POPULIST PATRIOTISM.

It seems to be of a practical sort: it does something for the volunteers at least. The first Nebraska volunteers will go home from the Presidio at state expense. It costs the state \$35,000 but there is nothing too good for the volunteers from that wild and woolly whiskered commonwealth. The people of that state know that their regiment gets travel pay—three or four times as much as the Oregon got. In addition to that the Nebraska regiment will be given a reception at Lincoln, a banquet, and each of the companies will be accorded a royal reception at the town it came from.

Of course, those wild-eyed Nebraska Populists are not good financiers like our Oregon politicians. It is not recorded that they charged the soldiers \$18.34 for second-hand suits, when new ones cost the state \$8 to \$12. The boys had to put up the \$18.34 apiece, but the State of Oregon will put in its bill for uniforms to Uncle Sam at full price and the military fund will be enriched to that extent. The fool Pops of Nebraska don't know enough to make money out of the volunteers as they do in Oregon. They are not financiers. They will probably present the boys of the first Nebraska with their uniforms before they get through. Populist patriotism never knows when to stop. The politicians of Oregon know better how to control themselves.

Our readers will excuse a vein of sarcasm in the foregoing, when it is recalled that the Oregon volunteers were allowed to come home at their own expense. After the state military board under a former administration had sold the volunteers old suits at about two prices, the present administration could have scored a ten strike by a little display of Populist patriotism, a la Nebraska. The Populists of Nebraska had no difficulty in working Oregon for \$15,000 for their Omaha fair. Does anyone doubt that Oregon will be bled \$25,000 or \$30,000 for a Paris exposition commission? Doesn't Oregon need an infusion of Pop-

Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the Cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try Dr. Williams' Pink Pills for Pale People, which was so strongly recommended. The first bottle produced an improvement. I continued to take the medicine, and in four months the last little seed dropped off. The years have elapsed, and not a sign of the disease has returned."

It is dangerous to experiment with Cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach Cancer.

SAU EXPERIENCE.

Douglas county is now experiencing some of the evils which naturally result from allowing a horde of long-haired and disreputable Populists, Democrats and Silver Republicans to band together under the name of fusion and wrest the offices from the hands of the smooth and highly intelligent gentlemen who had so long mis-guided the destinies of that division of the state.

It is now several years since the riff-raff, ragtag and bobtail grasped the reins of power in Douglas county, and it seems as if the people ought to be getting tired of having the county affairs run by amateurs, instead of by skilled professional politicians who know just how to do it; but, on the contrary, they seem better satisfied all the time, endorsed the movement at their last election, and say they now have the best county administration they have had for many years.

And, to show the innate selfishness which influences the ordinary taxpayer, the main fact quoted in commendation of the present "three-headed dog" administration is that it has put the finances of the county in first-class shape and has reduced the expenses to a minimum.

Any one who conscientiously reads the various organs of the push politicians knows that the election of any ticket not directly responsible to some well-regulated party machine is an offense against the most sacred tenets of "business" politics, and is bound to result in disaster, if not to the taxpayers at least to some more or less deserving politicians.

THE DREYFUS LETTERS.

These letters written from the historical prisoner of Devil's Island to his wife from his iron prison cage are published with portraits by Harper Brothers and are fast convincing the world of the innocence of Captain Dreyfus. They cover the period from December, 1894, to March 1898 and contain the only defense which he has ever made. The strictness of prison discipline prevented his discussing the merits of his case directly, and it is only by the revelation of the feelings of the individual, above all the loyalty of the man for the government that is persecuting him, that no one can read these letters without being persuaded they come from an injured and innocent man.

The Dreyfus family were Alsacian Jews of German descent. They had amassed a large fortune prior to the Franco-Prussian war of 1870. But so loyal were they to the French government that when Alsace went under the German flag, three of the Dreyfus brothers expatriated themselves and went to Paris, leaving their business and property in care of a fourth brother. He is one of those men who served with credit in three French regiments and was made Captain of the general staff of the army, who was convicted on forged testimony of revealing the plans of fortifications to the German army officers. He was degraded before his regiment and sentenced to exile for life in a military prison on the coast of French Guiana, South America.

Fifty months imprisonment has not weakened the spirit of the accused. He has gained the sympathy of the whole world and it is not Alfred Dreyfus who is on trial but the French government. In one letter he says: "my health is good. The spirit dominates the body, as it does everything else. Never will I admit the idea that it would be possible for our children to enter upon life with a dishonored name. It is from the inspiration of this thought, common to us both, that you ought to draw new life for your indomitable will." This reveals the high spirit and resolution of a heroic soul.

GOVERNMENT OFFICIALISM.

Hon. J. E. David, of Croy, Sherman county, protests against the government adopting a "rental policy." He shows how this plan of leasing the public lands in Oregon will crowd out the homesteader and permit the creation of a favored class of land and cattle monopolists.

Mr. David shows that, as against these leaseholders of thousands of acres of government lands to horse, cattle and sheep kings and syndicates, the homesteader with his pitiful 160 acres stands no show whatever, but will be compelled to move out and abandon his home. He protests as a citizen that our senators and congressmen should oppose such a law, that it is a specious paternalism, and will work injury to poor homesteaders.

Mr. David is a well meaning honest intelligent Republican farmer, but his appeal for sympathy to an organ of monopoly is as futile as would be that of a beggar in rags striking a Rothschild for a loan of ducats. In a column editorial he is told that there is no paternalism whatever involved; that it is the highest wisdom on the part of our government towards the struggling and impoverished class who eke out a living by running herds of thousands over the public and private lands of Oregon, for a nominal sum paid to some striker for the federal office-holding machine.

