THE STATE APPORTIONMENT.

If the constitution of the state is to be obeyed there should be a new apportionment of members of the legislature. The mandate of the constitution in this important particular has been disregarded already too long. No reasonable excuse can be given for further failure to act. The state census of 1895 should be taken up and an apportionment made on it, based on exact calculation of ratio to population. The constitution requires that an act of this kind shall be passed at the next session after the census; but as there was no organization of the legislature in 1897, it should be done now. It is an easy matter to make the calculation, and as the constitution requires pure arithmetic, representatives from every part of the state can have no difficulty in getting their rights.—Oregonian, Jan. 16.

PIOLTAGE ONCE MORE.

Capt. Gray, who represents compulsory pilotage board under the existing Astoria commission plan, calls our attention to an error in our article Thursday, where we intimated that Portland ought not to be compelled to pay pilotage charges which were not paid by Alaska, British Columbia and Washington vessels entering Puget Sound in competition with them. Capt. Gray takes exception to this on the ground that British Columbia has compulsory pilot laws.

What we wished to say was that the greatest competitor of the Portland and Astoria ports was the Puget Sound ports, where there was free or optional pilotage, just as Portland now prays for.

Capt. Gray, who represents the Astoria pilots, must admit that $376 pilotage fees to take a Japanese bark of 1,000 tons up to Portland and back—go up with ballast and come back with wheat—is a big charge. It is almost enough to close a Columbia river port that has to compete with a free pilotage port on Puget Sound.

Capt. Gray is making a plucky fight for the Astoria pilot commission. But the Multnomah delegation are standing solidly for the commercial interests, for the business men of Portland and for the producers of Oregon. Whatever the Portland optional pilot bill will accomplish to reduce the burdens upon commerce and upon the producer is in the interest of the people.

THE IVA TEMPLETON CASE.

Any citizen has a right to come before the state legislature with a claim against the commonwealth. If it is found to be just it can be ordered by a special act for that purpose, if the constitution does not inhibit such action by the lawmaker.

The claim of Miss Iva Templeton has been before the legislature several times. In 1895 the legislature passed a bill to grant $5000 relief, but the bill was vetoed by Gov. Lord on the ground that public money could not be appropriated to private individuals.

The the claim grows out of a bridge on a county road breaking down in 1890, whereby Miss Templeton received injuries which she describes as follows:

"My nose was fractured, the top of my head hurt, my lips cut open half an inch, two front teeth knocked out with roots, splintering the jaw bone, one broken off at the gum. My right arm was broken and both bones of the elbow dislocated, my wrist crushed, right thigh severely bruised, left thigh broken, forcing the bone through the flesh and clothing. My spine was permanently injured."

Miss Templeton is a hopeless cripple for life, walking on crutches, and what remains of her once fine form and features are a familiar sight at the state house.

The family have suffered a financial loss from this accident of over $3000. Her parents came to Oregon over a half a century ago. Mr. Templeton having cleared two farms in Linn County, is now in his old age mortgaged for $3000. A peculiar feature of the case is that the accident happened as the only case during a short period when the law making counties responsible was repealed.

So Miss Templeton could not sue the county for damages, and her only recourse was to go to the legislature. Her own statement is this:

"In 1891 action was brought against Linn county for damages and carried to the supreme court, which sustained the action of the lower courts, Judge Lord dissenting, Strahan and Bean holding that because of the amendment of '87 a county was not responsible. Judge Lord's opinion will be found on page 321 of Vol. 22, of Oregon Reports.

"Immediately after the effect of this amendment was seen, as soon as the legislature met again, which was in 1893, the law was changed back again, making the county responsible. But my case coming when the law forbade counties paying damages I had no recourse but to appeal to the legislature, which I did in 1895 with the result already referred to."

The fall that Miss Templeton sustained was so severe that one of the horses that fell with the bridge was killed and the other crippled so it had to be killed. It is to be hoped the daughter of this Oregon pioneer will not remain for life the victim of a legislative blunder as well as a rotten bridge.

STANDING BY THEIR PROMISES.

It must be gratifying to the voters who at the late city election cast their ballots for a genuine reform administration of city affairs to know that the men they put in the city council and elected for city officers are keeping all their pledges faithfully.

The reform aldermen, Buren, Riggs, Walker and Burrows, at the meeting on Friday night to finish a charter, stood solidly for a definite program in the interest of the people, and were joined by Alderman McGrew. The Republican "push" propositions were fathered by Lon Gesner, Legg and Graham acting as accoucheurs and wet nurses for the illegitimate and untimely offspring.

Recorder Judah showed himself to be a very competent acting mayor. His knowledge of parliamentary law made all the work plain and satisfactory. His reply to the "push" proposition, that justice court business before the city recorder was a graft on the county, was convincing and crushing in its completeness. He showed that such cases did not increase county taxes one cent, while it made the offices of marshal and recorder a source of revenue to the city.

The charter as it now stands completed is a compromise on the financial proposition. It provides that the city council may refund the 8 per cent floating debt in warrants not to exceed 6½ per cent, or short time bonds at not to exceed 4½ per cent. It is probable that to meet local demands and enable the city to carry all the debt at home that both plans will be employed.

