THE EVILS OF VACCINATION.
 In view of the large number of soldiers sick and dying of smallpox at Manila following article from the St. Louis, Mo., Post-Dispatch, of Oct. 16, 1898, is of interest. It is from the pen of Dr. M. H. Levermore, M. D., as follows:

For many years I have devoted myself to the study of pathology of vaccination. Before that I was in the state of "sleepy acquiescence" in which many of my professional brethren are today. But the facts are too startling to admit of any more lethargy on the subject.

Vaccination is supposed to be a preventive against smallpox. That's why our soldiers were vaccinated. Virus is no protection against typhoid or the other fevers which were to be guarded against.

Our army was the pick of the land; the flower of youth. Men were rejected right and left. Never had such strict enforcement of physical health been exercised. Men in the condition of health do not wither away and die of malaria fever in a month. There was some other reason for their illness.

Out of an army of 22,000 perfectly healthy men, men of vigor and vitality soon, 2,000 were sick at one time.

What is the reason of this large sick rate?

In the old days of the Christian martyrs, it was not unusual for the savage Pagans to cast innocent women into a den of lions, to suffer horrible agony and fear before death finally came to their relief.

In this Christian age, and in this land of civilization, tens of thousands of women daily suffer from the slow tortures of approaching death. There is a cause for this, and it is a cause which is frequently inculcated by their mothers.

There is a marvelous medicine for women that cures all weakness and disease of the distinctly feminine organism. It acts directly on the delicate and important organs concerned in maternity and makes them strong and healthy. It is Dr. Pierce's Favorite Prescription. It allays inflammation, heals ulceration and soothes pain. It gives rest and tone to the tortured nerves. Under its magic influence the headaches and pains in the back and sides, the dragging and burning sensations, the nervousness, weakness, lassitude and despondency that result from so-called female weakness are banished. It fits for widowhood and motherhood. Taken during the period of solicitude, it banishes the usual discomforts and makes baby's entry to the world easy and almost painless. It insures the new mother's health and an ample supply of nourishment. Thousands of women have testified to its marvelous merits. All good druggists sell it.

Mrs. Truitt Dunham, of Haverhill, Tyler Co., Va., writes: "My baby is now seven months old. After she was born I had local weakness. I could not stand up. I took three bottles of Dr. Pierce's Favorite Prescription and it cured me. I can now do all my work."

Dr. Pierce's Pleasant Pellets.
 It is better to do than to say. The damage is slight, than wait until the whole structure is ready to fall. Constipation is the one ailment which disorder that is responsible for many other diseases. Pleasant Pellets cure it. Pleasant Pellets sell them. They never gripe. One little "Pellet" is a gentle laxative, and two a mild cathartic. They are tiny, sugar-coated granules. Nothing else is "just as Pellets." A permanent cure.

THE NEW LAWS
 Enacted at the Special Session of the Oregon Legislature.

Reviewed in the Oregon State Journal by Carey F. Martin; a Young Salem Lawyer.

There are two laws enacted by the recent legislation aiming at the railroad commission. One law took effect October 15, 1898. The other would have gone into effect three months from the close of the session or on January 15, 1899. Every time the railroad commission has gone into the courts it has been successful and it is possible that the legislature acted wisely in making two laws for the abolition of the commission for it might be able to knock out one law.

There are two laws changing the times of holding circuit courts in the sixth judicial district. One was Senate Bill 58 and the other House Bill 34. They read exactly alike. Each passed both of the houses and each was signed and approved by the Governor on the same day Oct. 15, 1898. Neither law contained an emergency clause and neither takes effect till January 15, 1899. On January 16th, being the third Monday in January, a term of court must be held in both bills be held in Umatilla county.

Under a new law the closed season for salmon fishing on the Siuslaw and all other rivers in Oregon except the Columbia and its tributaries begins November 20 and ends December 20 for the fall run and for the spring run begins April 15 and ends June 1.

Sportmen will do well to remember that the close season for shooting grouse is under the new law from November 15 to July 20 and that it is unlawful to kill prairie chickens at any time when there is enough snow on the ground to track them.

