OREGON TROOPS

Given a Royal Welcome.

By the Citizens of San Francisco.

Looks as Though The Men Would Be Discharged at San Francisco.

By Associated Press to the Journal.

SAN FRANCISCO, July 14.—Not since the departure of the California volunteers for the Philippines have the streets of San Francisco presented such a scene of animation as did today, nor have the steam whistles, cannons and bells created such a rumpus, and all this in honor of the return of Oregon volunteers and the California signal corps, who have returned from foreign shores after over fourteen months of hardship and fighting.

Some are gaunt and sick, broken in health and some bearing marks of Filipino bullets. Others are returning to their native country full of vigor and life, and even bettered by the trying experiences in a tropical climate and a vigorous campaign against the followers of Aguinaldo.

Early in the day great crowds of people commenced gathering along the line of march. As the waiting crowds became fully aware that men were actually in sight the din and roar of mechanical noises, mingled with the cheers of thousands, made it seem as if a hell had really broken loose.

The first in line of march was Major Noble, General Shafter's aid, followed by the band of the Third artillery. Then came Governor Geer, of Oregon, and staff, followed by the Californians who shared cheers with the Oregonians.

Then came the Oregon regiment, headed by Brigadier-General Summers and the band. As the men marched up the street they made a splendid appearance. The ambulance corps, bearing the sick and wounded, followed, then battery C, of the Third artillery.

All along the line of march the men were cheered to the echo.

As the soldiers passed the palace hotel that they were deluged with flowers, thrown from the windows by the guests.

General Shafter and staff, and Governor Geer and staff, and many noted army officers reviewed the parade as it passed up Van Ness avenue.

At Presidio the men will rest under military discipline for two or three weeks, when the final mustering out will take place and they will be sent to their homes by train.

From all that has appeared it is not certain that the order issued by the war department for debarking the transports at Astoria has ever been recalled or cancelled. A Frisco dispatch to THE JOURNAL Thursday had it that a telegram, was received there from the department at Washington announcing that the Oregon volunteer regiment would be mustered out at Frisco and travel pay and commutation rations would be issued at Frisco. But this does not annul the order issued to the transports to go to Astoria with the Second Oregon. Under its land grant contract the Southern Pacific is not required to furnish free transportation to troops who are mustered out.—En. J.

What Oregon Must Do.

SAN FRANCISCO, July 14.—If the citizens of Oregon will supply a special train from San Francisco to Portland and furnish free tickets to the four companies of the Willamette valley, so that

they may get to their homes without expense, the Second Oregon will be brought to Portland in a body, make a parade and then disbanded. Under any other circumstances they will be disbanded here.

General Summers is very anxious to meet the wishes of the people of Oregon, but says that the plan just stated is the only one that can be considered. This is the plan of several Western states. Any other, he says, would involve a money sacrifice to the men. In case a train is chartered, the men would be paid en route, just before their arrival in Portland.

Under the regulations, their arms must be turned over to the government here, but Governor Geer has promised that they shall be supplied with arms from the state, to be returned to the state immediately after disembarkment at Portland.

Governor Geer, of Oregon and his staff will leave for Portland today.

Will Be Paid Saturday.

SAN FRANCISCO, July 14.—Saturday the Oregon regiment will receive pay for May and June at the Presidio, so Paymaster Ross announced much to boys' gratification.

All the officers of the regiment are anxious to have the men receive their final pay in Portland, and will make every effort to accomplish this end, chiefly for the protection of the men, who, when they are once free from the "hurry" of coming, will have something to pay expenses while they may be looking for employment, and not resume civil life dead broke.

Got Poor Uniforms.

SAN FRANCISCO, July 14.—Among the privates of the Second Oregon there is a feeling that the state has not been generous in the matter of equipment. When the boys enlisted, they received National Guard uniforms, which cost them \$18.02 each. Many of the garments were not new. On the outward journey a board of survey was held at which a price of \$9 to \$10 was fixed as the estimated average of value of clothing equipment for each man a little more than half the price of regular government uniforms. The report of the board of survey was recently approved and \$9 to \$10 will be withheld from the final pay of each man.

Some of the states gave the National uniforms outright to the men, but the Oregon military board, while imagining they were selling uniforms to the United States government, actually sold them to the boys, because every man must refund to the government the cost of clothing. When the suggestion was offered during enlistment that the state make a donation of the uniforms, it was answered that account could not be "fixed," so as to pass muster. What should have been done to call a board of survey, condemn the uniforms, and then give the clothing to the boys.

WORK OF HIGHWAYMEN

Two Men Robbed One Killed—Work of Robbers.

By Associated Press to the Journal.

SPokane, July 14.—Matt Schlott was held up, robbed and mortally shot about 11 o'clock last evening, near the Northern Pacific roundhouse. He died half an hour later.

About the same time two masked and armed highwaymen held up the proprietor, Will Meyers, in the New York Exchange saloon. He showed fight, was horribly beaten by the robbers, who took his watch, robbed the till of the day's receipts and escaped. The same men are supposed to have been responsible for both crimes.

Idaho Cases.

WALLACE, July 14.—George Olmsted and L. W. Hutton, conductor and engineer of the stolen train were on the stand this morning, and testified that just as ready to leave Burke, the masked men bearded the engine, taking charge of the engineer, giving him orders where to stop, thereafter At Wallace the masked men ordered them through to Warden.

