ILLEGAL TAX COLLECTING.

It is attempted to justify letting out the collection of delinquent taxes in Marion county since 1892 to a private collector and a would-be political boss,at 15 and 20 per cent commission, because that is the way it is done in Multnomah county. That is the defense made by the organ of the boss.

There is no showing made that there is any legal authority for farming out the collection of taxes. The law makes the sheriff the only tax collector. The Turks farm out the collection of taxes against the Armenians to non-resident Jews. The process in Marion county is not much more respectable, and has no more warrant of law.

The very act of putting the delinquent tax rolls in the hands of a private collector, and allowing him to go into the sheriff's office and handle the books is an outrage. The sheriff is the sworn custodian of the books and should politely show the door to any person not clearly authorized by law to handle those records, and if he did not go put him out of the office.

A tremendous power and advantage is put in the hands of a private person when he is made tax collector. He is put in an official position over the citizen and his property, gains information that may be used by him or those who employ him to dispossess people of their homes, and can use the information he gains to enrich himself or his friends,—to say nothing about using it for political purposes.

The county court of Marion county probably did what seemed to them right in attempting in this way to collect delinquent taxes. But let us ask why in Marion county the law for collection of taxes is not enforced? Why has there been no delinquent tax sale in four or five years. Why is the collection of taxes dragged out a year behind time?

Why are not the taxes declared delinquent according to law and all compelled to pay up alike and the lists all cleaned up by September 1, of each year? Why is it that the poor man and middle class of taxpayers pay up promptly and the large taxpayers hold back their money from the county from six to eighteen months? Is this just enforcement of the law? Why does the same law work differently in Marion, from what it does in Linn, Lane, Douglas and other counties, where the law is enforced, taxes are collected, and delinquent lists are made out, advertised and sold? Is there not a nigger in the woodpile, who keeps Marion county out of the use of tax money and compels payment of interest on warrants for at least a year?

It would seem that there could not be a more shiftless expensive, unfair, unjust illegal proceeding than the way the laws for assessing property and collection of taxes are enforced. It is hoped the present county officials in the legislature will put a stop to it, But to cap the climax of all, and put the cap sheaf on the iniquitous system, delinquent taxes are farmed out to a private scalper.

What can be done about this letter matter? A suit should be brought to stop it. This paper has shown it up. The suit can be brought by the district attorney or by a taxpaper, and Judges Boise or Burnett are not the men to favor such illegal grafts on the Treasury. THE JOURNAL has a promise of able legal counsel to push a case, and a prominent taxpayer will allow his name to be used, if the district attorney will not bring the suit. The expense need not be great, but the taxpayer who brings the suit should not be compelled to put up the costs. Some one should receive subscriptions to bring the suit to enjoin the illegal collection of delinquent taxes, or receive the names of taxpayers who will unite to defray the costs of the case in the circuit court. The apeeal, in the absence of all law in the case, would have to be taken by the private collector.

The well known poem, "Curfew Shall Not Ring To-night," in which a young woman by hanging to the curfew bell saves the life of her lover condemned to be executed at the ringing of the curfew, is only one of a thousand striking instances of how a woman will dare everything for love.

Women are readier to make heroic sacrifices than they are to take the commonplace, everyday precautions which insure their greatest happiness. Most women are careless about their health. They forget that physical weakness and disease will wreck the fairest chance in life and shut them out completely from happy womanhood and wifehood.

Weak, bilious, dyspeptic women are robbed of their natural attractiveness and capacity. They lose healthy color and energy and ambition. The blood becomes poor and thin and laden with disease-germs.

The true antidote for this condition is Dr. Pierce's Golden Medical Discovery. It acts directly upon the digestive powers and the liver, creating pure, red, healthy blood free from bilious impurities; it renovates every organ and tissue of the body, building up hard, elastic flesh and muscular strength and imparting nerve power and permanent vitality, which malt extracts do not give.

Mrs. Ella Howell, of Derby, Perry Co., Ind., writes: "In the year of 1894 I was taken with stomach trouble—nervous dyspepsia. There was a coldness in my stomach, and a weight which seemed like a rock. Everything that I ate gave me great pain; I had a bearing down sensation was swelled across my stomach; had a ridge around my right side, and in a short time I was bloated. I was treated by three of our best physicians but got no relief. I was so weak I could not walk across the room without assistance. Then Dr. Pierce's Golden Medical Discovery was recommended to me and I got it, and commenced the use of it. I began to improve very fast after the use of a few bottles. The physicians said my disease was leading into pulmonary consumption, and gave me up to die. I thank God that my cure is permanent."

THE NICARAGUA CANAL.