There are two new laws which are not generally understood. One is for the payment of per diem and expenses of rejected volunteers of the Spanish American war and the other is for the repayment of funds advanced by persons to promote the exhibit at the Omaha Exposition. Only rejected volunteers who were members of the Oregon National Guard will get pay and they will not get their pay until the Adjutant General compiles a list of all those who were rejected and files such list in the auditing department of the state government. For the Omaha exposition promoters they will not get their money till after January 15th 1899, when the law for their payment takes effect. Persons having claims must file them with the Omaha Commission which will meet and audit them in due time after it gets its money from the State. Rejected volunteers should file their claims with Adjutant-General Tuttle.

It has been suggested that the state militia ought to be speedily recruited and drilled ready for another brush with Spain. The state will be taxed \$30,000, the same next year as the present, for the support of the state militia, and it should be recruited up to a war footing.

The new school law defining the qualifications of voters at school meetings and elections is not understood by many. Men and women can vote but they must have been assessed by the assessor when he was around the year before and the assessors roll must show that the man or woman had at least \$100 worth of property. This doesn't apply to the country districts where the inhabitants number one thousand or less. In those districts poor men and widows though they may not have been assessed and may not have any property may still vote if they have any children of school age in the district.

One of the important new laws is the mining law. It goes into effect according to the term of the emergency clause on January 1, 1899. When a person discovers a quartz mine and desires to "stake" it immediately he should post a notice on the spot of discovery containing the name of the lode, the name of the locator, the location, number of linear feet claimed each way from the lode with width on each side of lode, the general strike or direction of the lode and within three days after posting the notice he shall put up six substantial corner posts or monuments not less than three feet high being one post at each corner and one in the middle of each end of the strike. The new law has several interesting details and among other things provides that a contract for "grabstake" is no good unless in writing and recorded in the county where the location is made or to be made.

The new law changing the legal rate of interest from 8 to 6 per cent went into effect on October 14, 1898. Very many people do not seem to understand the new law. It is now lawful to contract, to receive or pay any rate of interest up to and including ten per cent the same as it was formerly. But under the new law in all cases where no rate is specified only 6 per cent can be collected. County, city, school district and other warrants presented and not paid or stamped on and after October 14, 1898, only draw 6 per cent. It seems to be the prevailing opinion that all warrants stamped prior to October 15, 1898, will draw the old rate of 8 per cent until they are paid and state and

The new fish law is the most complicated law passed at the recent session. Under the new law the office of fish commissioner is one of the most important in the state. The governor appoints the commissioner and he holds for four years and the one now appointed will hold till near the end of the term of office of Governor Gear elect. No person can fish for salmon with a net without permission from the fish commissioner and all such fishermen and cannerymen and shippers and packers of salmon must be licensed and work under the fish commissioner. The new law covers twenty printed pages in the new session law and was in force from and after October 1898. One good provision in the new law is that foreigners cannot fish for salmon.

One of the new laws creates a new kind of commissioner's court in the county of Multnomah. The court which shall correspond to the county court in all other counties, will in Multnomah county consist of three county commissioners and no judge. By the new law the county judge of Multnomah county is not a member of the county court at all. In Multnomah county they now have plenty of separate officers. A county judge to attend to probate matters—three county commissioners to attend to roads—a county auditor to audit bills—a clerk of the county court instead of "county clerk" and a clerk of the circuit court, besides a separate county recorder and other separate officers.

Under one of the new laws the old time principle that executors and administrators cannot bid in property sold on execution or borrow money on estate under their charge has been modified by expressly authorizing administrators and executors to bid in property and also borrow money on estates when deemed expedient to refund other indebtedness. Of course they must act under direction of the probate court.

There will be a meeting of the Stockholders of the Salem Chamber of Commerce held at the City Hall, Salem, Or., on Monday the 19th day of December, A. D. 1898, at the hour of 8 o'clock p. m. for the purpose of electing a board of directors to serve for the ensuing year; and the transaction of such other business as may be brought before the meeting.