GLASSES

are not a sign of old age. The youthful eyes need regulating as much as the older eyes need help. We can assist both. In our

OPTICAL DEPARTMENT

are instruments for testing the sight and a skilled optician to fit glasses to weak or defective eyes. Examinations are free. Call and see us when in need of glasses.

NEARING HOME

Admiral Dewey in Quarantine.

Americans in Transvaal Favor Great Britain.

Other Foreign News Cables of Interest.

By Associated Press to the Journal.

WASHINGTON, July 14.—The following dispatch was received from Admiral Dewey today: "Port Said, the Olympia is in voluntary quarantine. As soon as cooled I will immediately proceed to Trieste for partique and recuperation of officers and men."

The reference to practice, simply means he is going to Trieste, to get a clean bill of health that will enable him to continue his journey through the Mediterranean without any delays from the health authorities of various ports.

New York, July 14.—A special to the Herald from Washington says: Although taking no active part in the effort to obtain redress for the Uitlanders in the Transvaal, the administration sympathizes with Great Britain in the endeavor to obtain concessions from President Kruger.

Information in the state department shows that the Americans in business in the south African republic are restricted as are other Uitlanders.

Fares Reduced.

DETROIT, July 14.—"Three cent fares" are announced today on the fronts of all Detroit street cars. Newspapers are opposing the Pingree plan and it is claimed the majority of the citizens opposed it on the ground that three cent fares and quasi municipal ownership will fall to pay expenses and the \$17,000,000 proposed to be paid for the roads.

PNEUMATIC DYNAMITERS.

And Gatling Guns Will Be Used on Rebels This Fall.

New York, July 14.—A special to the Herald from Washington says: Dynamite guns are to be used by the American troops in the fall campaign against the Filipinos. Preparations are being made by the ordnance department to supply General Otis with six Sims Dudley pneumatic weapons. The tests made at the Sandy Hook proving grounds of a gun of this type proved very satisfactory.

A gun of the same make was used by the Cuban insurgents in their operations and General Garcia declared that several towns were made to surrender as a result of the use of this weapon. Besides the dynamite guns, gatling guns will probably be sent to General Otis and the army transports are to be

armed with six pounder rapid fire guns to prevent any possible attacks by insurgents.

Another Trust.

BIRMINGHAM, Ala., July 14.—The Herald says: The Sloss Iron & Steel Company will probably soon go out of existence as a separate organization. A new company is to be organized to include the Sloss company, the American Coal Company, the Ensley Furnace at Sheffield, the Philadelphia furnace at Florence, the Creek Coal & Coke Company and other coal and iron companies of Alabama.

This proposed new company has been perfected within the past few days by the consolidation of the various companies mentioned above. It is probable that this combination will effect a consolidation with the Alabama Coal & Iron Company, recently organized by the International Trust Company, and the John Shelton Williams syndicate. This latter organization was effected by a Baltimore party within the last six weeks.

The new company, composed of the Sloss, the American Coal and other properties mentioned above, was just organized. The plans were perfected yesterday. The consummation of the organization will be effected today. This new company will rank second in importance only to the Tennessee Coal & Iron Company. Its stock will probably be listed on the New York stock exchange within the next 60 days.

Declared Insane.

Mr. Fred Schiele, of the Prospect Hill neighborhood, was today brought before the county court upon charge of insanity, and was upon examination committed to the asylum.

Magdalena Hardtitz, aged 72 years, of Columbia county, was also committed today.

BISHOP THORBURN

Speaks of the Filipino and American Outbreak.

By Associated Press to the Journal.

CINCINNATI, July 14.—Bishop Thorburn, of the M. E. church is here. The bishop spent some time in Manila in March last. He says there is no doubt of the outbreak between the Americans and the Filipinos was intended by the Filipino leaders to include a general massacre in the city of Manila.

The whole history of the present Philippine situation, the bishop declared, showed that such was the natural and inevitable course of events and that the United States is bound to assert its authority there.

Leilie Galbraith, of Denver, Colo., one of the leading race track men of the Northwest. He has a fine lot of hurdle racers and 15 horses coming up for the Fair races Monday, and has seven more if he can arrange matters for some hurdle races.

It is preposterous for any one to enter the field against McBride for senator. He has already eleven relatives in federal offices and more on the list of eligibles.

ALASKA GOLD

More Rich Discoveries.

Steamer Alliance Arrived Today.

Brings News From Cape Nome—Other Mining News.

By Associated Press to the Journal.

SEATTLE, July 14.—The steamer Alliance arrived this morning from St. Michael. She brings advices from the newly discovered gold fields at Cape Nome. The prospectors were confident the country would prove very rich. Pans from two to four dollars were common.

Only one clean up has been made thus far, that of Gabe Price and Lewis Lane, on Anvil Creek. With four men shoveling in eight days they took out \$98,000. Alliance has several passengers and a small amount of gold dust.

PORT TOWNSEND, July 14.—The Orizaba, arriving from the north early this morning, brings 50 returning Klondikers, most of whom have gold dust ranging from \$1500 up to several thousand. The ship's strong box contains 100 pounds of yellow metal from the interior. This party arrived up the river from Dawson on the steamer Terrell.

Some of the passengers, direct from Atlin, report that claims in that district are being worked. They say that Judge Irving, who was sent to Atlin to straighten out mining properties, is giving great satisfaction, and is awarding all claims to original locators, and they are permitted to commence work. He makes no distinction between Americans and Canadians, and holds that Americans who have taken out miners' licenses, in accordance with the laws of British Columbia, prior to the passage of the Alien exclusion law, are entitled to the same privileges as Canadians.