Mr. David is too late. The leasing system is already enacted into law and established as a practice. It will take years to root it out. No poor man can get the benefit of it except as he becomes an employe under the system for the government or for some lessee. In the meantime the swarm of federal officials increaseth. Like the government timber land reserves, the leasehold system multiplies the official class both at Washington and in this state. This process kept up will leave society divided into beneficiaries and employes of the government, and home less impoverished dependants upon the favored class. The official and favored class will form a ruling aristocracy, as completely established as in a European monarchy. Compared to this evil the wars between the cattle and sheep kings, the slaughter of trespassing cattle, the insane victims of isolation who fill our asylums and prison, these evils are a mere bagatelle. Federalism, officialism and paternalism are the most dangerous foes of American institutions. Filipinos are mosquitos compared to those bloodsuckers.

Mr. David kicks at the government buying grass seed and sending out "grass rangers" to seed these leased lands for the cattle syndicates. Why should this farmer Republican kick at this any more than at the employment of army of "forest rangers"? He says they might as well buy seed

"Knowledge is power." There is one kind of knowledge that is in the hands of a woman. It is the knowledge of the physical make-up and the home treatment of diseases peculiar to her sex. There is a great home medical book that teaches all this. It is Dr. Pierce's Common Sense Medical Advice. An honest medicine dealer will sell it to you. It costs \$1.00; now it is free. For a paper covered copy send a one-cent stamp, to cover mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., French chlad binding, 31 stamps.

This great book tells all about a medicine that is an infallible cure for all weakness and disease of the delicate organs distinctly feminine. That medicine is Dr. Pierce's Favorite Prescription. During the past thirty years many thousands of women have used it with marvelous results. It imparts health, vigor, vitality, strength and elasticity to the organs that bear the burdens of maternity. It is fit for wifehood and motherhood. Taken during the period of gestation, it makes the coming of baby easy and almost painless. It completely restores the woman's neglected health. An honest medicine dealer will sell it to you. It costs \$1.00; now it is free. For a paper covered copy send a one-cent stamp, to cover mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., French chlad binding, 31 stamps.

Not the Usual Fisherman's Luck. The party of hoppers chartered by Ed C. Herron returned last evening from a days fishing on the Nestuck river where they did some fine work in the time given, catching some superb Salmon trout. The party caught 80 fine trout and two large silver-sided salmon. The weather being so bad the party could not remain as long as they wished.

Quick Time.

CHICAGO, Aug. 23.—A special to the Tribune from Victoria, B. C., says: From London, England, to Dawson City, Klondike, in 17 days is the new record made by a mining engineer from South Africa. He left London for Southampton by train, caught an Atlantic liner, in which he crossed the ocean in a little over six days. The trip from New York to Vancouver was made in four days. From Seattle trip to Skagway was made in less than three days.

Close connections were made with the White Pass & Yukon Railroad and the lake and river steamers, and he was landed in Dawson 17 days from London.

Phenomenal Run.
TACOMA, Aug. 23.—The present run of sockeye salmon on lower Puget sound is so phenomenal as to make it almost certain that the Puget sound salmon pack will be large enough to compensate for the shortage in the packs on the Fraser and Columbia rivers. If the fall run of humpback and silversides, which should commence soon, equals the sockeye run now closing, all records of salmon packing will be surpassed.

THE EVENING PAPER.

The busy housewife has no time to cook over the advertisement in a morning paper. If she has, she cannot arrange her household in a moment so that she can go down town to take advantage of the bargains offered. When she reads of bargain in an evening paper, however, she makes preparations to start early next morning, and a large percentage of those early morning shoppers who struggle for the first places at the bargain counters are the readers of the evening paper, and not, as might be supposed, the readers of the morning paper.—Binghamton (N. Y.) Herald.

A LIFE SAVED.

Dr. J. F. Cook, the Botanical Specialist, Succeeds Where Other Fail.

To whom it may concern:
This is to certify that Bertha P. Conner, of Mt. Angel precinct, Marion county, Oregon, has suffered from a cancerous growth in the left ear for about three years. The growth was cut out twice and burned out once by Albany Physicians, but the growth came back as bad as ever, and pained her so badly that she had to be taken from school. After three weeks' treatment by Dr. J. F. Cook, of Salem, Oregon, the Botanical Specialist, the growth entirely disappeared, and at this date, four months since treatment was begun, the growth has not reappeared, and the ear has entirely healed, leaving only the scars inflicted by the Albany doctors.

I hereby certify that the above statement is absolutely true, and that Bertha P. Conner, the person mentioned in the affidavit, has resided in my family since early childhood, bearing the relationship to me of niece.
H. C. LOWN.
Subscribed and sworn to before me this eighth day of June, 1899, W. W. Hall, county clerk of Marion county, Oregon.

A Palace of Salt.
Utah's glittering Salt Palace, with its Midway Plaisance and other attractions, opens at Salt Lake City August 21st. The Rio Grande Western, the only line running through the Mormon Capital, has arranged to give holders of all day tickets a day stopover at Salt Lake in order that they may have an opportunity of visiting this wonderful structure, built of salt crystals taken from the brine of the Great Salt Lake itself.

The inauguration of the Rio Grande Western's dining car service, doing away with the necessity of stopping trains at eating stations, leaves nothing to be desired for an ideal trip across the continent; for the equipment and train service are equal, if not superior, to those of any of the trans-continental lines. Furthermore, no line traverses any section of the American Continent where there is so much grandeur of scenery. A daylight ride through the heart of the Rockies leave nothing to be desired.
