SHIP RELIEF

Lands the Sick and Wounded.

A Dozen of the Oregon Men are on Board.

Filipinos Driven Back Near Elparido By Americans.

By Associated Press to the Journal. SAN FRANCISCO, Aug. 2.—The hospital ship Relief arrived this morning from the Philippines. The Relief has 320 men on board, most of whom are sick and wounded soldiers. The Relief proceeded to a point off the Presidio, where the government vessels McDowell and Caroline are utilized in transferring the sick and wounded to shore. Among the sick on the Relief are 12 men of the Oregon and 5 of the Washington regiment. Two men of the Wyoming regiment died on the voyage.

MANILA, Aug. 2.—Mail advices from Cebu announce that a company of Americans last week attacked the Filipino trenches two kilometers from Elparido. The rebels were commanded by brothers Climaco, prominent and wealthy persons. The Charleston shelled the enemy and the Filipinos retreated. American casualties slight.

WASHINGTON, Aug. 2.—Otis cables additional casualties: Wounded July 26, near Calamba, first Washington company, Spain Woodruff, neck, slight.

WASHINGTON, Aug. 2.—Following is from Commander Logan, of the gunboat Machias, Santo Domingo: "United States consul says the death of Henreaux has no political significance. Motive for assassination is supposed to have been personal revenge. No disorder exists."

From the Presidio. Joseph Fones received a letter from his two sons at the presidio this morning. They are members of the famous Second Oregon and will leave there Tuesday evening and be home Thursday. Not a member of Co. K but in good health. Lee Fones canvassed the company and 90 men declared their intention of coming to Salem.

FLAG AT HALF MAST.

Tenth Pennsylvania Brought Dead Colonel Into Port.

SAN FRANCISCO, Aug. 2.—The United States transport Senator arrived last night from Manila with her flag at half-mast, on account of the death of Colonel Alex Hawkins, commander of the Tenth Pennsylvania regiment, United States volunteers.

The Senator sailed from Manila on July 1, with 88 officers and 721 soldiers. The transport was at Nagasaki on July 15, when Colonel Hawkins was taken ill with cancer of the bowels, from which he had been a sufferer during the greater part of his campaign in the Philippines, and for which he had undergone treatment in the military hospital at Manila. His illness continued during the following day (July 16) when the Senator was at Yokohama, and two days later he passed away at sea.

After the death of Colonel Hawkins, the command of the regiment was vested in Lieutenant-Colonel Barnett, who, like the dead colonel, is popular among the enlisted men, and made a good record in the war.

Of the 759 officers and men whom Colonel Barnett brought to San Francisco, three are privates in the Sixth artillery, United States army, and one is a member of the Nebraska regiment, who was left behind at Yokohama when his companions sailed for this port on the Hancock. A dozen stowaways were also concealed in the hold and were only brought to light after the Senator left Yokohama.

When the Tenth Pennsylvania sailed from San Francisco for the Philippines last year the muster comprised 850 men. Twenty-four were killed in battle or died in the Manila hospital and the rest of the sick and wounded to the number of seven are on the hospital ship Relief, which will probably arrive here within the next few days.

Like the Oregon and Nebraska regiments, the Pennsylvania troops, prior to sailing from Manila, voted in favor of being mustered out in San Francisco. The Pennsylvania troops will disembark and march through the principal streets of the city to the model camp prepared for their reception at the Presidio, where they will remain until mustered out.

FRUITS OF ORGANIZATION.

School Buildings Will Be Painted by Salem Union Labor.

The board of directors of school district No. 24 held a special meeting Tuesday for the purpose of completing arrangements for the painting of the school houses.

Hulery & Jenkins, the Eugene painters, who desired the school board to sign their contract, as Judge Davidson, a member of the board, facetiously remarked, instead of signing the agreement prepared and forwarded to them by the board, notified the board by letter of their inability to comply with the terms of the contract, and instead, substituted a compact of their own manufacture, which they forwarded to the board, duly signed.

Upon motion, the action of the board by which the contract for painting the East and North school buildings for \$225 and \$77.50, respectively, had been awarded to Hulery & Jenkins, was rescinded.

The next lowest bidders, willing to comply with the terms of the contract, being the Brotherhood of Painters, Paper Hangers and Decorators of this city, the board then awarded them the contract on their bids of \$400 for the East school and \$120 for the North.

The work will begin next Monday and the method by which the Union will carry it on is practically as follows: The officers of the organization will appoint a foreman under whose supervision the matter will be. Every painter who is a member of the union and who desires to work on the job will be given employment.

It is expected that the job will yield wages at the rate of \$2.50 per day, but no workman will be paid off until the work is completed. Then after all other bills are paid, the money remaining will be divided among the workmen in exact proportion to the number of day's work performed by each, insuring each man the highest wages possible, and his full share of the profits.
