## ESTER-HAZY

### Said He Wrote the Bordeaux,

### So Swore Strong, the English Writer.

### The French Justice Farce Drags Its Weary Length Along.

By Associated Press to the Journal.

RENNES, Aug. 25.—At the opening of the Dreyfus court-martial today, the clerk read a medical certificate declaring it impossible for Du Clam to leave his bed to come to Rennes and testify. Rowland Strong, the England newspaper man deposited to the fact that Ester-hazy professed to him that he wrote the Bordeaux.

The next witness was Gobert, expert in the bank of France which was most emphatic in attributing the Bordeaux to Ester-hazy.

Bertillon, the noted Anthropometer, was called next. He requested permission to bring in diagrams and papers and returned at the head of a squad consisting of an infantry sergeant and four privates, all staggering under the weight of immense leather satchels, bulging with documents, charts etc. A roar of laughter echoed throughout the court even the judges were unable to suppress a smile.

Bertillon, whom Dreyfusards describe as a "dangerous man" spent the remaining hours of session in explaining in unintelligible terms his "infallible system." Proving Dreyfus as author of the Bordeaux.

LONDON, Aug. 25.—The Rennes correspondent of the Daily News says: The more compromised members of the general staff are considering the policy of an appeal to mercy as a last resort.

### Crops in India.

By Associated Press to the Journal.

BOMBAY, Aug. 24.—The financial statement presented to the Bombay council today says it is thought only the Deccan and Karnatik will be affected by the unexpected break in the rains. It seems likely that Guzrat will be worse off if things continue as they are now, for it would have to face an exceedingly disastrous situation.

NEW YORK, Aug. 25.—A dispatch from Paris to the Evening Journal says there was serious rioting between the Anti-Dreyfusites and the friends of Dreyfus in the Rue Lafayette St. Denis in which twelve persons were badly hurt. The police charged upon the rioters and made many arrests.

### EXPLOSION.

Five Miners Blown to Atoms by Dynamite.

By Associated Press to the Journal.

JOPLIN, Mo., Aug. 25.—Five miners were killed by an explosion of dynamite last evening at the Margaret Mining Company's mill, near Cartersville. The dead are David Sinclair, R. J. Robbins, Henry Gilbert, William Messmore and Frank Huddleston.

While Gilbert was engaged in the preparation of a blast of stick of dynamite which he held in his hand exploded and the concussion exploded a box of dynamite which stood near by. The big concentrating plant was demolished and the five men at work there were blown into bits. Portions of their bodies were found hundreds of feet from where they had been working. The shock of the explosion was felt at Oronogo, three miles away. The plant, which was a new one, owned by Henry Gilbert, one of the men killed, stood on the old Hannum and McElroy tract of the American Zinc, Lead & Smelting company's land.

One of the victims, David Sinclair, of Duluth, Minn., was investing the mine in the interest of a Boston syndicate, which was negotiating for its purchase. Robbins was a Scudalia, Mo., real estate agent, who accompanied him. Both of Sinclair's legs were torn off, and his head was all but severed from his body. Gilbert's body was cut in two and the legs were found 200 feet from the trunk. The only persons on the premises who escaped death were two miners working in a shaft.

### MILLIONAIRE FAILS.

Suspension Likely to Ruin Many Other Houses.

By Associated Press to the Journal.

LONDON, Aug. 25.—The Leader today publishes a dispatch from its St. Petersburg correspondent, saying that the suspension of M. von Derweiss, a millionaire of that city, has produced a depressing effect on the bourse and in

financial circles. His capital was estimated to have been between 50,000,000 and 60,000,000 roubles, but after his debts are paid he will scarcely have 6,000,000 roubles left. His fortune was largely sunk in a group of undertakings, each one supporting the other. He regarded one of the most important systems of railroads in Russia as his own, and he was connected with a number of steamers plying on the Volga and the Caspian sea, a machine factory, an insurance company, a cement factory and a number of smaller concerns. It is thought the failure is likely to ruin many other big houses, including that of a Moscow capitalist named Mamontow, who has suspended for 24,000,000 roubles.

## ANOTHER STORY.

### General Jubert, South African Commander in Chief.

Writes an Interesting Letter to George VanSiccle of New York.

By Associated Press to the Journal.

NEW YORK, Aug. 25.—George Van Siccle, a lawyer of this city, received an interesting letter from General Jubert, commander in chief of the South African Republic, in which the general says: "Your letter is at hand. I am glad to learn that a person can still be found—and that too in the United States—who thinks the Transvaal may perhaps be in the right."

It is impossible to dispel from the minds of the Boers the idea that Chamberlain has been involved with Rhodes in the raid and ravages at Jamestown, upon the republic in 1896 and that it is this failure that lies in his throat, a lump so hard that he was unable to swallow it and this he uses as a false pretense to declare war against us for the asserted grievances of the Uitlanders, but in order that he may annihilate our small people and annex our country.

CAPE TOWN, Aug. 25.—The Delagon bay, incident, coupled with the recent transit of a large amount of ammunition, has directed the attention of the British officials to the immense accumulations of war munitions in the South African republic and the Transvaal.

The Uitlanders being debarred from carrying arms, the supply of weapons as shown in the Lourenco Marques "Delagoa" returns for three years is greatly in excess of the burghers' requirements, and consequently there is a growing feeling among the British community in South Africa that no settlement of the existing crisis will insure lasting peace, unless it includes a provision for the reduction of armaments.

There were fully 100,000 strangers in town. The troops marched to the Presidio escorted by the Third artillery, Colorado regiment and the national guard. Immense crowds lined the streets for miles and gave the boys a royal welcome home.

### Bubonic Plague Feared.

WASHINGTON, Aug. 25.—Owing to the conflict of authority between the state and national quarantine authorities, at San Francisco, Secretary Gage, after a consultation, with Surgeon General Wyman, telegraphed the collector of customs at that port, to employ sufficient force to enforce the federal quarantine regulations. The marine hospital service is laboring earnestly to keep infectious disease out of the country, and at San Francisco it is directing its efforts practically against the bubonic plague whose introduction is feared from the Orient. The local quarantine authorities at San Francisco have it is said, disregarded the national quarantine regulations, which the federal authorities believe it is absolutely necessary to enforce.
