**CIRCUIT COURT.**  
In the case of Northwest Door Co. vs. S. Tomlinson, referees have filed report.

The case of J. F. Goode, vs. N. J. Judah, et al. came up in department No. 2 yesterday. This is the mandamus suit brought by Goode to compel the city recorder to issue an auctioneer's license at the old rate of \$50 per year, instead of \$200. Goode's attorneys filed a new complaint with the consent of the city's attorneys, and the latter filed a new demurrer thereto. In the new petition, it is recited that the fee now required for an auctioneer's license is too high; that it is in restraint of trade; that it is class legislation; that it creates a monopoly; that the special meeting at which it was passed was illegal, and not in accordance with the regulations and bylaws governing the council, and was in violation of the statute. Goode is represented by Crawford and Crawford, and the city by McCourt and Bonham, Jeffrey and Martin.

The case came up again this morning and counsel Jeffrey made an argument in support of the demurrer to the complaint, after which a recess was taken by the court until 1 o'clock. The argument was, in part, on the following points:

The recorder was exercising his discretion as to which ordinance was in force. In this case a mandamus would not be proper. If there were a question as to the validity of the ordinance under which a license was required it would be possible for a party to go ahead and act without any license, but it would not be proper to mandamus the recorder and compel his judgment as to which ordinance was in force.

A license law not class legislation nor unconstitutional if all parties following the same business were required to pay the same tax.

The necessity for certain action must lie in the discretion of the council.

Creates no monopoly because any one may get a license by payment of \$20, and there are no other restrictions.

Statutes and charter plainly gave the council full power in the matter.

In the afternoon counsel Crawford addressed the court and had not concluded when this paper went to press.

The case of A. Bush vs. Ellen Coyle took up most of Wednesday afternoon in department No. 2, being argued and submitted. This is a suit over a certain certificate of deposit for \$100, issued by Ladd and Bush, and formerly belonging to one Patrick McIntee now deceased, but which was claimed by other parties, his executors as well as Ellen Coyle. The county court on March 27 1899 decreed that the certificate belonged to Ella Coyle, but Ladd & Bush claim the county court had no jurisdiction, and brought a suit to interplead.

The decision of the court is that the property belongs to Ella Coyle; that neither party may recover costs.

He left Manila on March 10 and returned by way of Hong Kong. There had been considerable fighting then, and the Oregon boys were making a fine record. Notwithstanding they are anxious to come home as soon as they can be relieved. Mr. Davis does not appreciate the islands as an acquisition to American territory, and says the whole islands are not worth one American's life. He saw Aguinaldo and says he is undoubtedly a hard man to deal with, and it will take work to finally capture him.

**South Salem Folks.**  
The lecture at Leslie church last evening entitled, Love, Courtship and Marriage, delivered by Rev. T. F. Royal was well attended, and listened to with great interest. The young people know they will always get a big dish of cream when "mother" scriber officiates at the freezer.
