A Pernicious Habit.
Yesterday a gentleman hired a rig at a
Salem livery barn and later in the day
the rig was discovered wandering around
in Yew Park and the driver was sound
asleep. Livrery men should be more
careful who they let rigs to. The above
party was seen near the railroad track
and had it not been for the assistance of
friends when the freight train came
along might have been killed.

Four-Horse Runaway
This forenoon the four-horse team of
the Stayton Flouring mills took a run on
Commercial street, from near Center to
Branson's corner. The wagon and harness
were somewhat tangled and demol-
ished and one horse badly thrown, but
no great damage done.

XXXFOR COMMENCEMENT!
About Bearings
Did you ever pick up a wheel and
find it would spin like a top, and
then when you get on to ride it find
it pulled so sluggish and hard that
you'd rather walk?
There's several "why's" for that.
One of the biggest things, often over-
looked, is the shape of the bearings.
The cups and cones must be so made
that when the rider mounts his
wheel the weight will not tend to
"wobble" the balls and make the
wheel run like the bearings were
tight.
That's the trouble with some other-
wise good wheels.
Come and see a set of bearings so
perfectly made that any way you
use them they are always perfect.
