THE PACIFIC MONTHLY.

This magizine for August is a credit to the Northwest Pacific coast in every respect. It is pervaded by an atmosphere that it may be said to have created—appreciation for the West and things Western. The Overland Monthly must look to its laurels, for here is fiction, historical research, poetry, editorial opinions, criticism, all on the newer, higher and better planes of thought and culture—setting a new pace in the realm intellectual. The most beautiful poems produced in the past history of the West adorn its pages. If the Pacific Monthly continues on its unbroken career of success it will build up forces for the uplifting of higher standards of public and individual life, activity and responsibility in Oregon. That is what the state needs. It has been dragged beneath the juggernaut of low aims and small politics for decades, until few dared think of anything higher than personal success and then not always mindful of how it was achieved. The work of the Pacific Monthly seems to be in the direction of infusing a more chivalric and less material spirit into the order of the day and it is producing results not by main strength and cudgelling, but along the more effective and scientific lines of recognizing what is best in our people.

DIRECT LEGISLATION.

The series of articles in THE JOURNAL will be resumed as soon as the farmer who is preparing the articles gets over his busy time.

The record of the legislature will be completed in several more round-ups as soon as the preceedings of the regular session are completed by the state.

A BUSINESS OPENING.

THE JOURNAL is in receipt of a letter telling of a good opening in a good California town for a Democratic paper. Call and get the address if you are interested.

The dread and foreboding which almost invariably comes over a young wife, just ere the advent of the first little darling who shall call her mother, is one of the unnatural burdens which civilization has imposed upon the privilege of motherhood.

There ought not to be such an overwhelming sense of depression and weakness as a woman feels at this time and there would not be if she was in a perfectly strong and healthy condition. In thousands of cases motherhood has been divested of all its dangers and a large proportion of its pain by the use of Dr. Pierce's Favorite Prescription, which is the most marvelous remedy ever discovered for restoring complete organic health and strength to the delicate special structure involved in motherhood. Taken early during the prospective time it makes the mother strong, energetic and cheerful and carries her through the period of trial with comparative comfort and ease. It increases the baby's natural constitutional vigor and adds to the joys of motherhood the supreme satisfaction of a strong, robust, lusty infant. "Favorite Prescription" is also the best supportive tonic for nursing mothers. Every expectant mother will appreciate what is said by Mrs. Fannie M. Harry, of Galesburg, Ills., 1545 Churchill Ave.) In a letter to Dr. Pierce she writes

"I have used your medicines in my family for a long time, and find them to be all that is claimed. I cannot recommend them too highly. My confinement was made easy, as I experienced none of the pains such as others have at that period, and the first born is the one that mothers fear so much. Besides, the medicine has helped me in many other ways. I would recommend all afflicted women to try Dr. Pierce's valuable medicines, and thus become well and strong."

CURRENT EVENTS.

No previous contest for the Canada cup has ever aroused such intense and widespread interest on both sides of the boundary lines as the races between the Genessee and the Beaver, which begin this afternoon on Lake Ontario, off Toronto harbor. Hundreds of strangers are in town from Chicago, Cleveland, Toledo, Milwaukee, Buffalo, Detroit, New York, Rochester and many other cities, eager to witness the great struggle between the two speediest yachts on the great lakes.

Genessee, the American challenger, is a center-board yacht, forty-five feet over all, with a load water line length of twenty-seven feet and beam of eleven feet six inches. She was built by Hanley, the well-known designer and builder of boats, at Quincy Point, Mass. All of her windward canvas is in mainsail and jib, and in the trial races at Chicago she sailed without any topsail, her high-peaked mainsail answering for both. She steers with a six-foot tiller, with a light tackle, handy to use in a breeze. Her skipper in the present contests is Charles G. Davis, reputed to be the most skillful amateur sailor on Long Island Sound.

