

We do not monopolize

But our shoe sale is a great success. Others tried imitating but failed, not having the goods people want, neither could they meet our prices. Our goods are bought 10 to 20 per cent lower than inexperienced dealers, a benefit we give our customers which they appreciate in return for which we enjoy so large and lucrative business. No bank, no foundry or gun store in connection, shoes only.

Krausse Bros.

OUR REDUCTION SALE

Will be continued another month at greater reduction than ever. It will be of material benefit to avail yourself of this sale as goods will not be duplicated at same prices after January 31, 1899.

G. W. Johnson & Co.

REMEMBER: All Mackintoshes at manufacturer's prices.

We invite Comparison

Our stock and prices speak for themselves

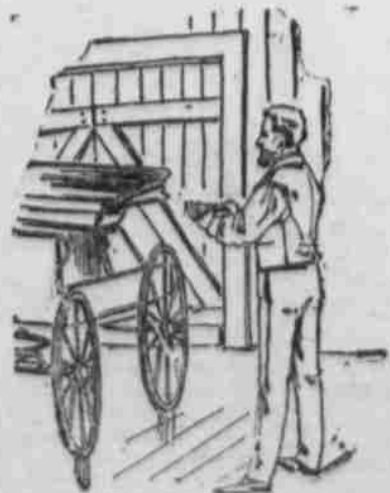

The "old stock" which our competitors would have you think we are loaded with was mainly smuggled out and secretly consigned to them. We never had much of it and are not offering any in our GREAT CLEARANCE SALE. We have nothing on sale that has been in stock over one year and most of it fall goods. Our prices are 20 per cent lower on same grades than theirs. The public are finding it out and that is why they would misrepresent us.

OUR COLORS

Will Be Upheld At Samoa.

Anglo-Saxon Blood Again Thicker Than Water

Senator Vest's Quibbling About Anti-Expansion.

WASHINGTON, Jan. 19.—The navy department has issued orders for the cruiser Philadelphia to proceed to Samoa at once. The Philadelphia arrived at San Diego, Cal., this morning.

WASHINGTON, Jan. 19.—It has been realized for a long time past that there is need of a modification of the terms of the tripartite treaty by which we assumed a joint guardianship of Samoa with England and Germany, but it has not been possible to get all three powers to agree upon any one subject. It is believed much responsibility for the arbitrary action at Apia must rest upon Raffel, the German president of the municipal council.

The United States, Great Britain and Germany, it is believed could easily reach a satisfactory solution of the crisis if they could deal with the subject themselves in the usual course. The interests of the United States are in the hands of Lloyd W. Osborne, in whose discretion the state department reposes great confidence.

WASHINGTON, Jan. 19.—Specifications in the court-martial of Commissioner General Egan are now in the hands of the president. The charges are conduct unbecoming an officer and gentleman and conduct prejudicial to good order and military discipline.

WASHINGTON, Jan. 19.—In the senate Turner took the floor to address the senate on the anti-expansion resolution Vest. He opposed our acquiring the Philippines and said the noblest spirit of state, its chart having been torn to tatters, was now drifting wither she would on a wild and unknown sea. This county was at liberty to retain foreign territory it had conquered if it is so desired, but "if we may keep it ourselves" he said, "we may require it to be given to the people who inhabit it for the purpose of independence and liberty."

Gov. Geer's First Pardon. Geo. F. McConnell, who was sentenced from Multnomah county for forgery was today restored to citizenship by Governor Geer granting him a full pardon. Some Knights of Pythias funds he had charge of were missing, he served his term and upon petition of the entire delegation from Jackson county and the district attorney, he is made square with the world.

One of the Plays of a Century. The citizens of Salem have a rare treat in store for them this evening. The famous Alabama Co., is in the city and will appear at the opera house. No comment is necessary either of the play or players, each member having been selected for the part they have to assume. As everyone knows "Alabama" is one of the fresh plays of a decade, it needs no recommendation from a critical public.

The story is one familiar to everyone and is more than well told. No expense has been spared by Manager H. L. Langenour to make this the theatrical event of the season.

No Signs Left. "My little boy had a breaking out on his limbs. We tried to heal them by the use of remedies we had on hand, but without success. The boy then began taking Hood's Sarsaparilla. He was soon improving and now he is cured and has no signs of the eruption." Mrs. MINNIE DORSON, St. Johns, Wash.

The German Consuln Trouble

British and American Officials Take Action

One Out of Three Can't Run A Government.

By Associated Press to the Journal.

LONDON, Jan. 19.—A special from Auckland, New Zealand, says the British and American consuls were compelled to force the doors to the supreme court at Apia, in which the German consul had established himself and had to push him into the street. When the British and American consuls were informed as to the situation they adjourned court and locked the building the German consul demanded the keys and was refused. He then broke open the doors and removed the locks and replaced them with others. He afterwards brought the German municipal president into the chamber and the latter went upon the balcony and shouted to the British and American marines: "I am the chief supreme court! I am the chief justice." The British and American consuls and a number of marines forced the doors and hurried the German counsel into the street. Then the consuls formally and legally, according to the dispatch, opened the court and issued a warning against any further interference with its jurisdiction. Later dispatches state there is now quiet and the German consul remains in the consulate.
