

Veteran

L. W. Stone,

Anti, Iowa, served his country during the late war at the expense of his health. The story concerning his restoration to health is given below in his own words:

"When I returned from the army my constitution was broken down. I suffered extreme nervousness, and indigestion. Physicians did not help me until one prescribed Dr. Miles' Nervine, and today I am in better health than I have been for thirty years."

DR. MILES' Restorative Nervine

INTERNATIONAL NOTES.

It is asserted that a German workman has invented a process of manufacturing artificial coal from earth and certain mineral residual substances, that the product gives great heat, and that a kilogram when burned leaves only nine penny weight of ashes. If this be true, in view of the destruction of the forests, the constant drain on natural coal deposits, the increased use of machinery, and the tremendous growth of cities, it will be one of the most important inventions of the century.

A great tea case has been tried in London. Sir Thomas Lipton, whose business is immense, has included the weight of wrappers in parcels in which tea is sold. He was fined ten pounds and costs. There was no charge of an intent to defraud, as the practice is general. The court holds that the practice is in violation of law. If this decision is sustained on appeal, it will make a difference of eighty-five thousand dollars per annum in his profits, unless he raises his prices.

Paper money cannot be used in the Philippines on account of the islands being infested by ants that eat almost everything, and are especially fond of paper. In a recent shipment of money for the troops, was one million dollars of paper money of small denomination; but a warning was sent here that nothing but gold and silver must be sent to the islands, as the ants had attacked these packages, the notes being saved only by the greatest care.

It is proposed to build a one-rail railway from Manchester to Liverpool, a distance of thirty-three miles, the time to be twenty minutes. A committee has been considering the plan for months. The total cost of construction and equipment is seven million dollars. There will be no intermediate stations. The committee is convinced that the enterprise will pay. If it is successful a similar arrangement will be built between New York and its suburbs, and what now requires an hour and one-half will be made in less than thirty minutes.

The Stella Polare sailed on the morning of June 2, from Christiania, Norway, on a new effort to reach the pole. It carries the Duke of Abruzzi, the nephew of the King of Italy, a captain and lieutenant of the Italian navy, a physician, two Italian sailors, four mountain guides, and ten Norwegian sailors. There are also on board one hundred and twenty dogs and an Eskimo for the management of them. The duke is 26 years of age, and a few years ago he climbed Mount St. Elias in Alaska. He will try to reach the pole by the way of Franz Josef Land, camp this autumn somewhere in that region, purposing next summer to push over the ice for the pole. The ship is supplied with provisions for eighteen months and is admirably equipped with scientific instruments.

ITEMS OF INTEREST.

Russia contains more than twice as many blind persons as all the rest of Europe combined.

The Russian statistical society which is authority for this statement, places the number at 19,000, or two in every thousand of the population.

In France and England the blind are not quite one per thousand. The excessive blindness is believed to be due to the long snow season and the uncleanly habits of the people. Of all these 190,000 but two or three can read, and only about 2,500 are cared for in institutions for the blind.

A carriage weighing 1,700 pounds, and propelled by a six-horse power motor made a trip recently from Cleveland to New York, a distance of 707 miles in a running time of 40 hours and 4 minutes. An average speed of 17 1/2 miles per hour, although part of the distance was covered at the rate of 20 miles per hour. This trip would seem to indicate that rapid long-distance automobilism will be within the reach of the public in the near future.

Some one said that the three most important problems demanding solution in our cities, so far as physical conditions are concerned, are rapid transit cleanliness and quiet.

A writer in the Electrical Review says the horse is the chief hindrance to the accomplishment of these ideals.

Upon this patient long suffering servant of man is laid the charge of furnishing slow and clumsy transit, of producing either directly or indirectly nearly all the dirt, and in connection with the rattling of vehicles, most of the noise.

He says: "let the horses be banished to the rural districts along with other animals which are a part of farm life." Then swift electrical conveyances will transport both freight and passengers, will make no litter, nor noise, because equipped with pneumatic tires and run on smooth asphalt streets. "Thus by one radical change is the city to be reduced to the cleanly quiet of a June morning in a wood-land park. It may require long life to see the realization of this desideratum." Nevertheless it is a most desirable thing to see.

Sweet, refreshing sleep is given by Hood's Sarsaparilla, which feeds the nerves, tones the stomach and cures all dyspeptic symptoms.

SEVEN SUTHERLAND SISTERS' preparations kill microbes and remove dandruff. Their constant use for a period will, by acting directly on the hair bulbs, furnish nourishment, vitality and growing power to the impoverished roots and hair shafts, resulting in complete restoration.

SOLD BY DRUGGISTS.

To cure La Grippe, keep warm, especially the feet, and take Dr. Miles' Nervine.

Hood's Sarsaparilla

In many important particulars, Hood's Sarsaparilla is peculiar to itself. It is far ahead of any other medicine as an electric light is ahead of a tallow dip. The ingredients used in making it are selected with the very greatest care, and are gathered up at the time they possess the greatest remedial value. The peculiarly aromatic compound, prepared in Hood's Sarsaparilla, are unknown to any other, thus making Hood's Sarsaparilla peculiar to itself. The value of this peculiarity is best shown by actual results. And Hood's Sarsaparilla has a record of cures unequalled in medical history. Has more of them, greater successes, better testimonials than any other medicine in existence. Cures extreme cases of blood-poisoning, scrofula, salt rheum, rheumatism, catarrh, and all other troubles traceable to impure or vitiated blood. Possessing great stomach-toning qualities, it cures indigestion, dyspepsia, and all other ailments of the stomach, etc. It builds up the nerves, restores mental strength and curing nervous prostration. As a natural tonic, it strengthens the whole system and cures that tired feeling which it does for you. All we ask for Hood's Sarsaparilla, is a necessity, an opportunity and a fair trial. Be sure you get Hood's. Sold by druggists. Prepared only by C. I. Hood & Co., Lowell, Mass. If never disappoints.

Peculiar to Itself