Beaver, unlike the Genessee, is a cutter-rigged yacht. She has the same length, forty-five feet over all, but is twenty-five feet on the load water line. She has a much narrower beam—nine feet three inches—and her draught is six feet three inches. Like Genessee she carries only mainsail and jib, with no topsail. She was designed by H. C. Payne, the Englishman whose successes in building yachts have been many, and was constructed by Captain A. G. Andrews, at Oakville. Her skipper is Commodore Jarvis, recognized as one of the most skillful amateur sailors on Lake Ontario.

Suburban residents of Chicago and other western cities are much concerned over the proposition being considered at today's meeting of general passenger agents to refuse to check baggage on tickets costing less than fifty cents. Under present regulations a passenger may have baggage checked on any kind of a ticket, some of which cost only five cents a ride. The railroad companies say that there is no money in carrying baggage on a ticket for less than fifteen miles, but those who ride on the tickets for short distances declare that not more than 1 per cent of the passengers who ride less than 15 miles carry baggage, so that the railroads are paid from $10 to $50 in fare for every trunk carried to or from the suburbs.

At Detroit, Mich., two hundred delegates have registered at the hotels for the fifth biendial meeting of the Supreme Court of the Foresters of America, which opens tomorrow for a five days session. Nearly every state is represented among the visitors. This evening a public reception will be given in their honor and the first business session will be called to order at ten o'clock tomorrow morning by Joshua Shaw, of Brooklyn, supreme chief ranger of the order.

At Columbus, O., headquarters were opened at the Great Southern hotel today for the state convention of the Union Reform party, which will be in session tomorrow and Wednesday for the nomination of a state ticket and the transaction of other business connected with the campaign which the party expects to make in Ohio this fall. The arrivals number several hundred delegates and alternates, representing eighty-five counties in which the party has been organized. The members attach much importance to the convention, realizing that as Ohio is the state in which the work began, and from which it spread to other states, the proceedings of the meeting will be watched with interest by the party's followers all over the county. This afternoon committee meetings will be held and the convention proper will assemble at nine o'clock tomorrow morning in the board of trade auditorium.

At Omaha, Neb., the first installment of delegates and visitors to the state conventions of the Populists, Democrats and Free Silver Republicans put in an appearance today. The delegates on the ground declare that the silver allies are preparing to make the fight of their life to carry Nebraska this fall. There are numerous candidates for the nomination as supreme judge, the principal office to be filled this fall, but to which of the three wings of the fusionists the nomination will be given appears very uncertain as both of the Populist and Democratic delegates assert with much vigor that they wil name the candidate.

JOURNAL X RAY'S."

A hint to the "Push"—"Don't kick till you're spurred," gentlemen.

* * *

The man with an injunction is the "bogy-man" of the present city administration.

* * *

The popular vote of Salem applied to the question "Is Willson Avenue the logical site for the new Federal public building? "would take the kernel out of the "injunction" nut, in a hurry.

* * *

The Salem "kicker" is in a state of abnormal excitement and activity. The city is about to be wonderfully improved and beautified by the erection of a splendid edifice upon one of the loveliest sites within her borders; hence, his paroxysm is accounted for.

* * *

A Salem financier and heavy taxpayer has dubbed the present aldermanic board of this city, the "50-per-cent council" in deference to the fact that it has not started a single economic scheme that has not redounded to the benefit of the city and its taxpayers at that handsome ratio.

* * *

It is a matter of remark that the majority of the property owners of this city, who made tenders of sites to "Uncle Sam," for the public building to be erected here, declare that in default of their own proffers, the selection of Willson Avenue as a site is the very best the government could do.

* * *

The climax of political bigotry as exemplified by the "Push" at Salem, is found in the unwavering and bitter determination of that element to defeat any and every measure instituted by the citizens' administration, but the council, is not borrowing any trouble, and will continue to do all it has undertaken, positive that the people are behind it in every honest plan for municipal economy and improvement.

