OREGON LOCKS.
 The board of government engineers held a meeting at Portland Monday for the purpose of hearing from people who might be interested in the proposed purchase by the general government of the locks at Oregon City, either for or against.

The board, consisting of Major W. H. Heuer, of San Francisco, and Captain W. C. Langitt and W. W. Harris, of Portland, held two sittings, which were but slightly attended, no one appearing from the upper Willamette valley.
 No one appeared to openly oppose the proposed action of the government. The Willamette Paper Co., by its attorney, requested the board to give due consideration to the rights of the company, which has leases from the Portland General Electric Co., present owners of the locks, running until 1937.

Henry B. Thielson, of Salem, Congressman Tongue, J. W. Watt, of Yamhill county and H. W. Hogue, of Portland, addressed the engineers in favor of the purchase of the locks.
 Mr. Thielson, who is secretary of the Salem chamber of commerce, was the only one to present any array of facts and figures. He has been at work for some time, gathering data as to the tonnage of freight shipments which would be affected by the proposed action and abolition of the lock tolls of 50 cents per ton. This, Mr. Thielson explained, has been a task of no small difficulty, owing to the facts that there are no published statistics covering the proper territory that are at all reliable.

From Mr. Thielson's exhaustive figures the following summary is made:

Tonnage of—	No. of tons.
1. Cattle	9,438
2. Sheep	7,280
3. Swine	1,530
4. Hay	80,700
5. Wood	500
6. Hops	6,770
7. Potatoes	36,522
8. Green fruit	1,460
9. Dried fruit	3,465
10. Wheat	150,870
11. Oats	30,556
12. Rye and barley	3,381
13. Merchandise	74,321
14. Cordwood	127,500
Total	500,106

This showing indicates that a tonnage of over 500,000 tons would be affected by a reduction of 50 cents per ton in freight rates, which would be the result of making the locks free, whether the freight were shipped by water or rail.

That would mean a saving of \$250,000

Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Good example for Scorchers.
 J. C. Gardner, the blacksmith, is carrying his arm in a sling as a result of throwing himself from his bicycle to avoid running over a child. He was riding home to dinner yesterday, going at a good rate of speed, when as he turned the corner of Liberty and Center streets he suddenly saw directly in his path a little girl about 4 years old. There was no time nor room to turn and miss her nor to dismount, so with instantaneous decision Mr. Gardner threw himself and wheel bodily toward the outside of the walk, trying to fall on the sward. But he fell on the edge of the sidewalk, breaking his left arm at the elbow. He will be laid up for awhile, but he has the satisfaction of knowing that his prompt and unselfish action probably saved the child from serious injury.

S.S.S. For Blood
 is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S.S.S. is purely vegetable, and is the only blood remedy guaranteed to contain no poisons, mercury or other mineral.

JOURNAL X RAYS.
 An exchange asks why the law schools are so crowded with students. Because we've got too many laws, that's all.

Direct legislation clubs are being organized in Washington. It's to be hoped that respectable men lead the movement.

Mark Hanna thinks the American press should have an editorial censorship. That's what the czar of Russia thinks about his country.

It is suggested that the next legislature pass a law compelling the State Agricultural College to make an exhibit at the State Agricultural Fair.

George Dewey, son of the admiral, is no Hobson. When a Cincinnati girl kissed him as a token of her admiration for his father, the junior Dewey started on osculatory matinee. He ran out of the door leaving his sample case behind.

The Portland police have found out that the trial of a Chinaman is productive of big fees as that of a white man, and now the Celestials are being tried right and left to "suppress gambling" among the brethren. Hit him again, he has no friends.

Hurrah, Dreyfus is a free man. Now let the curtain fall. The play is over—Albany Democrat.

The trouble is the play is not over. The main actors, Dreyfus, and Zola now have their freedom and the dononement will follow sooner or later.

One of Oregon's leading Republicans called at The Journal office yesterday to thank the editor for publishing the news about Ollie's rotten press censorship which has been suppressed by the narrow party organs. The truth is no Republican can uphold such work and preserve his love of country.

Notwithstanding the fine weather the attendance at the state fair has been slim. The report is unanimous that the exhibit is not half filled. The truth is the management is practically the same old chestnut which does not tall for horse races without the attendant exhibits.—Albany Dem.

What did Linn county do towards it?
 The passion for getting something for nothing is very strong. Two well dressed men tried to get into the state fair by climbing over the fence. They were discovered and made to pay the regular price or go to jail. One of the men paid with a twenty dollar piece and had \$24 in his pocket and the other was loaded nearly as well. That kind of thief is no better than any other.—Ex.

In California they make the railroads pay taxes. For instance, we notice in the proceedings of the board of supervisors for Siskiyou county, published in the Yreka Journal that the 83.18 miles of roadbed in that county are assessed at \$17,498.33 a mile. The Pullman Palace Car Co.'s rolling stock is assessed at \$68.61 a mile. In that state the assessment question has long since been fought through the courts and the company pays without a murmur upon the high valuation of its property fixed by state board of equalization.

Incidentally,
 Fred Frinico, aged 13 years, and Ladie Mann, aged 11 years, were yesterday received at the Reform school, from Ashland. The boys are incorrigible and no doubt this course of training will make better men of them.

Will Address Willamette
 Bishop J. H. Vincent will deliver an educational address at the opening exercises of Willamette University next Monday, Sept. 25th, at 2:30 p. m., in the University school.
