Cubans May Cause Trouble.

General Gomez and Brook at Loggerheads

General Brook's Communications Not Made Public—Other Matters.

By Associated Press to the Journal. New York, May 16.—The Herald Havana correspondent telegraphs as follows: The situation has become most alarming. To all appearances the Cubans are about to make armed manifestations against the United States and its mode of governing the island, although the conservative element still hopes for peaceful arrangements.

This state of affairs, which was brought abruptly to a head last Saturday by the partial quarrel between General Gomez and General Brooke and has been forming for the last two months. The first move has been made by the army. It will probably be supported by many Cubans. The army, which is really represented, (although many dispute his authority), by Gomez, is particularly against General Brooke, and his policy. The soldiers declare they have been miserably fooled and trapped by Americans. They look upon the exchange of a gun for \$75 as an ignominious transaction for them, as they have not been defeated by the Americans and consequently refuse to exchange.

Some persons say the determination of the army not to surrender their arms is the outcome of General Brooke's refusal to sanction Gen. Gomez' plan for Cuban militia. At the Cuban headquarters the statement is indignantly denied, in particular, by Gen. Gomez, who, however refuses to discuss the present situation.

WASHINGTON, May 16.—General Brooke has not reported any serious situation in Cuba, and it is not believed that any alarm need be felt regarding the condition of affairs. The communications of General Brooke, made to the war department, are not given to the public, but the officials understand that the source of the present trouble is that the generals of the Cuban army is disappointed because they are not likely to realize as much out of the money appropriated for the army as they should.

One thing is assured, beyond all other considerations, that the United States will remain for the present in the absolute control of the island and orders that the officers in command give will be sustained by the government at Washington.

MINERS ATTACKED.

Forty Strikers Attacked Colored Miners Killing One and Wounding Another.

By Associated Press to the Journal. St. Louis, May 16.—A dispatch from Little Rock to the Post Dispatch says that forty strikers attacked forty colored miners behind a stockade, near Hannington, firing volley after volley at them. Two men, who were on guard at the stockade returned their fire, killing one of the strikers. One of the guards was killed and another seriously wounded.

The Idaho Troubles.

WALLACE, May 19.—All day yesterday was consumed by attorney Robertson in presenting the decisions on which was based the application for a writ of habeas corpus for the county commissioners of Boyle and Stimpson counties. Judge Mayhew is hearing the case in the chambers. Unless something unexpected happens, every mine in the Coeur d'Alene district, except the Bunker Hill, will close down on Thursday, even the prospects of employing from one to five men will close.

In the Eye.

John Maurer sustained an accident that might easily have been more serious. Indeed, nothing short of a miracle saved him. While operating a small and rapidly revolving emery wheel it "exploded." Pieces flew in every direction. As luck would have it, the piece that struck John in the eye came upon him with a flat side. Had it wedged and hit him, an eye would have been the cost. As it is, he has but a bruised nose and a black eye to show for the encounter. Other pieces of the wheel embedded themselves deep into the wall.

TRAGEDY AND SUICIDE.

Hon. J. A. Hunter Killed By Mrs. Elliot, a Neighbor.

After Committing the Murder, the Woman Took Her Own Life With Poison.

By Associated Press to the Journal. LORNE, Or., May 16.—Sunday evening about 9 o'clock, Hon. J. A. Hunter, an early settler and one of the most prominent men in Wallowa county, was shot and instantly killed by Mrs. C. R. Elliott, a near neighbor, who then committed suicide by taking poison. There has been a feud of long standing over family affairs between the Hunters and Elliotts, whose families are intermarried, a son of the murdered man having married the daughter of Mrs. Elliott.

About 9 o'clock Sunday evening Mrs. Elliott knocked at the Hunter house and was answered by Mrs. Hunter, to whom she said: "It is not you I want to see, it is Mr. Hunter."

Mrs. Hunter then called her husband, and he got up and dressed and came to the door. On his opening it and without saying a word, Mrs. Elliott fired on him with a shotgun, the charge striking Hunter in the abdomen and ranging upward, death resulting almost instantly.

After the shooting of her husband, Mrs. Hunter grappled with Mrs. Elliott and attempted to take the gun away from her, but was unsuccessful and was told that if she did not stop she would be killed also, whereupon she retired into the house.

Mrs. Elliott then left the house and hid by a foot bridge between the home of her son-in-law and the Hunters', evidently expecting an opportunity to kill young Hunter when he should go over to his father's home, but he was warned by his mother, and they roused the neighbors, who began to search for Mrs. Elliott. They found her dead in a plowed field a short distance from the Hunter home. She evidently found that she could not get a chance to kill young Hunter and had taken poison.

4 O'CLOCK EDITION

Important Telegrams Received Too Late For the Regular Edition.

By Associated Press to the Journal. New York, May 16.—Mayor Van Wyck was in the witness chair before the Muzz commission. He was questioned as to whether he consulted Croker regarding the city government and flatly denied that he did so.

In answer to the question, was it contrary to his notion of political ethics that there should be a leader of the party whose voice should have great significance and weight with the chief executive, the mayor said tartly: "You had better call Senator Platt and ask him that question; he knows more about leadership than I do."

SAN FRANCISCO, May 16.—Jacob Oppenheimer, who is serving a life term in San Quentin penitentiary, last night attacked a guard named McDonald, stabbing him five times. The guard will die.

SOME SPOTTED-TAIL METHODS.

How the Mongrel City Government Grafs the Public.

One James Turk was this morning brought before Recorder Judah, upon complaint of a South Salem lady, charged with trespass, he having slept in an unused barn upon premises occupied by her. The man is a fisherman, who had been in the mines south of here, and is on his way home to Astoria.

He pleaded guilty to the charge, but as to all appearances, he was not a rank hobo, but a hard working man out of luck, Recorder Judah withheld formal arraignment and gave the man until 2 o'clock to leave town. This case cost the public not one cent for court expenses or for hearing the prisoner, whereas a bill might have been run up for about \$12 court fees and 25 days' board in the county jail, or the city might have had a board bill for 20 days.

Thus doth the spotted-tailed, mongrel city administration graft the public treasury.

Ex-Governor Lord of Oregon deserves to be read out of the Republican party for gross disloyalty to Republican traditions. His declination of the tender of the Porlan mission is calculated to arouse the suspicions of the Republican war horses if not their deep enmity.
