BRAVE DR. LYMAN

On the Government's Duty to the
Islands That It Has Freed.

United States Cannot Rightfully Leave
Unprotected Islands Whose Govern-
ment It Has Destroyed.

WASHINGTON, Jan. 28.—Dr. Lyman Abbott addressed a joint meeting of the Post-Graduate Club of Columbia to Bernard college.

Dr. Abbott during his lecture made it clear to his listeners that he thought it cowardly to destroy the government of any country and then sail away and leave the country to its own resources. He expressed the opinion that the United States should exercise a protectorate over its newly acquired territory until the people have been educated to a condition where they are able to govern themselves. He would not leave it to them to determine by vote whether they wish to govern themselves or be governed by the United States. He said further:

"What is the country to do? I believe, myself, that the late war was a righteous one. I did not believe the same thing in our war with Mexico, but after the conclusion of that war I accepted the conditions as they were and believed with those who thought that we ought to accept the new conditions.

"How are we to accept the conditions now confronting us? We can disavow the relations we find ourselves in with Cuba and the Philippines. We can sail away from Cuba and the Philippines and say: 'We have freed your lands of the Spaniards; now do the best you can.' The golden rule is a good one. I believe that it applies to nations as it does to individuals. Suppose we were to leave these countries to themselves, now that we have shaken their former government to the roots. I think we can supply a better government for them. I think we might send Quay to Cuba and Croker to the Philippines and improve their governments, and perhaps we would thereby improve our own. (Applause.)

"It is foolish for any government to act on tradition. It is almost incredible that any intelligent person should think that a minister should think as ministers thought in the 16th century. It is incredible to believe that any such person would expect any politician to think as politicians thought in the 18th century. Life is a condition of intellectual growth. We ought to apply new thoughts to new conditions.

"I have no fear of imperialism. I think we ought to exercise a protectorate over Cuba and the Philippines. We ought to say to the people that we will protect them from internal strife and from outside attack.

"How can we escape the responsibility? We can show them that we can give them a better government than they had. We can do just what we have been doing. We can improve their streets, establish schools and institute a civil government as good as our own."

Almost too Frankly.
The team of big grays belonging to the fire department have developed an inclination to go that can with difficulty be curbed by their driver.

Several days ago while the engine was being tested and they were being worked about by driver Eckhart, they suddenly started out dragging that gentleman about three blocks before he was compelled to let go of them. They then continued up the street into East Salem before being stopped. This morning they took another run while hitched to a wagon, running up Commercial St. at a great rate in spite of the efforts of the driver to stop them. Unless a fire occurs pretty soon they will be almost too lively for their master.

GOLD DUST WASHING POWDER.

First—That the conduct of Howard E. Wright, speaker of the assembly, be held to be reprehensible in an extreme degree, and to that no more cen-

sure on the part of the assembly can meet the requirements of justice, but the matter of adequate punishment is left entirely to the assembly, without recommendation from the committee.

Second—That the expenditure of large sums of money in aid of the candidacy for United States senator is wrong and reprehensible.

A GOOD REPORT.
On the Hoosier Influences At Work in the California Legislature.
SACRAMENTO, Cal., Jan. 28. The special committee, appointed to investigate into the scandals in connection with the election of the United States senator, filed its report. The committee finds that Howard E. Wright, speaker of the assembly, received from H. S. Grant, Jr. through his political manager Milton J. Greene \$900 as a gift and \$750 as a loan, that Wright prior his election deceived John D. Spreckels and W. S. Leake to secure their support for the speaker'ship, stating that he was unemployed to any senatorial candidate; that, by promising to vote for Robert N. Bulla for United States senator, he secured Bulla's support for the speaker'ship; that by the acceptance of Grant's money, and by the solicitation of Daniel M. Burns' influence, to secure his election as speaker, Wright led each of those candidates for United States senator to expect his vote.

The report further states that Milton J. Greene, the duly appointed and accredited agent of U. S. Grant Jr., expended large sums of money, exceeding in the aggregate \$20,000, but the exact amount of which is to the committee unknown, to secure the election of Republican legislators; the committee find that D. M. Burns, Robert N. Bulla, W. H. L. Burnes and other senatorial candidates, except Grant, expended no money and promised no patronage to promote their respective candidates. The committee of investigation recommends:

First—That the conduct of Howard E. Wright, speaker of the assembly, be held to be reprehensible in an extreme degree, and to that no more cen-

sure on the part of the assembly can meet the requirements of justice, but the matter of adequate punishment is left entirely to the assembly, without recommendation from the committee.

Second—That the expenditure of large sums of money in aid of the candidacy for United States senator is wrong and reprehensible.
