SHELLS POPPING

In Rebel Camps at Manila.

Our Losses Small but the Enemy Suffer Heavily.

More Armericans Prostrated by the Climate.

By Associated Press to the Journal.

MANILA, Feb. 11.—2:30 p. m.—Early today the monitor Monadnock and cruiser Charleston began dropping shells into the rebel camp between Calocan and Malahon. The enemy's sharpshooters were in the jungle between and have been particularly annoying since daylight, so much so, that the third artillery drove the rebels out of the jungle at noon. Meantime a few more of our men were wounded. The loss of the enemy is estimated at fifty killed and wounded to one American killed or wounded.

Five p. m.—Heat today knocked out many more of our men than did the Filipino's bullets. Fully a score were taken to the hospital. The railroad has been open to Calocan and supplies are being forwarded.

MANILA, Feb. 11.—The following additional particulars regarding the capture of Calocan have been obtained. The insurgents have been concentrating at Calocan and Otis is determined to attack them. He instructed the commanders accordingly and requested assistance from the naval forces. Major General Mac Arthur reported all ready and received the following message:

"The commanding General orders you to go ahead with the program." The attack began immediately, the monitor Monadnock and cruiser Charleston shelled Calocan and the country north for half an hour. Major General Mac Arthur directed effective work from the hill in the rear. General Harrison G. Otis with a brigade consisting of the Kansas regiment, Montana regiment, and the third artillery regulars, acting as infantry, advanced handsomely, pushing forward in the face of the Filipino bullets a cheerfully as if they had been snowballs. The enemy were utterly routed. At 6 o'clock all "ceased firing" and "recall" were sounded. The troops were then marched through Calocan and north of it. McArthur established a left at Calocan and strengthened his lines for night. By the capture of Calocan the control of much rolling stock of the Manila and Daguapan railroad was obtained. The city is now quieter and business is better than at any time.

HONG KONG, Feb. 11.—The Filipino junta has issued a statement saying that the American version of the recent fight is utterly false. The Americans commenced bombarding by the treachery of Otis.

WASHINGTON, Feb. 11.—The War department received the following from Otis:

MANILA.—General Mac Arthur's division is north of the Pasig river. Yesterday his left wing, Otis's brigade, made a partial wheel to the right, resting left on Calocan, where the insurgents were sharply driven, leaving a good many dead. Our casualties were three killed, thirty four wounded. The forces engaged were the Twentieth Kansas, First Montana, Third artillery, Thirteenth Minnesota and the First Idaho. The troops are in excellent condition and supplied with all the necessities. The hospital, notwithstanding all the wounded, have fewer patients than before the engagement of the 4th and 5th. Y... ay's engagements were most successful. It is the belief of old residents here that Aguinaldo will be unable to gather in the future any considerable force.

LONDON, Feb. 11.—A dispatch from Manila describing the capture of Calocan, dwells upon the excellence

of the American plans and precision with which it was carried out. The dispatch adds:

"At four p. m. the American troops ceased firing then the army fired three guns at an interval of ten seconds, signalling the advance of the whole line: the Kansas regiment leading through the jungle. The rebel's left wing was diverted by Major Bell and one hundred men. It was like clockwork. No hitch anywhere. Ten thousands rebels, demoralized by the shells of the Americans, advanced in open order at 500 yards, there was a halt, then a charge and the rebels were stampeded from the trenches. The Americans rushed on without firing and used their bayonets and butts of their rifles. The slaughter was tremendous. Today ships are shelling beyond Calocan. The Americans will probably reach Malabon today and Malolos in a fortnight."

WASHINGTON, Feb. 11.—Representative Wheeler, introduced resolution proposing the thanks of congress and the American people to Major General Elwell S. Otis and officers and men of his command for their gallant and successful action at Manila.

Frank Ritter, of Ogden, general agent of the United States Fidelity & Guaranty Company for Utah, is in the city to remain a few days.

DALY TEXT BOOK BILL.

Opposition Forges a Committee Report to Gain Further Time.

The Fine Work Comes from an Agent of the American Book Company in the Committee on Education.

Let all friends of the public schools, who want to see better and cheaper text-books adopted and the unholy clutch of the text-book trust broken forever in Oregon rally to the state house Monday afternoon. By the efforts of Mr. Flagg the Daly text-book reform bill was made a special order for Monday at 3 o'clock and Speaker Carter has ruled that order cannot be disturbed.

The efforts of the American Book Co. through its agents and lobby in this legislature are being laid bare. Debate in the House discloses that the clerk of the committee forged a report to create controversy and delay, for which none of the committee are directly responsible and which a majority denounce as a bold and barefaced forgery.

THE JOURNAL does not agree with the position of Representatives Whalley of Portland and Marsh of Washington, and will give them credit for honesty and sincerity of purpose in doing all they have done. Mr. Whalley is an educated man—educated we are told for the ministry. Mr. Marsh is a farmer and we believe wants to do what is right.