The views of the president upon the building of the Nicaraguan canal are quite indeterminate. He favors the building of the canal,but how and by whom? On these points he leaves us to flounder in the dark. He seemingly inclines with some favor toward the Maritime Canal Company, that holds a concession for the building of the canal upon which Senator Morgan wants to build, and upon which the bill now pending in the senate is hung.

But to subsidize this canal company, to permit the issue of watered securities would be but to repeat the scandals of the Pacific railroad construction, rob the government in construction, rob the people for all time after for the profit of the promoters of this stock watering scheme, who hope to enrich themselves by getting the government to guarantee the bonds of the company that can be sold for enough to meet the cost of construction, then issuing fictitious capital to themselves and charging the users of the canal exorbitant rates that will make possible the paying of dividends on such ficticious capital.

The government cannot afford to be a party to any such nefarious scheme. If the people build the canal the people should be secured the advantages. This is common sense and this being so, common sense demands that the people, that is, the government, should build the canal and operate it. If it cannot be so built, we say with Congressman Hepburn, better that it be not built at all. But it can be so built; just as soon as the opposition in Congress raised by those hoping to share the profit to be derived from building an overcapitalized canal and operating it on a monopoly basis can be satisfied. We wish the President had the courage to help stifle such opposition, But judging from his message it seemeth he has not.

There is only one way to build the canal. If it is to be built, the government of the United States must build it, and if the United States builds it the United States must own it. This is well stated by Congressman Hepburn, of Iowa, who, as chairman of the house committee before which the Nicaraguan canal question must come, can doubtless exercise a most healthful influence in the shaping of legislation. He does not see any justice in the proposition of the Maritime Canal Company and fathered by Senator Morgan, that the United States take the risks and responsibilities of construction and hand the canal over to such company, to be managed and used for the enrichment of schemers putting no money into the construction of the canal, but cajoling the United States Congress to vote such money, or what amounts to the same thing, guarantee securities upon which the money can be raised. Thus, says Mr. Hepburn, the canal company may as well conclude that the canal will ultimately be built b government money that will be owned and operated by the government or not be built at all. He further declares that the United States must acquire from Nicaragua the soil upon which the canal is constructed, for "there must be no shadow of light for any other nation to interfere in the future with the management of the canal any more than they could interfere with the navigation of the Delaware River. . . . We cannot make appropriations of American money to build a canal on soil other than our own."

TEACHER AND PUPIL.

[From The Northwest Journal of Education, Olympia, Wn.]

The edge of the wedge which starts a separation or misunderstanding between teacher and pupil is often so thin as not to be perceived or realized by the teacher.

There is a period in the growth of the boy whom his sense of justice is very keen in a way; when he is particularly sensitive with regard to what he considers his rights. His standard in this particular is apt to be so vertical as to lean over backwards.

Sometimes the attitude of the teacher (or a teacher) in class is different from what it is out of class or out of school—often unconsciously so. The teacher does or says something which touches or offends the boy's morbid sensitiveness. It is something to which the teacher attaches no importance, never thinks of again, yet the boy broods over it and is antagonized. The teacher's suavity and friendliness out of class is put down by the pupil as hypocrisy or pretence, He takes no stock in it and perceives it in more or less indifference or ill-concealed contempt, while muttering to himself perhaps, "You can't fool me with your 'soft soap.' "

The boy of course misjudges the teacher, but the real difficulty is that the teacher failed to study and know the boy. It is the teacher's business to know his pupils and help them to healthy normal standards, and to correct and charitable judgments.

Teachers fail to discriminate between their pupils as to their varying needs, attitudes, more or less warped standards and false view points.

It seems to be so easy for boys and girls of from 10 or 12 years or age, to maturity to get wrong ideas of life, of the world, of people, of teachers, often of their fathers and mothers. Peculiar is the color of the glass through which many of them, by some circumstances or others, have been led to look upon others and their motives.

For the teacher the conclusion of the whole matter is that he must know his pupils that he may intelligently so direct his work and and his relations with them as to lead them into normal thought, to healthier views; to the acquirement of correct standards, to the formation of just judgments.

DR. WURTH'S OPINION.

OF THE NEW DISCOVERY IN MEDICINE.

A Remarkably Successful Remedy for Dyspepsia, Indigestion and Stomach Troubles.

Dr. Wurth in commenting on recent discoveries in medicine said: There is none which is certain to be so valuable and far reaching in benefit as Stuarts Dyspepsia Tablets, the new stomach remedy; I say far reaching, because people little realize how important a sound stomach and vigorous digestion is to every man, woman and child.

