GENERAL

OTIS

Cables the Volunteers Will Return

The Latter Part of This Month.

Filipinos Are Becoming Demoralized—Looting Property.

By Associated Press to the Journal.

WASHINGTON, May 11.—In reply to the cable of Adjutant General Corbin in regard to the return of volunteers, General Otis cabled this morning: "The volunteers first to return are now at Negros and 45 miles from Manila at the front. It is expected that the transports now arriving will take the returning volunteers. The volunteers understand that they will begin to leave for the United States the latter part of the month and know the importance of their presence here at this time, and accept the sacrifice which the United States' interests make imperative."

The Hancock is not entering harbor. The transports returning this week will carry only the sick and wounded men. The Pennsylvania and St. Paul are not needed longer in the southern waters, where they have been retained, hence the dispatch of the transports. The Nelson and Cleveland brought freight, and will return without a cargo. The Hancock sailed from San Francisco April 18, carrying the Twenty-first infantry and the light battery E of the First artillery.

Another cablegram received reads as follows: "The situation is as follows: We succeeded in passing the army garrisons to Calumpit, for use in the Rio Grand. Railway connections with that point are secured, and the passage of goods through the Macabebe country is hailed with joyful demonstrations by the inhabitants. In the country passed over by troops a temporary civil administration has been inaugurated and protection to the inhabitants against insurgent abuses is given as far as possible. Signs of insurgent disintegration are daily manifested. Obstacles which natural fears and animosity present can be overcome." The cables from Otis are gratifying to the officials at the war department. Portions of the dispatches regarding the situation are not made public, relating, it is understood, to the prospective movements.

The cable regarding the return of the troops indicates that the troops are making no clamor to be sent home, but see the necessity of remaining until they can be relieved by the regulars now on the way to aid them. Otis says the troops that will be sent first are in the island of Negros and at the front. This, no doubt, means the California regiment, which is probably in Negros and it is known the Oregon regiment is with Lawton, somewhere in the vicinity of Masani.

MANILA, May 11.—Mr. Higgins, manager of the Manila-Dagupan Railway, and two assistants arrived at San Fernando yesterday. They had been informed by insurgents that they would no longer be responsible for their safety if they remained within the lines. Higgins corroborated the story of the demoralization of the Filipinos, and says the rebels are looting property. Higgins says now is the time for the Americans to strike hard.

MANILA, May 11.—The rebels in the island of Panay have just succeeded in landing ten machine guns at Capiz, 75 miles north of Ilo Ilo, the capital of the island. Information is also received that the rebels in the province of Cavite will co-operatively resist the Americans. Aguinaldo's prime minister, Malbini, has issued a Spanish proclamation declaring that the insurgents are hopeful.

At the peace conference at The Hague, America and England will stand together in favor of international arbitration of disputes. An American newspaper man and party captured seven Cuban bandits, by whom they were attacked. The Missouri legislature has passed a law taxing department stores from \$300 to \$500.

WASHINGTON, May 11.—Reports received from the insurgent line which, however, have not been confirmed, say that a meeting of the Filipino congress has been held at San Isidro. There was no quorum present, but in spite of this fact some business was transacted. The reports add that although those who attended were mostly partisans of Aguinaldo, a strong desire for peace was expressed.

and will fight on regardless of defeat in the expectation of intervention by some European power.

MANILA, May 11.—Dumaraig, a Frenchman, who had entered the rebel lines to negotiate for the release of Spanish prisoners, is said to have just been assassinated by insurgent soldiers.

REGULARS FOR MANILA. Four More Regiments Will be Sent Over.

By Associated Press to the Journal. WASHINGTON, D. C., May 11.—The war department is preparing to send four regiments of regulars to Manila, via New York and the Suez canal, in the transports Thomas, Meade and Logan, which are to be permanently transferred from the Atlantic to the Pacific fleet. They are expected to transport the Seventh and Ninth regiments of infantry and the First and Seventh regiments of artillery, although some other command may be substituted for one of these before their sailing dates. The Seventh infantry is now distributed at the points east of the Missouri, the Nineteenth in Porto Rico, the Seventh artillery is along the Atlantic north of Washington and the First is coast defense south of the Chesapeake and along the gulf. On the Pacific coast two more regiments, the Sixth and Sixteenth infantry, will start for Manila this month. The former will leave San Francisco on the Sherman, May 22, and the latter on the Grant a week later.

