**THE DAILY JOURNAL**  
BY HOPPER BROTHERS  
THURSDAY, AUGUST 3, 1899.

There seems to be a general desire on the part of the people that the Second Oregon be cordially and royally received, as a whole, by companies or by squads. This is the feeling in the hearts of the people, and it has genuine patriotism and common sense back of it.

So the Second Oregon regiment will get the best welcome and the most cordial greeting there is in the gift of the Oregon people, no matter in what old way they come straggling home. If they had come as a regiment to this part of the state, the country would ring with enthusiasm and praises for their glorious record.

Not having been able to get the regiment as a whole to Portland, the powers that be will probably not allow the regiment as a whole, in the full panoply of war, to come to Salem.

While the JOURNAL believes in maintaining respect for the military authorities of the State, it still thinks the expense of bringing the regiment to the state as a whole, and letting it be seen as a regiment in uniform, fully equipped and under arms, at the principal cities should and could have been borne out of the state treasury.

Let those who declared it would be illegal to use the state military fund to bring the Oregon regiment home as a regiment remember that the state military fund is collected, and will not be returned to the people, and will not be covered back into the treasury.

### LIGHTENS LABOR

Cobwebs about a house are usually the sign that the housewife has more than she can do. The way she goes about it; that all her time and strength are utilized in doing heavy work; that she uses soap in her cleaning. If she would only use

heavy work would be lightened that the little things needn't be neglected. Gold Dust gives a woman time to rest, time to visit, time to read, and time to sew. It is much better and cheaper than soap for all cleaning. For greatest economy buy our large packages.

an attorney been employed for this work his charge would have been not less than \$25. Recorder Judah has drawn all the ordinances so far and his ability is not questioned. There may be legal defects in the charter and in these ordinances, but there were in nearly all the charters and ordinances the city has ever had and those were nearly all paid for.

### JOURNAL X RAYS

Old second-hand suits for the Oregon boys at the price of new ones will never satisfy any one.

Refunding the money wrongfully taken from the Oregon soldiers for old suits would be simply justice.

Several newspaper men have been bathing on the river front of West Salem and steamboat men report the bar rising just below there.

There are some noble people at Portland but no one can deny but there is a pretty strong combination of commercialism and muckraking left there still.

Teacher: "Johnny, can you tell me the chief product of the Philippine Islands?" Johnny: "Yes'm, trouble." - N. W. York Life.

Under the new dog ordinance all licenses go into the city treasury instead of the pockets of the dog police. That's a mean way for the new administration to save the city's credit!

The Governor of Pennsylvania seems to be a strong combination of commercialism and muckraking at home affairs. He met his regiment at 'Frisco and took them home across the continent in a special train.

Salem business men have had so many subscription lists presented to them of late that they begin to look about for the old person, who in every extremity said: "Let's take up a collection."

Gov. Geer has conceived the laudable purpose of having a medal struck for each of the Second Oregon from some of the old bronze cannon captured at Manila. Patriotic orders are also to have a chance to get an old cannon as a memento of the war.

John A. Wakefield, Secretary of the Omaha exposition, made us a general report of the finances of that enterprise. It appears that Oregon contributed \$10,000 by private subscription. No mention is made of the \$15,000 appropriation by the last legislature. If there is any other old town like Omaha, Paris or Skaneateles that wants to mulct Oregon of anywhere from \$10,000 to \$50,000 for a local show we can direct them to the fellows in this State who manage such enterprises.

Work on the Soulanges canal near Montreal is all but completed and if present plans do not miscarry this waterway, which is the last link in the chain of improvements that the Canadian government has been making along the St. Lawrence river for a number of years, will be formerly opened with public ceremonies within the next few weeks.

The White Star line today inaugurated a regular service of steamers between Liverpool and Australia. The company, having sold all of their sailing ships, will conduct the new service with five first-class twin-screw steamers constructed by Messrs. Harland and Wolff.

The new charter was drawn up by a citizen's committee who made no charges for their services. The bond ordinance introduced last night and published in THE JOURNAL was drawn up by City Recorder Judah. Had

### Burlington Route

## You Can Get a Lower Berth.

With one exception the through trains of the Burlington Route are almost invariably well-filled. The exception is our St. Paul and Chicago. On the latter there is usually room and to spare.

Don't infer that it is neither so fine, nor so fast, as ANY train of ANY other line between St. Paul and Chicago. On the contrary, there is no more beautiful train in America. It has electric light, steam heat, wide vestibules, the most satisfactory dining-car service on the continent—and lower berth for everybody.
