The cause is often the successeious fault of the wife. A woman who suffers from weakness and discase of the distinctly feminine organism is unfitted for motherhood, and if she has children it will probably be at the sacrifice of her own life. Dr. Pierce's Pavarite Prescription is a wonderful medicine for women who suffer in this way. It acts directly on the delicate and important organs concerned in wifehood and motherhood. It makes them strong healthy vigorous, virtle and clustic. It bittishes the aqueamishness of the expectant period and makes larky's alcent casy and almost painless. It onsures the little new-comer's health and a houniful supply of nonrishment. Thousands of homes that were childless and unhappy now echo with the pratile of healthy halybood, as the result of the use of this marychous medicine.