But the entire committee has been supplied with mis-information, prejudice, bias and devilry by one Austin Craig, of Hillsboro, whose record as editor of the Washington county Hatchet and county superintendent of schools has been that of a devoted tool of the American Book Co. In their late campaign he published their stereotyped plates for pay and he has been here as a committee clerk during this entire session armed with their devious arguments, and evidently protecting their interests, using his knowledge and position of county superintendent for forty days at the expense of the state to defeat legislation that the American Book Co. does not want. He is dead against the Daly bill or any bill but the present system, and may be so honestly for all we know. But the exposure of the forged report and the excuse offered by Mr. Whalley that he did it inadvertently is too thin.

Austin Craig seems to be a young Englishman of very smooth and quiet manner. His paper attracted attention by its devoting pages of malignant personal abuse to Banker Corbett, Harvey Scott, Governor Lord, Jo Simon and that wing of the Republican party. That Craig is a pure, holy and saintly friend of the public schools no one can doubt (?) (Continued on Fourth Page)

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflated you have a running or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Notice. The annual meeting of the John A. Logan, Veteran Reunion Association, for the election of officers for the ensuing year, will take place at G. A. R. Hall, Mahama, Or., on Feb. 11, 1899. All that are interested are cordially invited to attend.

MRS. ANNA CASHBATT, Vice-President. JOHN W. IRVINE, Secretary.

PERSONAL. Representative Virtue and wife are spending Sunday at Portland. Mrs. Rudolph Prael has returned to Portland after a visit at Salem. Miss Ella Welch, of Lincoln school, is spending a few days with friends in Portland. Misses Alma and Daisy Wagner returned yesterday from a two months' visit with relatives in San Francisco. N. M. Learoad, who has been laid up with a sprained ankle for some time, is again about, but still quite lame.

The county court has concluded its February term and Commissioners Davis and Miley returned to their homes today. Governor Geer went to Portland to spend Sunday. His son Fred, and daughter, Mrs. Downing, and nephew, Pearl Geer, of Silverton, were his visitors today.

Mrs. Anna Nichols, local manager of the Postal Telegraph, is enjoying a visit from her brother, B. H. Groger and her mother, Mrs. Groger of Puyallup.

Senator Selling went to Portland to spend Sunday with his family. He says on a careful canvass made today there are but eight senators who will vote for the sugar beet bounty Monday.

SUGAR BEETS

Adverse Report of Committee.

Senator Taylor Pleads for Consideration.

Motion to Indefinitely Postpone. Lost by 15 to 12.

SENATE—SATURDAY FORENOON.

The committee on commerce reported favorably upon S. B. 41 which is the enabling act for removal of county seats, but contended that only three-fifths instead of three-fourths of the voters be required to petition for removal, Daly of Lake moved to strike it three-fourths, which was lost upon an aye and no vote.

The committee on counties reported unfavorably upon H. B. 131, the sugar bounty bill. Selling moved indefinite postponement, when President Taylor called Senator Mulkey to the chair, and made an earnest plea for the bill. He admitted that the case was hopeless. He portrayed how his vast region of the state was practically disfranchised, how the valley and Portland always draw on Eastern Oregon for votes, for wealth, for commercial power, but how when that vast territory wants anything the western portion of the state is always against the eastern section. Fulton, Brownell, Reed, Kuykendall and Driver expressed the greatest sympathy with Eastern Oregon, and although they announced that they were against the bill, they objected to the arbitrary step proposed. Fulton made a plea for opportunity to affect a compromise and give this establishment. Haines and Mitchell thought the most humane way to kill a measure was to do it quickly. The motion to indefinitely postpone was lost, and the bill takes its regular order.

THIRD READING. H. B. 182, Howe, regulating salaries of officers in Tillamook county. Passed. H. B. 374, Stillman, withdrawing school lands from sale and fixing interest on school funds at 6 per cent. Made a special order for 3 p. m. Monday.

H. B. 109, Maxwell, duplicate of Looney's dairy bill. Passed. Senator Mulkey's constitutional amendment resolution, placing the state printer on a salary, was unanimously adopted.

Senator Hazeltine offered a resolution authorizing an engrossed copy of the resolution thanking Henry E. Dusch for his services in pushing the interests of Oregon at the Omaha exposition, and as a member of the board of horticulture. The copy was not to cost over \$25. Fulton asked if Dusch hadn't been well paid for his services, and the resolution was lost.

NEWS FROM ANDREE.

His Remains and Companions Found in Siberia.

By Associated Press to the Journal. KRASNOVARK, Siberia, Feb. 11.—A gold mine owner named Monastyrchin has received a letter saying that a tribe of Turgusos, inhabiting the Timir peninsula, North Siberia, recently informed the Russian police chief of the district that on January 7 last, between Komo and Pit, in the province of Yeniseisk, they found a cabin constructed of cloth and cordage, apparently belonging to a balloon. Close by were the bodies of three men, the head of one badly crushed. Around them were a number of instruments, the uses of which were not understood by the Turgusos.

The police chief has started for the spot to investigate, and it is believed that the bodies are those of the aeronaut Herr Andree and his companions.

(The balloon Eagle, with Professor Andree and two companions, Strindberg and Fronkel, in the car, left Dames islands, of the Spitzbergen group, July 11, 1897, in an attempt to cross the north polar point. No definite news of the aeronauts has been received beyond the message attached to a carrier pigeon, found by the whaling ship Falken, which arrived at Copenhagen September 2. The message read: "July 13, 12:30 p. m. Latitude 82°22 north, longitude 12°05 eastward. All well.")
