spaniards at First Can Swallow.

By Associated Press to The Journal.

PARIS, Nov. 21.—The Spanish and American peace commissions met in joint session this afternoon. The Americans declared that they must have the entire Philippine Archipelago and for a treaty cession of the islands the Americans tendered Spain \$20,000,000. It was further declared to the purpose of the United States to maintain the Philippine islands, as an "open door" to the world's commerce. On the terms named, the United States proposes mutual relinquishment of all claims for indemnity, national or personal, subsequent to the outbreak of the last Cuban insurrection, November 23 is fixed as the date on which the United States commission desired a definite response to their propositions and all other subjects in issue here. They also declared that the United States desired to treat on the religious freedom of the Caroline islands, as agreed upon between the United States and Spain in 1886, and the acquisition of one of the Caroline islands for an American naval station, and cable landing rights at other places in Spanish jurisdiction and the revival of certain Spanish American treaties heretofore in force. The Americans also refused to arbitrate article 3 of the peace protocol, bearing upon the future disposition and control of the Philippine islands. Meeting adjourned until Wednesday.

PARIS, Nov. 21.—The president of the Spanish peace commission, Rios, has refused to continue negotiations.

WASHINGTON, Nov. 21.—The state department has not yet been advised of the reported refusal of the Spanish peace commissioners to continue negotiations in Paris. Alger expresses disbelief in the accuracy of the report. Still if the breach is made, it would not be a surprise to the state department, which has shaped instructions to its commissioners to bring negotiations to a sharp issue. If Rios has expressed the determination of the Spaniard under instructions, the American commissioners will leave Paris at once. Nearly all their work in such a case will go for nothing. The proceedings before the commission were so conducted that no point agreed upon was to be regarded as binding unless a complete treaty was made. This does not necessarily wipe out what has been accomplished under the terms of the protocol. Each article of the protocol must stand for it is in no respect dependent on what would follow at Paris, save the clause touching the Philippines. That is the ultimate possession of the government as announced at the state department. As to what shall now follow—peace or war—officials are not clear. They believe the Spanish forces in Cuba will continue the evacuation now in progress. There is no problem connected with Porto Rico, which is completely in our possession. Guam, can be easily garrisoned at any time. This leaves about the only question to be determined those connected with the Philippines. It is not believed Spain will make any effort to reconquer the

islands. Meantime the military and naval commanders will probably be directed to extend the occupation at once to the group, though it is not clear that this can be accomplished without much trouble and perhaps a hostile clash with the insurgents.
