TAKEN PRISONER

Fifteen Americans Captured.

While Engaged in Rescuing Spaniards.

General Lawton Has Returned From the Interior--Troops Healthy.

By Associated Press to the Journal.

MANILA, April 19.—Admiral Dewey has been notified of the strange disappearance of Lieut. J. C. Gilmore and 14 members of his crew, of the United States gunboat, Yorktown. On Saturday last, the Yorktown was anchored off Baler, on the east coast of Luzon, about two hundred miles from here, where a Spanish garrison of about fifty men had been defending itself against several hundred Filipinos for the past month.

Lieut. Gilmore, Ensign W. H. Stanley and the boat's crew were sent up the river, from Balar bay, to communicate with the Spaniards, the town of Balar being some distance inland. Ensign Stanley, who landed at the mouth of the river, reports that he heard three volleys, a bugle call and cheers up the river, but an automatic gun, which was part of the equipment of the boat, was not heard firing. Stanley then paddled to Yorktown in a canoe.

Search was made for the Yorktown's boat and her crew, but no trace of them have been found and the Yorktown has sailed for Ilo Ilo, from which place the commander cabled to Admiral Dewey, his theory being that Filipinos had captured or sunk the boat or that the Spaniards had rescued the American party.

A scouting party of the American troops today found a rebel skirmish line more than a mile long east of Malolos. A sharp battle followed, but no losses were sustained. General King, who has been taken suddenly ill, and who is unable to continue in command of his brigade, has been relieved of further duty and has been ordered to the United States on the first transport.

The following is the list of missing men as reported by Admiral Dewey: To Chief Quarter master W. Walton, Coxswain J. Ellsworth, Gunner's Mate Edward J. Nygard, Sailmakers' Mate Vanborn, Seaman W. H. Ryder and O. W. Woodbury, Apprentices D. G. A. Venille, P. Peterson, Ordinary Seaman S. Briscoe, O. D. McDonaie, Lands.

man, L. P. Edwards, F. Anderson, J. Dillon and C. A. Morrissey.

LONDON, April 19.—The Filipino European junta claims to have received a cablegram from General Luna commanding the Manila district, declaring General Lawton whose object it was to proceed to Baler and effect a junction with the Yorktown, was inveigled by Filipino tactics into perilously extending his line with the result that a column of 140 officers and men, on reaching Binagon were ambushed by Filipino force has been severed and the entire column captured.

The Filipino advisers further assert that Gen. Lawton, on hearing the news, "retired to Manila, stating that he had been recalled by Gen. Otis, on the ground that a native rising in Manila was imminent." The foregoing is said to be a separate affair from the disappearance of the boat's crew of the Yorktown.

WASHINGTON, April 19.—The following cablegram was just received from Otis:

"Lawton returned from the Lake country on the 17th inst, bringing the captured vessels. The insurgents are much scattered, and they retreat before our forces and await an opportunity to attack some detachment. The better class of the people are tired of war, and desire peace.

The enemy build their hope on the return of our volunteers to the United States. Its army is much demoralized and the loss by desertion is large. They will probably prosecute a guerilla warfare, looting and burning the country which it occupied. The health and spirits of the troops are good.

The volunteers' return will commence about May 5. They will render willing service until the return transports are available. Embarkation will continue through June and July. The reports from the Visayan Islands continue very encouraging. Inter-island commerce is heavy, and customs receipts are increasing."

MANILA, April 19.—Over 4000 American volunteers have petitioned the government to allow them to be mustered out on the island of Luzon, with travel pay to their homes, in return for which they promise to form local military organizations.

The provost marshal has raided the Filipino recruiting office in Manila captured three or four officers, and also confiscated about \$100,000 which was to be sent to the rebels.

Poll Tax on Chinese.

OTTAWA, April 19.—Sir Wilfrid Laurier, the Canadian premier, replying to a delegation from a trade labor congress, spoke favorably of the imposition of a \$5 poll tax on Chinese entering Canada, but opposed a tax on Japanese whom he characterized as progressive and allies of Great Britain.

A Serious Charge.

The citizens of the northern part of the city are considerably stirred up over a charge that has been preferred to the effect that the janitor of the North school has been taking improper liberties with one of the young girl pupils.

A complaint has been made to the directors, and the janitor has been informally suspended from duty, pending an investigation. The board will meet this evening for the purpose of looking into the matter.

QUAY BEATEN.

But the Appeal Will Be to the Quay Machine.

By Associated Press to the Journal. HARRISBURG, April.—The last ballot to be taken for United States senator at the present session of the legislature was taken today and resulted: Quay, 93; Jenks, 85; June 60; not voting 6; necessary to a choice 124.

The legislature adjourns at noon tomorrow. Fourteen votes dropped away from Senator Quay at Tuesday's joint ballot. The anti-Quay Republicans and the followers of Magoo, of Pittsburgh, combined and cast their votes for H. F. Jones, of Pittsburgh.

The strength of the opposition to Senator Quay was finally measured. Nearly every member was in his seat, and those absent were paired. So intense was the excitement that it was impossible to preserve order, and the whispered inquiries of visitors disturbed the harmony of the proceedings.

Senator Magee, in speaking of his action, said: "I believe that the republican party is greater than any man in it. The republicans of Pennsylvania want a senator elected, and if one is not elected, I am satisfied it will mean an awful political battle this fall and possible defeat. So long as there was an earnest desire on the part of Quay to be elected and there was a hope of it, I remained with him, but when his henchmen started the cry of 'Quay or nobody,' I thought it was time for making an effort to elect some good Republican. Quay is an impossibility, and he knows it, just as every citizen of the state does. I notified him several weeks ago that I would not be a party to continuing a deadlock, and that is the reason I voted for Jones.

Nearly Bled to Death. Mr. Tom King, engineer at the State prison, who has been suffering from the loss of blood, from the bursting of a blood vessel in his nose, from which he bled to unconsciousness, is again about, but yet very weak and unable to work. Mr. King had a close call at bleeding to death and had it not been for the heroic efforts of the physician he would probably not now be alive.

It seems he was on his way down town to go to a meeting of the engineer's association, when suddenly his nose began to bleed and it bled very profusely and he finally succeeded in checking it sufficiently so he could return to quarters at the prison. He went to bed in an exhausted condition and was later found in an unconscious condition caused by the coursing of blood down his throat. He immediately got up and went to the bathroom and was awakened by a strangling sensation caused by the coursing of blood down his throat. He immediately got up and went to the bathroom and was awakened by a strangling sensation caused by the coursing of blood down his throat. He immediately got up and went to the bathroom and was awakened by a strangling sensation caused by the coursing of blood down his throat.

Physicians were summoned and he was restored to consciousness, but was very weak from loss of blood. Later

examination proved that a blood vessel had burst in his nose, the doctors supposing him to be merely bleeding at the nose. Mr. King can consider himself a lucky man to escape death. He had another examination made since, and the blood vessel again began to bleed. But he is now considered out of danger by his physicians, but it will be several weeks before he can go to work.