Following is from a letter written by an American traveling in Italy and tells of the superiority of American women as housekeepers. He says:

We may have been particularly impressed with the homes in Bologna because we had more of a glimpse into them than is usually alloted to tourists, having had the good fortune to be entertained in the home of Mr. Washington Pfeiffer. He was an Iowa boy who has lived for three decades in this Italian city, winning for himself not only great wealth, but the respect of the business world of all northern Italy. For the winning of his bride he returned to his native land and Iowa. You will never know what a wise move that was until you have lived among women of other lands. Italy may have the history, Paris the art, Germany the philosophy, England the blood, Russia the earth, and Sweden the titles, but America has the woman—"the most charming, clever, agreeable women in the whole world."

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. PAY AS THEY GO.

How London Papers Charge for Society Writeups.

All the personal paragraphs and society news that appear in the London papers are paid for except that which relates to the royal family, the nobility and the diplomatic corps. If an ordinary citizen gives a ball or marries off his daughter, or entertains the Prince of Wales at dinner, he is compelled to pay for his glory. Mrs. John W. Mackay, Mr. William Waldorf Astor and other ordinary persons, native or foreign, in London society, pay for every notice they receive in the newspapers. Sometimes the report of a ball or a wedding costs $300 or $400 for every newspaper it appears in. The following standing announcement concerning what is known as the "agony column" will be found in the London papers:

"All society, personal and fashionable paragrabhs, except those relating to royalty and official incidents, will be charged for at a minimum rate of $5 for two lines, each succeeding line $2.50 additional."

Therefore when any of your friends in London send you a copy of an English newspaper containing a personal notice you may understand that it has been paid for. All the advertising in English newspapers is on outside pages. The news and other reading matter is on the inside.—Philadelphia Times.

A Young One.

One of the new industries being pushed at Salem, and one that deserves patronage and recognition is the Salem Swiss cheese factory, conducted by F. A. Schubinder, a native Swiss gentleman, who makes all the delicious cream cheeses from Limburger down to the mild "fromage de brie" that spreads on bread like fresh butter. This office is indebted to him for a lusty young brick cheese, just old enough to have flavor without being offensive to strangers.

Off for Manila.

SEATTLE, Aug. 21. — The transport Garonne sailed for Manila at 9 o'clock Saturday night. She had 400 horses belonging to the Third cavalry on board. The next transport to sail will be the Athenian, which will be ready tomorrow. The St. Paul, which arrived from San Francisco will carry the officers and men of the Third cavalry to the number of 750. The remainidg 225 will be distributed among the Garonne, Athenian and Victoria. The St. Paul is scheduled to sail Tuesday. All the transports will stop at Dutch harbor, Alaska, and Kobe, Japan, where the men, and horses will be disembarked for a rest.

The transport Siam sailed for Manila Saturday from 'Frisco, with 350 mules, which will be used for military service in the Philippines. The vessel will stop at Honolulu for several days, and the mules will be given a run ashore as a rest from their sea voyage.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Sacrificed to Blood Poison.

Those who have never had Blood Poison can not know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its taint upon countless innocent ones.

Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little one was unequal to the struggle, and its life was yielded up to the fearful poison. For six long years I suffered untold misery. I was covered with sores and ulcers from head to foot, and no language can express my feelings of woe during those long years. I had the best medical treatment. Several physicians successively treated me, but all to no purpose. The mercury and potash seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. We got two bottles, and I felt hope again revive in my breast—hope for health and happiness again. I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases.

A LIFE SAVED.

Dr. J. F. Cook, the Botanical Specialist, Succeeds Where Other Fail.

To whom it may concern:

This is to certify that Bertha P. Conner, of Mt. Angel precinct, Marion county, Oregon, has suffered from a cancerous growth in the left ear for about three years. The growth was cut out twice and burned out once by Albany Physicians, but the growth came back as bad as ever, and pained her so badly that she had to be taken from school. After three week's treatment by Dr. J. F. Cook, of Salem, Oregon, the Botanical Specialist, the growth entirely disappeared, and at this date, four months since treatment was begun, the growth has not reappeared, and the ear has entirely healed leaving only the scars inflicted by the Albany doctors.

I hereby certify that the above statement is absolutely true, and that Bertha P Conner, the person mentioned in the affidavit, has resided in my family since early childhood, bearing the relationship to me of niece.
