Comrade S. H. Burtis

of Lewiston, Ill., had some thrilling experiences, but none seemed more dangerous than those of his late heart trouble. He says: "I had severe palpitation of the heart for years. My physicians said I was liable to drop dead any moment. Pulsion at times would be 150 a minute and I could scarcely breathe. I grew worse under doctor's care and began taking Dr. Miles' Heart Cure. It gave me prompt relief, and today I am in good health."

THE HOP CROP.

Report on Conditions in New York, England and Europe. The recent rains have brightened up the vines considerably but as most of them are in the burr they will not grow much more. It is generally acknowledged that the vine was seriously checked from one cause or another and failed to arm out or grow as it should. This is the general complaint from the hop growing sections of the state. The crop, therefore, promises to be much short of a full one.

Crop advices were variable, and upon the whole indicated somewhat unfavorable growth of vine in New York State, yet causing no increase in the late estimates of probable shortage in the crop. There was also a smattering of unfavorable accounts in the reports from some localities on the Pacific Coast. However, buying interest is not stimulated perceptibly, and probably the only stir in the direction of circulating reports of high bids for 1899 crop in the face of sales at 15c and thereabouts to brewers.

A correspondent of the Waterville N. Y. Times writes that paper as follows: It is said and seems to be true that hops are continually doing the unexpected. Said a dealer last fall, "If we export as this year as last the price will go to 25c." We have exported 20,000 bales more and the price has been 10c.

So of the growing crop, we are sadly disappointed, for we have the worst case of curled leaf blight remembered. And so curious no one can even suggest a cause which satisfies the conditions. It has been called "a scald" and thought to be the result of hot sunshine, but this theory fails to suit the case. What over the origin, the results are evident and bad. For a time the plant energy is gone and it stands still, the vine joints become fixed at about one-fourth the healthy distance apart. The underside of the leaf contracts, causing the curl of the leaf which is a conspicuous feature—portions become an injured light green and the edge of the leaf in some cases and to some extent dry and brown. After the malign influence has ceased, the plant energy and healthy growth is resumed of a light green color but the new growth is slender, thick and fuzzy. How much this check and change of growth may injure the quality or amount of the crop, no one can foretell with any reasonable precision.

This will not be a top crop for a feature this season is a lack of top growth. The upper arms are short or none at all and the tops of the poles are conspicuously bare. Some lice can be found.

All that has been said of the strong statistical condition of supply and demand is proving true, but all of the skill of the manipulating dealers has been brought in play to depress prices in the hope of securing Pacific ironclad contracts. The crop estimated and reported in the Commercial Bulletin by the dealers at 193,000 bales will gain only 150,000 bales at the most as estimated by a reliable man on the ground. The state crop must be very much less than last year and the United States crop cannot from the standpoint of today be a bale more than in '98 at the most, with many probabilities of being smaller in the aggregate.

HOPE GROWER.

CONDITIONS IN EUROPE. Various reports from the hop-growing districts of Sussex, England, concern in its state and that the line has made greater progress during the past week than at any previous period this season. At the same time, however, there are complaints of the backwardness of many grounds that have not been looked after in those the line has not yet reached the top of the poles and the lateral are very slow in coming out. There is rather more vermin than was discernible a week or ten days ago.

Putting up a New Line. A force of linemen, employed by the Oregon Telephone & Telegraph Company, reached this city last evening and will at once begin the work of stretching a line between this city and Albany.

People say Hood's Sarsaparilla cures when all other preparations fail to do any good, and you run no risk in giving it a fair trial.

Pullman Service to Yaguina. The first Saturday night excursion to Yaguina was well patronized. This new regime with a Pullman car service to Oregon, popular seaside resort promises to become very popular. Business men in any city down the valley can take the night train to Yaguina get a good night's sleep and reach the ocean in time for breakfast, and after spending a whole day at the beach can return on the night train in time for business next morning. Take the overnight train at Salem at 9:45 p. m., Saturday.

Three Tons of Gold. SEATTLE July 20.—Over three tons of the gold brought from Alaska by the steamer Roanoke was deposited by the United States assay office today. It was the property of 100 individual depositors and aggregated in value about \$1,600,000. The deposit of the Canadian Bank of Commerce was contained in 16 boxes weighing 400 pounds each. Its value expressed in dollars was \$1,250,000.

MARK LANE EXPRESS REPORT. The plantation reports are on the whole fairly encouraging. My own observation confirms the irregularity and backwardness of growth, which many of my correspondents refer to but I am glad to hear that thus far insect pests have not been troublesome, beyond the early attacks of flea and wireworm, and now the bine is gaining in strength we may hope for comparative immunity and release from large outlay for washing and it is equally clear that the merchants desire to handicap the inevitable advance to the utmost of their power. They understand the position as well as we do, and they know that they will be compelled to double or triple every shilling they now yield. Every time the new crop arrives. Every effort is, therefore, being made to sit upon today's market, and hinder its expansion.

