The People Will Be Proud.

The new board appointed by Governor Geer starts out with a clean record, and it proposes to keep out of debt and at the same time make Oregon's coming state fair a state fair in reality—one that the people will be proud of and a benefit to those who attend. The dates are from September 15 to 22, inclusive.—Brownsville Times.

The Oregon Regiment in the Philippines

Capt. H. L. Wells will soon start on a tour through the state giving illustrated lectures on the work of the Oregon regiment in the Philippines. His views are all first-class, being carefully selected to clearly illustrate every phase of the work done. They also give a clear idea of roads, trenches, rice fields, rivers, swamps and nipa huts, manners and customs of the natives and general characteristics of the country.

Capt. Wells was for 14 years a member of the O. N. G., which, with his record as Commander of Co. "L," Second Oregon, United States Volunteers, gives him a military record equalled by few volunteer officers.

During the war he established a national reputation as a special correspondent for the "New York Evening Post," "Chicago Chronicle" and "St. Louis Globe-Democrat." Those who read his fair and impartial articles on military operations and general condition of affairs in the islands, need no further assurance that his lectures will be a rare treat to all interested in the Philippines and the work of the regiment. Dates and further announcement of the Salem lecture will be given latter.

SOFT WHEAT.

Some Grain Threshed too Soon—How to Treat It.

It seems that the warning given by the THE JOURNAL, which was copied by several of the valley papers without credit, was not heeded by all the farmers, and some of them have threshed their grain too soon after the rain. The Salem flouring mills have received several samples of wheat threshed before it was sufficiently dried out, which had to be rejected as unfit for milling purposes. As the best thing that can be done for such grain, the mill men advise that it be sacked quite loosely, not over 1½ bushels in a sack, and handled over every day, reversing ends, and be kept in as dry a place as possible where the air can circulate around. This will save much that would otherwise be ruined.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years, placed me in this terrible condition; during that time I old everything I heard of but never found any relief; once was my case until I began using CASCARETS. I now have from one to three passages a day, and if I was rich I would give $100.00 for each movement; it is such a relief." AYLMER L. HUNT, 1039 Russell St., Detroit, Mich.

A State Affair.

Is to be held at the old stand in Salem, commencing on September 15, and closing on the 22d, and as its promoters are making great efforts to make this the year, when new vigor is put into the meeting, every citizen of the state should deem it a privilege and duty to assist them by sending in exhibits, introducing their best stock, trying the speed of their horses, and then enjoying the fair by taking the family down and attending. In short, let us remember that this is a state affair.—The Dallas Daily Cronicle.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.