Mrs. Ida M. Gwinn will leave on the south bound overland this evening and will visit relatives at Junction City and Medford. She will spend two months in Southern California.

There is an imperative demand for a law of this kind, and it is to be hoped that the legislature will enact one. Senator Kelly has made a special study of the subject and we believe from a hasty glance over the bill, that he has admirably covered the ground.

LOVE'S FLOWER GARDEN.

In Love's Flower Garden there is the full-blown rose of married happiness and the holy perfume of joyous motherhood for every woman who takes proper care of her health in a womanly way. For the weak, sickly, nervous, despondent woman, who suffers untold miseries in silence from weakness and disease of the delicate organs concerned in wifehood and motherhood, there are only thorns, and to her the perfume of motherhood is the aroma of death.

No woman is fitted for the responsibilities of wifehood and the duties of motherhood who is a sufferer in this way. Every woman may be strong and healthy in a womanly way, if she will. It lies with herself. She needs, in the first place, a little knowledge of the reproductive physiology of women. This she can obtain by securing and reading a copy of Dr. Pierce's Common Sense Medical Adviser. It contains 1008 pages and over 300 illustrations. It tells all about all the ordinary ills of life, and how to treat them. Several chapters and illustrations are devoted to the physical make-up of women. It tells how to treat all the diseases peculiar to women. It gives the names, addresses, photographs and experiences of hundreds of women who have been snatched from the verge of the grave to live happy, healthy lives by Dr. Pierce's medicines. This book she can obtain free. It used to cost $1.50, and over seven hundred thousand copies were purchased by women at that price. Over a million went in new own copies. For a paper-covered copy send 21 one-cent stamps, to cover cost of mailing only, to World's Dispensary Medical Association, Buffalo, N. Y. For cloth-binding, send ten cents extra, or 31 one-cent stamps.

THE BEST PRESCRIPTION.

Physicians Use and Recommend Paine's Celery Compound.

CHICAGO, Ill., Dec. 12, 1898.

Gentlemen:—It gives me pleasure to certify to the good effects from Paine's celery compound for my patients in general debility and liver complaints.

ANDREW W. LUNDGREN M. D.

Why do the ablest physicians in America openly prescribe, use and recommend Paine's celery compound?

First, because Paine's celery compound is not a patent medicine. It is not the discovery of some quack doctor of whom his profession never heard; it is not a concoction put up by some man who first invented a name, and then adopted a preparation to fit it; and it is not a secret remedy.

But it is, first, the result of the life-long study of the greatest physician America has produced, a man whose reputation was world-wide years before he had ever arrived at this wonderful formula; a man who has received the highest degrees from the best colleges, who was at the time of his great discovery a professor at Dartmouth and a lecturer in other universities, a scholar and a member of a family which has made its mark in every department of public life in America—Prof. Edward E. Phelps, M. E., LL. D.

Why do progressive and intelligent physicians, of every school, prescribe Paine's celery compound in preference to any other remedy?

Because it has prolonged the lives of thousands of sufferers; it has made their sick patients well.

The best test that can be applied to Paine's celery compound is to use it.

If one is "run down," feels without energy, lifeless, useless, fretful, take this great remedy, and note the change.

In its peculiar ability to at once invigorate the body, to make new blood and to regulate the nerves, lies the great value of Paine's celery compound in all wasting diseases and disorders of the kidneys, liver and stomach.

A neglected complaint, though slight at the beginning, may through neglect cause a lifetime of misery. The ringing in the ears, the backache or the general debility unless the body is braced up again, may teach one bitter experience that disease can creep through very small holes.

Paine's celery compound stimulates the kidney, improves the appetite and digestion, drives out any scrofulous tendency in the blood and actively encourages the nutrition of the nerves and organs with the result that the whole body takes on flesh and color—the surest indication of improved health.

It makes people well!

An eminent scientist recently said: "Cod-liver Oil is truly a wonderful composition. It is seemingly Nature's remedy in almost every wasting disease."

Scott's Emulsion contains the pure oil combined with hypophosphites, it rebuilds worn tissues, enriches the blood, invigorates the nerves, stops drains and wasting. Consumptives, Diabetics, pale or thin people, or nursing mothers, should remember this. Do not accept a substitute.

THE GREAT SALT LAKE ROUTE

The attention of eastbound travelers is called to the advantages offered them by the Rio Grande Western, "The Great Salt Lake Route." The same rates prevailed whether the trip is made via Huntington or San Francisco. The passenger has his choice of two routes out of Portland, three through Colorado, and four east thereof. No other line out of Portland can offer such a variety of routes. In addition, a day's stopover is given all passengers at any point in Utah or Colorado. Through pullman and tourist sleeping cars are run on all trains, as well as free reclining chair cars. The service and accommodations offered are equal, if not superior to those of any trans-continental road, and rates are always as low as the lowest.

If you contemplate a trip east, write to J. D. Mansfield, General Agent, Rio Grande Western Railway, 142 Third Street, Portland, Oregon, for any information you may need in reference to rates, routes or accomodations.

CATARRH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effectual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or wattery risings, a formation of gasses, causing pressure on the heart and lungs and difficult breathings; headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal question is secured, the catarrhal condition will have disappeared.

According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher of 2710 Dearborn St. Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of the stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, billousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores. 9-11-13-16 18
