Laws restricting the use of alum in bread have been in force in England, Germany and France for many years. In this country, in Minnesota, Wisconsin, Michigan, Ohio, Kentucky and several other states, direct legislation in reference to the sale of alum baking powders has also been effected.

Following are the names of some of the brands of baking powder sold in this vicinity which are shown by recent analysis to contain alum: Honeskeepers and grocers should cut the list out and keep it for reference.

WARRANTS DRAWN.

County Expenses Cut Down and Financial Condition Improved.

W. W. Hall, county clerk, is busy preparing an abstract of the county warrants issued since April 1, 1899. A good showing will be made for the administration of county affairs for the last year.

Expenses have been cut down materially from the figures reached the year before.

For the six months ending October 1st, the warrants drawn foot up \$23,901, as against \$36,711 for the corresponding period of last year. For the year the amounts are \$52,534.32 and \$71,488.59, respectively, a reduction of \$18,954.28.

Warrants have been called by County Treasurer Downing up to July 8th, 1898, and with about \$20,000 to be turned in by the sheriff, the financial condition of the county is considered to be greatly improved.

A STRINGENT FOOD LAW.

Prohibits the Use of Arsenic or Alum in All Articles of Diet.

The law enacted by the Missouri legislature, a copy of which was recently published in our columns, and which prohibits the manufacture or sale of any article intended for food or to be used in the preparation of food, which contains alum, arsenic, ammonia, etc., places that state in the lead in the matter of sanitary legislation.

Boers Don't Take Water Worth a Cent.

Both Sides Are Preparing for Hostilities.

By Associated Press to the Journal.

LONDON, Sept. 15.—The blue book, containing the last Transvaal dispatch of Chamberlain relating to matters which led up to the dispatch being sent, was issued today. The blue book throws no new light on the situation as it is today, except to show that the commissioner's patience has reached the ebbing point.

Continuing, Kruger is reported to have added: "The aliens of the Transvaal have the same commercial rights as burghers and have always enjoyed them without interference. In my opinion there's no cause whatever for war. Everything could be settled by arbitration."

The second edition of the Times today prints a special dispatch from Newcastle, Natal, dated Sept. 15, which says: "There is nothing to confirm the reports that the Boers will concede Chamberlain's demands. On the contrary it is stated that 3000 men