Indigestion is the starting point of consumption, heart disease, Bright's disease, diabetes, nervous prostration, liver troubles; why is this so? Simply because every nerve, muscle and tissue in our bodies is created and nourished from the food we eat. If that food is, by reason of a weak stomach, compelled to lie for hours, a sour, fermenting mass of half digeste food, it posions the blood and nervous system, creates gas which distends the stomach and bowels, causing pressure on the heart, lungs and other organs, and seriously impeding their action.

He says further, the point to direct attention is not the nerves, nor heart, nor lungs, nor kidneys, but the stomach, the first cause of all the mischief.

The remedy to use for indigestion and weak stomachs is not some cathartic, but a remedy which will digest the food, increase the flow of gastric juice, absorb the gases, and Stuarts Dyspepsia Tablets will accomplish exactly this result in any case of stomach trouble, because these tablets are composed of the digestive acids, aseptic pepsin, Golden Seal and bismuth, pleasant to taste, and not being a patent medicine, can be used by anyone with perfect safety. I believe Stuart's Dyspepsia Tablets will cure any form of indigestion and stomach trouble except cancer of stomach.

Full sized packages of Stuart's Dyspepsia Tablets are sold by druggists at 50 cents or by mail from F. A. Stuart's Co., Marshall, Mich. A, book on stomach diseases together with thousands of testimonials will be sent by addressing above or call on your druggist for them. 12 19 21

LaGrippe,

Followed by Heart Disease, Cured by DR. MILES' HEART CURE.

MR. C. C. SHULTS, of Winterset, Iowa, inventor and manufacturer of Shults' Safety Whiffletree Coupling, writes of Dr. Miles' Heart Cure. "Two years ago an attack of LaGrippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced the the doses, having gained fifteen pounds, and am now feeling better in every way than I have for years."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address,

Dr. Miles' Heart Cure Restores Health

NOTICE TO CREDITORS.

In the District Court of the United States for the District of Oregon.

In the matter of the petition of H. Zandmer to be adjudged a bankrupt.

Whereas, H. Zandmer, of Salem, Oregon, merchant, the above named petitioner, was, on December 17, 1898, duly adjudged a Bankrupt under the Act of Congress, entitled "An Act to Establish an Uniform System of Bankruptcy throughout the United States," approved July 1, 1898, and the judge of said court, by order thereafter made, duly referred generally the above entitled matter to the undersigned as referee in the bankruptcy for Marion county in said District of Oregon.

Therefore, Notice is hereby given, that the first meeting of the creditors of the said H. Zandmer, a bankrupt, will be held on the 2d day of January, 1899, at 10 o'clock, a. m. of said day at the office of the undersigned at 277 Commercial street, at the city of Salem, in said Marion county, in the district and state of Oregon, for the purpose of electing one or more trustees for the estate of said bankrupt, and for the transaction of such other business as may properly come before it,

Dated December 20, 1898.

JOHN BAYNE.
21 3t Referee in Bankruptcy.

NOTICE TO CONTRACTORS.

Sealed bids will be received by the County Clerk of Linn County, until Janurary 6th, 1899, at the hour of 1 o'clock p. m. for labor and material required in the remodeling and improving a brick court house for Linn County, at Albany, Oregon. All work to be completed by September 1st, 1899, according to plans and specifications on file in my office.

The County Court will consider bids as follows:

First, For the completion of the entire work.

Second, All mason and carpenter work, including material of brick, stone, lath and plastering, cementing, concrete, lumber, etc.

Third, Heating and plumbing complete.

Fourth, Galvanized iron, tinning and slating.

Fifth, Painting.

The successful bidder will be required to give an approved bond for the amount of his bid immediately after the contract is awarded him, upon such conditions as the court may determine and demand.

The County Court reserves the right to reject any or all bids.

By order of the County Court the 11th day of November, 1898.

FRANK CRABTREE,
Clerk of Linn County, Oregon.

All goods must be in accordance with samples and in original packages when possible. Other things being equal, articles of Oregon manufacture or production will be given preference. Each bid must include items, as well as totals, except bids for flour, meat and fish. A copy of this advertisement must accompany each bid, and the name of the class of supplies be inscribed on the envelopes. Auditing officers are prohibited from confirming accounts of purchase, unless the advertisement contains a full description of the articles to be purchased. Each bidder will be required to furnish with his bid a certified check for an amount equal to 10 per cent of his bid [save that for flour the check is to be $300, for meat $250, for fish $75], payable to the order of the board—to be returned in case bid is rejected or proposal complied with. Delivery of supplies will be required within 15 days after notice of acceptance of bid. Voucher will not be issued until the bidder has complied with his contract. The right to reject any and all bids is reserved. Bids will be opened at the office of the governor, at Salem, Oregon, at 2:30 o'clock p. m. on Monday, January 2, 1899. Dated at Salem, Oregon, December 6, 1898.