Within a week it is believed that General Otis will be in a position to begin sending home volunteers from the Philippines by every available steamer, as important reinforcements are about due to reach him. These consist of a regular infantry regiment and 11 batteries of artillery.

FILIPINO CONGRESS.

Desire For Peace Expressed at San Isidro.

By Associated Press to the Journal. MANILA, May 11.—Reports received from the insurgent line which, however, have not been confirmed, say that a meeting of the Filipino congress has been held at San Isidro. There was no quorum present, but in spite of this fact some business was transacted. The reports add that although those who attended were mostly partisans of Aguinaldo, a strong desire for peace was expressed.

Oregon's Men Are Well.

WASHINGTON, May 11.—Rear-Admiral Van Keppen, surgeon-general of the navy, has received a letter from the surgeon of the Oregon, Dr. Stevenson, at Manila, stating that the health of the ship's company is excellent, notwithstanding the trying heat of the tropics. Surgeon Stevenson added: "That admiral (Dewey) is looking well and feeling fine."

LIEN SUITS FILED.

Of Portland Material Men Against Woodburn Odd Fellows Building.

The suit of the Northwest Door Co., represented by Samuel Connell, of Portland, against S. Tomlinson and others of Woodburn; also a suit of Fisher Thorsen & Co., against the same, are being heard before Judge Boise, of this city.

Schnabel, Thayer and St. Rayner, of Portland, and Brown, Wrightman & Myers, of Salem, and Kaiser and Slater, of Salem, and E. P. Morcom, of Woodburn, are engaged in the suit. The suits are brought under the lien law to receive pay for materials used in construction of the new Odd Fellows hall at Woodburn.

A large number of witnesses are being heard and the court will probably not reach a decision today. Tomlinson is the owner of property in Woodburn upon which was used material purchased from the Northwest Door Co., which material was purchased by one Roberts, who furnished it to Tomlinson.

The evidence seems to show that Tomlinson bought the material of Roberts, a lumber dealer, and hired help by the day to do the work; that some of the stuff was satisfactory, and that Roberts worked on the building remodeling it; that Tomlinson paid Roberts for the material; that Roberts paid the money over to the Portland firm, but by mutual agreement between the two, the amount, \$100, was applied to an old debt, instead of to the bill for the material in question which amounts to \$104.

The crucial point of the case is whether Roberts stood in such relation to Tomlinson in the construction of the building, as to give the Door Co., a valid lien through him. The defendant also claims that they trace the payment of \$100 from Tomlinson to the company and that the latter knew it was Tomlinson's money and it should be applied in payment for the Tomlinson material. The case was warmly contested, and was submitted to Judge Boise just before noon, being taken under advisement.

The case of Fisher Thorsen & Co., against S. Tomlinson, which is nearly identical with the other was taken up at 2 o'clock and occupied the afternoon.

Draw a Splendid Audience to Hear Moths

—Comedy the Rest of the Week. The finest house of the week and the largest house to greet legitimate drama at Salem in years, turned out last night in spite of the rain storm to hear "Moths."

The atmosphere of Onida's great society novel was translated to the audience by Miss Shirley and her support. The cast was strong in each particular, of course the star part holding the fascinated attention throughout, and repeatedly gaining applause and recalls. In the closing scenes, when McQuarrie as Prince Zoroff strikes the Princess Vera in the face, and the climax of retribution brought tears to the eyes of ladies and the face of more than one man that had flashed with indignation, expressed the greatest satisfaction.

The rest of the week is to be devoted to first-class comedy. This evening there will be given "Child of the Regiment," a well-known standard drama produced in all the larger cities with the greatest success by Miss Shirley during her eastern tour.

My father was a Baptist minister and died when I was 14 years old. Our home was in Marion, Ia., and I have been on the stage only seven years. I have always felt that I could not present a play or take a part that he could not approve of, if he were living. We are delighted at the patronage your best people are giving us. I had the pleasure of meeting Miss Portia Knight between the acts last night, and found she had made a study of "Vera" and had taken part in the play as "Lady Dolly." I enjoyed her very much. I was impressed with her keen critical judgment of the plays. With her bright intellect, fine face, and eyes and tall handsome figure, she is destined to become one of America's great actresses.
