STILL FIGHTING

Gen. Lawton in the Field.

Trying to Outflank the Rebels.

Germany Asked for Cessation of Coaling Stations in the Philippines.

By Associated Press to the Journal. MANILA, April 22.—7 p. m.—General Lawton took the field at daybreak today with a column of troops consisting of the North Dakota regiment, two battalions of the Third Infantry, and the Twenty-Second Infantry, two guns of Scott's battery, three troops of the Fourth Cavalry and Gale's squadron all equipped in light marching order.

The force started at 5 o'clock a. m. over the Novaliches road, traversing the country previously cleared of the rebels, but subsequently reconquered by them. It is presumed that Lawton, by this movement, will outflank the enemy before joining MacArthur on the north of Novaliches.

The Dakota regiment first encountered the enemy in front of Novaliches at 8 a. m. The rebels opened fire, but their fire was silenced fifteen minutes later, and the enemy retiring in bad order and the Americans advancing along the rough roads around Novaliches. They were considerably annoyed by the fire of rebel sharpshooters from the jungle for two hours.

At 2 o'clock in the afternoon the rebels were in full flight leaving many dead on the field and our troops were compelled to take a brief rest in the shade the intense heat overpowering them.

LONDON, April 22.—The Chronicle says:

We are informed that during the Hispano-American war, Germany proposed to the United States the cession of a coaling station in the Philippines in the event of action, together with the exchange of commercial privileges. The United States replied that proposition was premature.

Later on Germany asked the United States not to annex the Caroline islands, claiming she had the first right to them herself and renewing the request for a coaling station in exchange for Marsh islands. The United States repeated that the request was premature and the negotiations are still in abeyance.

WASHINGTON, April 22.—The war department today received a cablegram from General Otis announcing the formation of a new flying column under command of General Lawton and the initiation of a new campaign which it is expected will result in clearing out the jungle in the country north of Manila up to the foot hills on northeast and up to termination of the railway at Sulcan. The text of the dispatch is not made public, but it is understood to agree closely with the account of the movements contained in the associated press dispatches from Manila.

WASHINGTON, April 22.—The North Atlantic squadron sailed today from St. Pierre, northward. The Solace has sailed from Manila for San Francisco.

Senator Thurston Changes Front.

By Associated Press to the Journal. PHILADELPHIA, April 22.—Senator J. M. Thurston, of Nebraska, made an informal address at the Union League here. Among other things he said he had changed front and was no longer a conservative, but an annexationist. He believed that this country's attitude in the present Philippine situation was right. He regarded Aguinaldo's uprising as simply a rebellion of anarchy, which must be crushed.

During the course of his remarks, Mr. Thurston said: "I have some thoughts, as every American citizen has, on the new destiny which has opened up before us, and we are met with many expressions of opinion from the newspapers and magazines. Many are pessimistic

and we hear many warnings and warnings. These come from the bilious citizens of the United States. These are the pessimistic individuals, who have bad livers and whose kidneys are out of time.

Our forefathers never looked forward to the land breakers of the Atlantic and the sun of the Pacific shore and yet there are those in these pessimistic times who say that we are bound by the views of the fathers. Constitutions are written for the government and the time in which they are planned, and they are always made to meet the emergencies of progressive civilization.

I voted against the annexation of Hawaii because of a conservatism which I could not overcome; therefore, you will understand that I am not a partisan, but when, in the providence of God, new territory and new responsibilities come to us we are bound to share part of the responsibility.

I am one of those who would have wished that after Dewey sailed into Manila and gained the greatest victory of modern times, that he could have left without accepting the responsibility. But this would not be done. God has given us the responsibility and we must accept it. Civilization has the right of way over barbarism and the American people are equal to this or any other responsibility that might arise.

NEW YORK CITY

The Investigating Committee Springs a Sensation.

By Associated Press to the Journal. NEW YORK, April 22.—At the proceedings in the Mazet investigating committee, in a somewhat sensational manner this morning, Attorney Clark said he desired to call the attention of the committee and the witnesses to the penal code, which provides for imprisonment or fine for refusing to attend or answer questions propounded by a committee of the legislature.

"You will observe," said Clark; "that for continuous refusal to answer proper and material questions, a witness commits a misdemeanor. The purpose of the counsel of this committee is to cite contemptuous witnesses, to the criminal authorities for presentment, indictment and punishment."

COUNTERFEITERS' PLOT

They Expected to Dump \$10,000,000 of Spurious Notes.

PHILADELPHIA, April 22.—Secret service men say the counterfeiters arrested here and in Lancaster, Pa., intended to attempt to bribe a trusted official of one of the United States sub-treasuries and dump \$10,000,000 of counterfeit notes directly upon the government. The gang had a \$50 note and a \$100 note partly finished, and planned to make plates for a \$20 note. They had paper and machinery to carry out the plan.

He said he was taken aboard the Purpule and he claims he was grossly insulted by Captain Sturdes and after fourteen hours of captivity after which no proof against him was advanced he was transferred to the German warship Falke, on condition that he was not to leave the ship. Big Thing for Lane County

One of the largest timber deals ever consummated in Western Oregon has just been effected. The Booth Kelley Lumber Company, of Saginaw, Mich., which already owns several hundred thousand acres of timber land in Western Oregon, has formed an association with some California capitalists and purchased 20,000 acres of timber land 20 miles east of Eugene, Or. The price was in the neighborhood of \$140,000.

The company will begin logging and lumbering on an extensive scale. By fall it will have in operation a mill with a capacity of 100,000,000 feet, which will employ between 500 and 700 people directly and means the building up of a community of 4000 or 5000 people. It will build a railroad from some point on the Woodburn & Springfield road, a distance of 16 miles in order to tap the heart of the new district.

The land just purchased belonged to the Southern Pacific Company, and the deal was engineered through the Southern Pacific land department. The district includes the heavily timbered sections along Mohawk river and Miller and Mills creeks. E. A. Booth, of Grant's Pass, and Kelley Brothers, of Saginaw, are at the head of the company, which now operates a large mill at Saginaw. Extensive improvements are made possible by the company having interested some of the leading capitalists of California, whose names do not appear in the transaction. However these men have shown their faith in the lumbering industry of Western Oregon by furnishing all the capital needed for the purchase of the lands and establishment of mills and other improvements. The main promoters are active and energetic, and amply equipped for carrying forward such an enterprise.