Let there be a substantial note of alarm heard from the plantations. It will be echoed in the Borough with startling rapidity. We are now therefore waiting upon Nature, and shall be chiefly influenced by what she unfolds to us.

American hops are still the reserve for buyers, and but for them the value of English would be raised at once. Californians of even medium qualities are, however, reducing in quality, and the advancing market at New York is

"Hail, Spring's First Born Flowers."

How welcome they are, these new blooming blossoms. They are purity personified, these bits of life, with their bursting buds, joyous in their first sight of Spring. There are no impurities about them.

Humanity, however, continues to have its troubles, most of which can be traced to impure blood.

But humanity rests more contented now, for it knows that Hood's Sarsaparilla, the wonderful blood cleanser, never disappoints. You need it today.

Poor Blood.—The doctor said there were not seven drops of good blood in my body. Hood's Sarsaparilla built me up and made me strong and well." SCARLE E. BROWN, 16 Astor Hill, Lynn, Mass.

Poor Health.—Had poor health for years, pains in shoulders, back and hips, with constant headache, nervousness and no appetite. Used Hood's Sarsaparilla, gained strength and can work hard all day; eat heartily and sleep well. I took it because it helped my husband." MRS. ELIZABETH J. GIFFELS, Moose Lake, Minn.

Tumors.—A tumor as big as a large marble came under my tongue and instead of letting my physician operate on it, I used my favorite spring tonic, Hood's Sarsaparilla. The tumor soon disappeared." MRS. H. M. COBBURN, 8 Union St., Lowell, Mass.

Catarh.—Disagreeable catarrh dropping in my throat, made me nervous and dizzy. My liver was torpid. Hood's Sarsaparilla corrected both troubles. My health is very good." MRS. VIRGINIA J. SMILEY, 171 Main St., Auburn, Maine.

Dyspepsia, etc.—A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, indigestion, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured." W. B. SUTLEY, 1374 W. 14th Av., Denver, Col.

Impure Blood.—Five years I suffered with pimples on face and body. Hood's Sarsaparilla cured me permanently. It also cured my father's catarrh." ALBERT K. CHART, Tustin City, Cal.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver ills, the non-irritating and only cathartic to take with Hood's Sarsaparilla.

increasing the tension, and causing holders on this side to consider the propriety of a change. Should this be carried into effect, consumers will be driven to buy English hops at any price, and there is an almost certain opening for an important advance in values during the next month or so.

There is more Catarrh in this section of the country than at other districts put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. A. O. U. W. Grand Lodge.

The A. O. U. W., grand lodge at the Dalles elected its officers as follows: Grand Master, D. C. Herrin, of the Dalles. Grand Foreman, Ralph Feeney, of Portland. Grand overseer, C. C. Hogue, of Albany.

Grand guide, J. M. Dixon, Lafayette. Grand recorder, Newton Clark, of Hood River. Grand receiver, R. L. Durham, of Portland. Grand inside watchman, C. H. Dye, of Oregon City. Grand outside watchman, J. E. Melinger, of Dayton.

Grand trustee, Geo. W. Proehstel, of Weston. Supreme representatives, Wm. Colvig, of Jacksonville; E. L. Smith, of Hood River, and Newton Clark, of Hood River.

The Salem men decline to run for any office, as they want the grand lodge in Salem next year, and may get it. The Degree of Honor also elected its officers, with the following result: Grand chief of honor, Miss Maggie Baker, of Albany.

Grand lady of honor, Mrs. Stephens, of the Dalles. Grand chief of ceremonies, Mrs. Belknap, of Prineville. Grand recorder, Mrs. D. C. Herrin, of the Dalles. Grand receiver, Mrs. Dr. Mason, of Dallas.

Grand usher, Mrs. Laura Smith, of Baker City. Grand inside watch, Mrs. Fastabend, of Astoria. Grand outside watch, Mrs. Simmons, of Grants Pass. The supreme representatives are not yet elected.

CASTORIA. The Kind You Have Always Bought

Signatures of Castoria. Happy Thoughts. To please, attract and give people something to talk about, is an art in writing a prosaic advertisement. Hood's Sarsaparilla, in the original form, is an extensive use of the idea of using proverbs and wise saws as a prefix to a pleasant introduction of the well-known virtues of America's greatest medicine. These quaint quotations follow the news of the day with startling directness and the moral is easily drawn, with natural good to Hood's Sarsaparilla.

The Salemites who went to the Klondike, have most all left for home, and those remaining there will come as soon as they can secure enough of the yellow dust to repay them for the hardships endured since leaving home.

A Child Enjoys. The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be costive or bilious, the most gratifying results follow its use. It is the best family remedy known and every family should have a bottle. Manufactured by the California Fig Syrup Co.
